## Exam Dumps Analytics-DA-201 Zip | Analytics-DA-201 Guide Torrent

Our website is a pioneer in providing comprehensive Salesforce dumps torrent because we have a group of dedicated IT experts who have more than 10 years of experience in the study of Analytics-DA-201 test questions and answers. They work in advance to make sure that our candidates will get latest and accurate Analytics-DA-201 Exam Prep materials. You will get Analytics-DA-201 passing score with the shortest duration for exam preparation.

## Salesforce Analytics-DA-201 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• ABAP RESTful Application Programming Model: This section of the exam evaluates the capabilities of the SAP S</li><li>• 4HANA Technical Consultant in using the ABAP RESTful Application Programming Model (RAP). It focuses on understanding the structure and components of RAP, including behavior definitions, service bindings, and metadata extension. The goal is to validate the ability to develop modern and scalable applications using RAP.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>ABAP SQL and Code Pushdown: This section of the exam measures the competencies of the SAP ABAP Cloud Developer related to performance optimization through ABAP SQL and code pushdown techniques. It ensures that the developer understands how to shift logic to the database layer using efficient SQL scripting to enhance performance in data-intensive applications.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>ABAP Core Data Services and Data Modeling: This section of the exam measures the skills of the SAP ABAP Cloud Developer and covers the fundamental understanding of core data services (CDS) and how to design data models in the SAP ABAP environment. Candidates are expected to know how to define, consume, and optimize CDS views effectively to support application development in the cloud.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>SAP Clean Core Extensibility and ABAP Cloud: This part of the exam targets the SAP S 4HANA Technical Consultant and covers concepts of clean core extensibility using ABAP in the cloud. The focus is on in-app and side-by-side extensibility techniques, ensuring that custom code complies with cloud-readiness principles and does not compromise the upgrade stability of core systems.</li> </ul>

## Salesforce Certified Tableau Data Analyst Sample Questions (Q32-Q37):

### NEW QUESTION # 32

A Data Analyst has a website that displays data in a table format.

The analyst wants to connect to the data of the website by using the least amount of effort.

What should the analyst use to connect to the data?

- A. CSV file
- B. ODBC connector
- C. Clipboard**
- D. Web data connector

**Answer: C**

### NEW QUESTION # 33

You have a dashboard that contains two sheets named Sheet 1 and Sheet 2.

You want to add an object to the dashboard that users can click to switch to a different dashboard in the workbook.

Which object should you add to the dashboard?

**Answer:**

Explanation:

#### Explanation:

The object that you should add to the dashboard to allow users to switch to a different dashboard in the workbook is Navigation. Navigation objects are used to create links between dashboards or sheets in a workbook. You can add a navigation object to a dashboard by dragging it from the list of objects and dropping it on the dashboard. You can then configure the navigation object to specify the destination dashboard or sheet that you want users to navigate to when they click on it.

You can learn more about navigation objects and how to use them in this article: [https://help.tableau.com/current/pro/desktop/en-us/dashboards\\_navigation.htm](https://help.tableau.com/current/pro/desktop/en-us/dashboards_navigation.htm)

#### NEW QUESTION # 34

You have the following dataset.

You want to create a new calculated dimension field named Category that meets the following conditions:

- . When Subject is Computer Science or Science, Category must be Sciences.
- . When Subject is English or Social Studies, Category must be Humanities.

Which two logical functions achieve the goal? Choose two.

- A. IF ENDSWITH ( [Subject], 'Computer Science') THEN 'Sciences' ELSE 'Humanities' END
- B. IF [Subject]- 'Science' THEN 'Sciences'  
ELSEIF [Subject]='English' THEN 'Humanities'  
ELSEIF [Subject]-'Social Studies' THEN 'Humanities'  
ELSEIF [Subject]= 'Computer Science' THEN 'Sciences'  
END
- C. CASE [Subject]  
WHEN 'Computer Science' THEN 'Sciences'  
WHEN 'Science' THEN 'Sciences'  
WHEN 'English' THEN 'Humanities'  
WHEN 'Social Studies' THEN 'Humanities'  
End
- D. IIF(( CONTAINS ([Subject], 'Science') = TRUE) , 'Humanities', 'Sciences')

**Answer: B,C**

#### Explanation:

To create a new calculated dimension field named Category that meets the given conditions, you can use either the IF or the CASE logical function. Both functions allow you to evaluate an expression and return a value based on different scenarios. Option A uses the IF function with multiple ELSEIF clauses to check the value of the Subject field and assign it to either 'Sciences' or 'Humanities'. Option D uses the CASE function with multiple WHEN clauses to do the same thing. Both options will produce the same result, but the CASE function is more concise and easier to read. Option B is incorrect because it will assign 'Humanities' to any subject that contains 'Science' in its name, which is not the desired outcome. Option C is incorrect because it will only check if the subject ends with 'Computer Science' and ignore the other subjects. References:

#### NEW QUESTION # 35

You have a dashboard that is configured for desktop browsers.

You want to customize a layout for mobile users.

Which option should you select first? (Click the appropriate Option in the Answer Area.)

**Answer:**

Explanation:

To customize a layout for mobile users, you should select the Device Preview option first. This option will allow you to see how your dashboard will look on different types of devices, such as phones, tablets, or desktops. You can also choose different models and orientations to preview different screen sizes and resolutions. From the Device Preview mode, you can add, edit, or delete device layouts for each device type.

You can also adjust the size, position, and formatting of the dashboard elements for each device layout. References:

**NEW QUESTION # 36**

A Data Analyst has the following chart that shows the sum of sales made in different cities.

The analyst wants to show the average sale amount for a city when users hover their mouse over any of the bars. What should the analyst do?

- A. Drag Sales to Tooltip on the Marks card and modify the Tooltip text.
- B. Drag Sales to Tooltip on the Marks card and change Aggregation to Average.
- C. Right-click on SUM(Sales) in the Columns and select Include in Tooltip.
- D. Right-click on SUM(Sales) in the Columns and change Aggregation to Average.

**Answer: B**

**NEW QUESTION # 37**

.....

After you use Analytics-DA-201 exam materials and pass the exam successfully, you will receive an internationally certified certificate. After that, you will get a lot of promotion opportunities. You must be very clear about what this social opportunity means! In other words, Analytics-DA-201 Study Materials can help you gain a higher status and salary.
