Amazon AWS Certified Solutions Architect - Associate (SAA-C02) Sample

Questions (Q322-Q327):

NEW QUESTION # 322
You decide that you need to create a number of Auto Scaling groups to try and save some money as you have noticed that at certain times most of your EC2 instances are not being used. By default, what is the maximum number of Auto Scaling groups that AWS will allow you to create?

- A. 0
- B. 1
- C. 2
- D. Unlimited

Answer: C

Explanation:
Auto Scaling is an AWS service that allows you to increase or decrease the number of EC2 instances within your application's architecture. With Auto Scaling, you create collections of EC2 instances, called Auto Scaling groups. You can create these groups from scratch, or from existing EC2 instances that are already in production.

NEW QUESTION # 323
A Solutions Architect is designing a shared files system for a company. Multiple users will be accessing it at any given time. Different teams will have their own directories, and the company wants to secure files so that users can access only files owned by their team. How should the solutions Architect design this?

- A. AWS Single Sign-On
- B. Redis Auth
- C. IAM database authentication
- D. VPC security group for Redis

Answer: B

NEW QUESTION # 324
_____ is a fast, flexible, fully managed push messaging service.

- A. Amazon FPS
- B. Amazon SQS
- C. Amazon SES
- D. Amazon SNS

Answer: D

Explanation:
Amazon Simple Notification Service (Amazon SNS) is a fast, flexible, fully managed push messaging service. Amazon SNS makes it simple and cost-effective to push to mobile devices such as iPhone, iPad, Android, Kindle Fire, and internet connected smart devices, as well as pushing to other distributed services.

NEW QUESTION # 325
A user has configured EBS volume with PIOPS. The user is not experiencing the optimal throughput.
Which of the following could not be factor affecting I/O performance of that EBS volume?

- A. EBS volume size
- B. EC2 bandwidth
- C. Instance type is not EBS optimized
- D. EBS bandwidth of dedicated instance exceeding the PIOPS

Answer: A

Explanation:
If the user is not experiencing the expected IOPS or throughput that is provisioned, ensure that the EC2 bandwidth is not the limiting factor, the instance is EBS-optimized (or include 10 Gigabit network connectivity) and the instance type EBS dedicated bandwidth exceeds the IOPS more than he has provisioned.

NEW QUESTION # 326

A company runs its applications on Amazon EC2 instances that are backed by Amazon Elastic Block Store (Amazon EBS). The EC2 instances run the most recent Amazon Linux release. Theapplications are experiencing availability issues when the company's employees store and retrieve files that are 25 GB or larger. The company needs a solution that does not require the company to transfer files between EC2 instances. The files must be available across many EC2 instances and across multiple Availability Zones. Which solution will meet these requirements?

- A. Migrate all the files to an Amazon S3 bucket. Instruct the employees to access the files from the S3 bucket.
- B. Take a snapshot of the existing EBS volume. Mount the snapshot as an EBS volume across the EC2 instances. Instruct the employees to access the files from the EC2 instances.
- C. Create an Amazon Machine Image (AMI) from the EC2 instances. Configure new EC2 instances from the AMI that use an instance store volume. Instruct the employees to access the files from the EC2 instances
- D. Mount an Amazon Elastic File System (Amazon EFS) file system across all the EC2 instances. Instruct the employees to access the files from the EC2 instances.

Answer: D

Explanation:
To store and access files that are 25 GB or larger across many EC2 instances and across multiple Availability Zones, Amazon Elastic File System (Amazon EFS) is a suitable solution. Amazon EFS provides a simple, scalable, elastic file system that can be mounted on multiple EC2 instances concurrently. Amazon EFS supports high availability and durability by storing data across multiple Availability Zones within a Region.
