Besides, to make you be rest assured of our dumps, we provide Analytics-DA-201 Exam Demo for you to free download.

Salesforce Certified Tableau Data Analyst Sample Questions (Q102-Q107):

NEW QUESTION # 102

From Tableau Desktop you sign in to a Tableau Server site.

What appears in the list of available data sources when you search for a published data source?

- A. All the data sources published to the Tableau Server within the folders to which you have access
- B. All the data sources published to the Tableau Server
- C. All the data sources published to the site within the folders to which you have access
- D. All the data sources published to the site

Answer: C

Explanation:

When you sign in to a Tableau Server site from Tableau Desktop and search for a published data source, you will see all the data sources published to the site within the folders to which you have access. You will not see data sources published to other sites or folders that you do not have permission to view. You can also filter your search by project, owner, or tag. References:

<https://help.tableau.com/current/pro/desktop/en-us>

[/connect_basic.htm https://help.tableau.com/current/pro/desktop/en-us/connect_tableauserver.htm](https://help.tableau.com/current/pro/desktop/en-us/connect_tableauserver.htm) When signed in to Tableau Server from Tableau Desktop, you'll only be able to see the data sources that have been published to the site and are within the folders that you have been granted access to. Tableau's permission and project structure mean that you won't see all data sources from the entire server unless you have permissions to do so.

NEW QUESTION # 103

A Data Analyst has a large data source that contains more than 10 million rows. Users can filter the rows by a field named Animal. The following is a sample of the data.

Animal	Type
Aardvark	Mammal
Angelfish	Fish
Ant	Insect
Arctic Wolf	Mammal
Bear	Mammal

The analyst wants to ensure that every calculation is affected by including only animals of a particular type. Which type of filter should the analyst create on the worksheet?

- A. Table calculation
- B. Measure
- C. Extract
- D. Context

Answer: D

NEW QUESTION # 104

You create the following story that contains two story point.

You want to change the story point format to show the current story point number out of the total number of story points. Which Layout option should you use?

- A. Dots
- B. Caption boxes
- **C. Numbers**
- D. Arrows only

Answer: C

Explanation:

To change the story point format to show the current story point number out of the total number of story points, you should use the Numbers option in the Layout tab. This option will display the story points as numbers in a horizontal or vertical sequence, such as 1/2, 2/2. You can also choose to show or hide the next and previous arrows for navigation. The Numbers option will help you indicate the progress and order of your story points more clearly than the other options. References:

* Creating a Story - Tableau

* New in 9.0: Formatting the Story Points Navigator - Tableau

* Tableau Certified Data Analyst Study Guide

NEW QUESTION # 105

You have a line chart on a worksheet.

You want to add a comment to March 2020 as shown in the following visualization.

What should you do?

- A. Drag the growth rate to Text on the Marks card
- **B. Annotate March 2020**
- C. Enable captions
- D. Add a tooltip

Answer: B

Explanation:

To add a comment to March 2020 on a line chart, you need to annotate that mark. You can right-click on the mark and select Annotate > Mark from the menu. This will open a dialog box where you can type your comment and format it as you like. You can also drag and drop the annotation to position it on the worksheet.

Dragging the growth rate to Text on the Marks card will add a label to every mark on the line chart, enabling captions will show a description of the worksheet at the bottom, and adding a tooltip will show a text box when users hover over a mark. References:

https://help.tableau.com/current/pro/desktop/en-us/formatting_annotations.htm

https://help.tableau.com/current/pro/desktop/en-us/formatting_annotations_create.htm

To add a comment to a specific point on a line chart, such as March 2020 in the provided visualization, you would use the 'Annotate' feature. Right-clicking on the data point for March 2020 and selecting 'Annotate' allows you to add a text annotation directly to the

chart, which can be used to highlight and comment on that particular data point.

NEW QUESTION # 106

You have the following dashboard.

When a user selects a city on the map the data on the bar chart must show only the data for the selected city.

The data in the bar chart must change only when the user selects a different city. How should you configure the dashboard action? (Use the dropdowns in the Answers Area to select the correct options.)

Answer Area

Dashboard action:

Running action:

Clear:

salesforce

Change set values
Filter
Highlight
URL

Hover
Menu
Select

Exclude all values
Keep the filtered values
Show all values

Answer:

Explanation:

Explanation:

To configure the dashboard action, you should select Filter as the action type, Select as the run action on option, and All Fields as the target filters option. This will ensure that when a user selects a city on the map, the bar chart will show only the data for the selected city based on all fields in common between the two worksheets. The action will run only when the user selects a different city. References: <https://help.tableau.com/current/pro/desktop/en-us/actions.htm>

https://help.tableau.com/current/pro/desktop/en-us/actions_filter.htm

NEW QUESTION # 107

.....

The Analytics-DA-201 practice materials are a great beginning to prepare your exam. Actually, just think of our Analytics-DA-201 practice materials as the best way to pass the exam is myopic.
