

Analytics-DA-201 Braindumpsit Dumps PDF & Salesforce Analytics-DA-201 Braindumpsit IT-Zertifizierung - Testking Examen Dumps

Wollen Sie den Plan machen, dass Sie Salesforce Analytics-DA-201 Zertifizierungsprüfung ablegen, um Ihre Fähigkeit zu entwickeln. Wenn Sie Salesforce Analytics-DA-201 Prüfung ablegen, ob Sie die geeigneten Lernhilfe finden? Und welche Unterlage sind wertvoll? Haben Sie Salesforce Analytics-DA-201 Dumps gewählt? Wenn ja, sorgen Sie sich bitte nicht um den Misserfolg.

Salesforce Analytics-DA-201 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• SAP Clean Core Extensibility and ABAP Cloud: This part of the exam targets the SAP S • 4HANA Technical Consultant and covers concepts of clean core extensibility using ABAP in the cloud. The focus is on in-app and side-by-side extensibility techniques, ensuring that custom code complies with cloud-readiness principles and does not compromise the upgrade stability of core systems.
Thema 2	• ABAP SQL and Code Pushdown: This section of the exam measures the competencies of the SAP ABAP Cloud Developer related to performance optimization through ABAP SQL and code pushdown techniques. It ensures that the developer understands how to shift logic to the database layer using efficient SQL scripting to enhance performance in data-intensive applications.
Thema 3	• ABAP RESTful Application Programming Model: This section of the exam evaluates the capabilities of the SAP S • 4HANA Technical Consultant in using the ABAP RESTful Application Programming Model (RAP). It focuses on understanding the structure and components of RAP, including behavior definitions, service bindings, and metadata extension. The goal is to validate the ability to develop modern and scalable applications using RAP.
Thema 4	• Object-Oriented Design: This section of the exam evaluates the SAP ABAP Cloud Developer's understanding of object-oriented principles in the ABAP context. It focuses on class-based programming, inheritance, interfaces, and polymorphism, all crucial for building modular and maintainable ABAP cloud applications.

Unser It-Pruefung ist eine fachliche Website, die Prüfungsmaterialien für zahlreiche Salesforce Analytics-DA-201 Zertifizierungsprüfung bieten. Unser It-Pruefung wird vielen IT-Fachleuten zum Berufsaufstieg verhelfen. Die Kraft unserer Eliteteams ist unglaublich. Sie können die Salesforce Analytics-DA-201 Examensübungen-und antworten teilweise als Probe umsonst herunterladen, so dass Sie die Glaubwürdigkeit vom It-Pruefung testen können.

Salesforce Certified Tableau Data Analyst Analytics-DA-201 Prüfungsfragen

mit Lösungen (Q91-Q96):

91. Frage

Open the link to Book1 found on the desktop. Use the Superstore data source.

Split the Customer Name field into two fields named First Name and Last Name.

Antwort:

Begründung:

check the steps below in explanation.

Explanation:

To split the Customer Name field into two fields named First Name and Last Name, you need to do the following steps:

- * Open the link to Book1 found on the desktop. This will open the Tableau workbook that uses the Superstore data source.

- * Go to the Data Source tab at the bottom of the workbook to see the data source page. You will see a table that shows the fields and values from the Superstore data source.

- * Right-click on Customer Name in the table and select Split from the menu. This will split the field into two fields based on a separator, which is a space by default. You will see two new fields named Customer Name - Split 1 and Customer Name - Split 2 in the table.

- * Right-click on Customer Name - Split 1 and select Rename from the menu. Type First Name as the new name and press Enter. This will rename the field as First Name.

- * Right-click on Customer Name - Split 2 and select Rename from the menu. Type Last Name as the new name and press Enter. This will rename the field as Last Name.

92. Frage

A Data Analyst has received a request to provide a dashboard related to employee time logs. The employees are entering their time using mobile devices throughout the day and data is stored in a cloud-based database.

The end users would like to receive data on their dashboard in as close to real-time as possible.

How should the analyst best create a data source to meet these requirements?

- A. Create a connection to the database using Tableau Desktop and retrieve an extract of the data. Publish the data source from Tableau Desktop to Tableau Cloud and schedule the refresh of the extract.
- B. Create a connection to the database using Tableau Desktop. Publish the data source to Tableau Cloud using a live connection and disable any firewalls on the database.
- C. Create a connection to the database to retrieve the data using Tableau Bridge. Schedule the refresh of the data extract to 15 minutes.
- D. Create a connection to the database using Tableau Desktop. Publish the data source to Tableau Cloud using a live connection, ensuring the database firewall has been configured to allow connections from Tableau Cloud.

Antwort: D

93. Frage

You have a Tableau workbook that has a live data source. The data source connects to a Microsoft SQL Server database. Only the users in your department can access the database.

You plan to publish the workbook to a Tableau Server site named Public. All the users in your company can access Public.

What are two ways to ensure that all the users can view the worksheets in the workbook? Choose two.

- A. Change the data source to an extract before you publish.
- B. Configure the local file permissions to the workbook file, and then publish the workbook.
- C. Remove all the data source filters before you publish.
- D. Export the data to a .csv before you publish.
- E. Embed the credentials when you publish the workbook.

Antwort: A,E

94. Frage

You have the following dataset.

salesforce	Name
	Charles Sheldon
	charles sheldon
	Sheldon Charles
	Charles Sheldon
	Charles Sheldon

Which grouping option should you use in Tableau Prep to group all five names automatically?

- A. Pronunciation
- B. Manual Selection
- C. Common Characters
- D. Spelling

Antwort: D

Begründung:

Tableau Prep's Grouping feature includes various methods to group similar data. The Spelling option is used when the data has small variations in spelling, such as capitalization differences or common typos. Given that the names in the dataset vary in capitalization and punctuation but are spelled correctly, the Spelling grouping option would be the most appropriate choice to automatically group all five names.

95. Frage

You plan to create a visualization that has a dual axis chart. The dual axis chart will contain a shape chart and a line chart will use the same measure named Population on the axis.

You need to configure the shapes to be much larger than the line.

What should you do?

- A. Duplicate Population Drag the duplicate to the second Marks card and configure the size of the marks independently
- B. Create a custom shape that is larger than the default shape and add the shape to the Shapes folder in My Repository
- C. For the second axis select Shape on the Marks card From Select Shape Palette select Custom and then select Reset

- D. Change Population to a discrete dimension

Antwort: A

Begründung:

To configure the shapes to be much larger than the line, you need to duplicate Population and drag it to the second Marks card. This will create a dual axis chart with two measures on one axis. You can then select Shape on one Marks card and Line on another Marks card, and adjust the size of each mark independently using the Size slider or menu. References:

https://help.tableau.com/current/pro/desktop/en-us/multiplemeasures_dualaxes.htm

https://help.tableau.com/current/pro/desktop/en-us/marks_markproperties_size.htm

In a dual-axis chart in Tableau, if you want to have two different visual mark types (like a shape and a line) and configure them differently (such as making one larger than the other), you would need to duplicate the measure. You then drag this duplicate to the second Marks card (which represents the second axis). There, you can adjust the size of the marks (shapes, in this case) independently of the line marks on the first Marks card.

96. Frage

.....

Viele Leute meinen, man braucht viel fachliche IT-Kenntnisse, um die schwierigen Salesforce Analytics-DA-201 IT-Zertifizierungsprüfung zu bestehen. Nur diejenigen, die umfassende IT-Kenntnisse besitzen, sind qualifiziert dazu, sich an der Salesforce Analytics-DA-201 Prüfung zu beteiligen. Jetzt gibt es viele Methoden, die Ihre unausreichenden Fachkenntnisse wettmachen. Sie können sogar mit weniger Zeit und Energie als die fachlich gutqualifizierten die Salesforce Analytics-DA-201 Prüfung auch bestehen. Wie es heißt, viele Wege führen nach Rom.
