

AIGP Valid Vce & Simulation AIGP Questions

DOWNLOAD the newest Dumper AIGP PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1wXRiFXs_iFDlyT_JD5p93rEtopXE1OK1

The great advantage of the APP online version is if only the clients use our AIGP certification guide in the environment with the internet for the first time on any electronic equipment they can use our AIGP test materials offline later. So the clients can carry about their electronic equipment available on their hands and when they want to use them to learn our qualification test guide. So the clients can break through the limits of the time and environment and learn our AIGP Certification guide at their own wills. This is an outstanding merit of the APP online version.

We are living in the highly competitive world now. We have no choice but improve our soft power, such as get AIGP certification. It is of great significance to have AIGP guide torrents to pass exams as well as highlight your resume, thus helping you achieve success in your workplace. If you want to pass your AIGP Exam and get your certification, we can make sure that our AIGP guide questions will be your ideal choice. Our company will provide you with professional team, high quality service and reasonable price on AIGP exam questions.

Simulation AIGP Questions, AIGP Exam Overviews

As practice makes perfect, we offer three different formats of IAPP AIGP exam study material to practice and prepare for the IAPP Certified Artificial Intelligence Governance Professional (AIGP) exam. Our IAPP AIGP practice test simulates the real AIGP exam and helps applicants kill exam anxiety. These AIGP practice exams provide candidates with an accurate assessment of their readiness for the AIGP test.

IAPP Certified Artificial Intelligence Governance Professional Sample Questions (Q120-Q125):

NEW QUESTION # 120

What is the primary purpose of an AI impact assessment?

- A. To escalate the findings to the appropriate owner(s)

- B. To determine whether a conformity assessment is needed
- C. To anticipate and manage the potential risks and harms of an AI system
- D. To identify and measure the benefits of an AI system

Answer: C

Explanation:

The correct answer is D. AI Impact Assessments are primarily used to identify and manage risks and harms associated with AI systems.

From the AIGP Body of Knowledge:

"The goal of an AI impact assessment is to ensure that risks are identified, evaluated, and mitigated prior to or during development and deployment." As further confirmed in the AI Governance in Practice Report 2024 (Part III):

"Risk-based tools like DPIAs and Algorithmic Impact Assessments help identify potential risks to individuals and society, enabling organizations to implement mitigation plans and safeguards." While benefits may be noted in such assessments, the core objective is to manage risks and promote responsible AI.

NEW QUESTION # 121

Scenario:

A mid-sized tech firm is building its AI governance program and is exploring ISO/IEC standards that could support consistency in terminology and risk assessment processes across teams.

ISO/IEC 22989 and ISO/IEC 42001 can be valuable resources for AI Governance professionals in all of the following ways EXCEPT:

- A. Recommending key activities to assess and manage risk: test, evaluate, verify and validate (TEVV)
- B. Addressing specific issues related to managing procurement processes with third parties that provide or develop AI systems for their organization
- C. Being applicable to organizations of any size and industry seeking to use AI responsibly and effectively in their design processes, information systems and controls
- D. Establishing terminology and describing concepts so that governance team members can communicate with diverse parties and stakeholders from around the world

Answer: B

Explanation:

The correct answer is C. ISO/IEC 22989 and 42001 focus on terminology, risk, and management systems, but do not specifically address procurement-related concerns with third-party vendors.

From the AIGP Body of Knowledge - Standards Section:

"ISO/IEC 22989 defines terminology and foundational concepts. ISO/IEC 42001 provides a management system standard for AI. They are not procurement-focused documents." Also confirmed in the AI Governance in Practice Report 2024:

"These standards help establish common language and risk governance procedures. Procurement governance typically falls under separate frameworks or sector-specific guidance." Thus, procurement governance (Option C) is not a central use case for these standards.

NEW QUESTION # 122

Scenario:

A European AI technology company was found to be non-compliant with certain provisions of the EU AI Act.

The regulator is considering penalties under the enforcement provisions of the regulation.

According to the EU AI Act, which of the following non-compliance examples could lead to fines of up to € 15 million or 3% of annual worldwide turnover (whichever is higher)?

- A. In case of AI Act prohibitions
- B. In case of the supply of misleading information to notified bodies in reply to a request
- C. In case of a breach of AI Act prohibition by the Union institutions, bodies, offices and agencies
- D. In case of breach of a provider's obligations for high-risk AI systems

Answer: D

Explanation:

The correct answer is B. The EU AI Act assigns a tiered penalty system based on the severity of the violation. A breach of

obligations related to high-risk AI systems falls into the mid-tier category, triggering fines of €15 million or 3% of annual global turnover.

From the AIGP ILT Guide - EU AI Act Module:

"Providers of high-risk AI systems must comply with strict documentation, testing, monitoring, and registration obligations. Breaches of these result in significant fines of up to €15 million or 3% of turnover." AI Governance in Practice Report 2024 supports this:

"Non-compliance with obligations under Title III (high-risk systems) leads to financial penalties under Article 71(3) of the EU AI Act."

Note: The highest penalty (€35 million or 7%) applies to prohibited AI uses, not to obligations for high-risk systems.

NEW QUESTION # 123

To maintain fairness in a deployed system, it is most important to?

- A. Protect against loss of personal data in the model.
- B. Detect anomalies outside established metrics that require new training data.
- **C. Monitor for data drift that may affect performance and accuracy.**
- D. Optimize computational resources and data to ensure efficiency and scalability.

Answer: C

NEW QUESTION # 124

In the machine learning context, feature engineering is the process of?

- A. Creating learning schema for a model apply.
- B. Converting raw data into clean data.
- **C. Extracting attributes and variables from raw data.**
- D. Developing guidelines to train and test a model.

Answer: C

Explanation:

In the machine learning context, feature engineering is the process of extracting attributes and variables from raw data to make it suitable for training an AI model. This step is crucial as it transforms raw data into meaningful features that can improve the model's accuracy and performance. Feature engineering involves selecting, modifying, and creating new features that help the model learn more effectively. Reference: AIGP Body of Knowledge on AI Model Development and Feature Engineering.

NEW QUESTION # 125

.....

Three AIGP exam questions formats that we have are IAPP Certified Artificial Intelligence Governance Professional (AIGP) dumps PDF format, web-based AIGP practice exam and desktop-based AIGP practice test software. Our IAPP AIGP PDF dumps format has actual AIGP Questions which are printable and portable. Hence, you can go through these AIGP questions via your smart devices like smartphones, laptops, and tablets.

Simulation AIGP Questions: https://www.dumpleader.com/AIGP_exam.html

These IAPP AIGP exam dumps are ideal for applicants who have a short time and want to clear the IAPP Certified Artificial Intelligence Governance Professional (AIGP) exam for the betterment of their future. To examine the content quality and format, free AIGP brain dumps demo are available on our website to be downloaded, IAPP AIGP Valid Vce You will enjoy one year free update after you purchase, With our Simulation AIGP Questions - IAPP Certified Artificial Intelligence Governance Professional study material, you can clear up all of your linger doubts during the practice and preparation.

Simply cut the disc in two with scissors or a paper AIGP cutter, To ensure an accurate reading, the nurse should: circle.jpg A, These IAPP AIGP Exam Dumps are ideal for applicants who have a short time and want to clear the IAPP Certified Artificial Intelligence Governance Professional (AIGP) exam for the betterment of their future.

Pass Guaranteed AIGP - Newest IAPP Certified Artificial Intelligence Governance Professional Valid Vce

To examine the content quality and format, free AIGP brain dumps demo are available on our website to be downloaded, You will enjoy one year free update after you purchase.

With our IAPP Certified Artificial Intelligence Governance Professional study material, you can clear up all of your Hottest AIGP Certification linger doubts during the practice and preparation, You can use it any time to test your own exam simulation test score.
