

Apple DEP-2025 Exam Questions Are Out: Download And Prepare [2025]

What's more, part of that Exam-Killer DEP-2025 dumps now are free: <https://drive.google.com/open?id=1bqZW3HTFHsdOLIF8yAnQ-aACL-W5mRBn>

DEP-2025 test questions have so many advantages that basically meet all the requirements of the user. If you have good comments or suggestions during the trial period, you can also give us feedback in a timely manner. Our study materials will give you a benefit as Thanks, we do it all for the benefits of the user. DEP-2025 study materials look forward to your joining in. We have full confidence to ensure that you will have an enjoyable study experience with our DEP-2025 Certification guide, which are designed to arouse your interest and help you pass the exam more easily. You will have a better understanding after reading the following advantages.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 2	<ul style="list-style-type: none"> • Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 3	<ul style="list-style-type: none"> • Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 4	<ul style="list-style-type: none"> • Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 5	<ul style="list-style-type: none"> • Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 6	<ul style="list-style-type: none"> • Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 7	<ul style="list-style-type: none"> • Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.

Topic 8	<ul style="list-style-type: none"> • Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 9	<ul style="list-style-type: none"> • Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 10	<ul style="list-style-type: none"> • Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 11	<ul style="list-style-type: none"> • Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.

2025 The Best Apple DEP-2025: Test Apple Deployment and Management Exam Questions Pdf

Getting the Apple DEP-2025 certification exam is necessary in order to get a job in your desired tech company. Success in the Apple Deployment and Management Exam (DEP-2025) certification exam gives you an edge over the others because you will have certified skills. The Apple DEP-2025 certification exam badge will make a good impression on the interviewer. Most of the people planning to attempt the DEP-2025 Exam are confused that how will they prepare and pass DEP-2025 exam with good grades. Many don't find real DEP-2025 exam questions and face loss of money and time.

Apple Deployment and Management Exam Sample Questions (Q10-Q15):

NEW QUESTION # 10

What's the benefit of using Apple School Manager?

- **A. Enables educational content management**
- B. Simplifies device setup
- C. Separates personal and managed data
- D. Allows personalization

Answer: A

Explanation:

Apple School Manager (ASM) enables educational content management by allowing administrators to purchase and distribute apps, books, and other resources to students and staff via Managed Distribution. It's tailored for schools, integrating with MDM and Shared iPad. Personalization (option A) is user-driven, not an ASM benefit. Data separation (option C) is a User Enrollment feature. Simplified setup (option D) is a byproduct of ADE, not ASM's primary focus. The Apple Platform Deployment Guide highlights content management as ASM's key benefit.

NEW QUESTION # 11

Which portal should educational institutions use to manage student devices?

- A. Managed Apple ID portal
- **B. Apple School Manager**
- C. Apple Business Manager
- D. Apple Configurator

Answer: B

Explanation:

Apple School Manager (ASM) is the dedicated portal for educational institutions to manage student devices, staff accounts, and content like apps and books. It supports features like Shared iPad and integration with classroom tools, tailored for education. Apple Business Manager (option A) is for businesses, not schools. Apple Configurator (option B) is a tool for manual device setup, not a management portal. There's no standalone "Managed Apple ID portal" (option D); Managed Apple IDs are managed within ASM. The Apple Platform Deployment Guide specifies ASM for educational device management.

NEW QUESTION # 12

You bought new app licenses in Apple Business Manager, but they're not available in your MDM solution. What might cause this?

- A. Creation of a new Content Manager
- **B. Content token annual expiration**
- C. APNs token annual expiration
- D. A password change to the MDM administrator account

Answer: B

Explanation:

Content token expiration disrupts app sync. The Apple Business Manager User Guide states, "If the content token expires, app licenses won't sync to the MDM solution until it's renewed." Option B affects notifications, not apps.

References:

Apple Business Manager User Guide, "Apps and Books" section.
Mobile Device Management Protocol Reference, "Content Token" section.

NEW QUESTION # 13

Which feature allows IT administrators to manage firewall settings on a device?

- A. Find My
- **B. Configuration profiles**
- C. iCloud
- D. MDM

Answer: B

Explanation:

Configuration profiles allow IT administrators to manage firewall settings on macOS devices, enabling or disabling the firewall, specifying allowed apps, or configuring stealth mode. These profiles are deployed via MDM or manually, ensuring network security. Find My (option B) and iCloud (option C) are unrelated to firewall management. MDM (option D) delivers profiles, but the profiles contain the settings. Note: iOS

/iPadOS devices don't have user-configurable firewalls, so this applies to macOS. The Apple Platform Deployment Guide details firewall configuration via profiles.

Reference: Apple Platform Deployment Guide (Chapter: Configuration Profiles).

NEW QUESTION # 14

What do you need for account-driven User Enrollment?

- A. An enrollment profile from a customized URL, mail message, or other means
- B. An enrollment certificate assigned to the account
- **C. A Managed Apple Account**
- D. A personal Apple Account with a signed enrollment profile

Answer: C

Explanation:

Apple's User Enrollment workflow is specifically designed for BYOD scenarios, and account-driven User Enrollment makes this even simpler. Apple Learning specifies that the required element is a Managed Apple Account issued through Apple Business Manager or Apple School Manager. When a user signs into Settings with their Managed Apple Account, the iOS or iPadOS device
