## Valid Apple DEP-2025 Exam Tutorial, DEP-2025 Certification Torrent

Our key priority is to provide such authentic Apple DEP-2025 Exam Material which helps the candidate qualify for Apple Deployment and Management Exam DEP-2025 exam on the very first attempt. This means that you can download the product right after purchasing and start your journey toward your big career.

## Apple Deployment and Management Exam Sample Questions (Q154-Q159):

### NEW QUESTION # 154

What do you need for account-driven User Enrollment?

- A. An enrollment profile from a customized URL, mail message, or other means
- B. An enrollment certificate assigned to the account
- C. A personal Apple Account with a signed enrollment profile
- **D. A Managed Apple Account**

**Answer: D**

Explanation:

Apple's User Enrollment workflow is specifically designed for BYOD scenarios, and account-driven User Enrollment makes this even simpler. Apple Learning specifies that the required element is a Managed Apple Account issued through Apple Business Manager or Apple School Manager. When a user signs into Settings with their Managed Apple Account, the iOS or iPadOS device automatically recognizes the account type and begins the enrollment process. This streamlines the workflow by removing the need for downloaded configuration profiles or certificates. Unlike Device Enrollment, User Enrollment establishes a cryptographically separated environment where organizational data and personal data remain isolated. This balance gives IT control of apps, calendars, and email while protecting the user's privacy. Thus, the Managed Apple Account is the key to enabling account-driven User Enrollment.

References: Apple Platform Deployment - "User Enrollment with Managed Apple Accounts."

### NEW QUESTION # 155

Your organization begins buying from a new Apple Authorized Reseller. What information do you give the reseller to ensure that your devices appear in Apple Business Manager or Apple School Manager?

- A. Purchase Order Number
- B. D-U-N-S Number
- **C. Organization ID**
- D. Reseller Number

**Answer: C**

Explanation:

The Organization ID links purchases. The Apple Business Manager User Guide states, "Provide your Organization ID to the reseller to ensure devices are assigned to your Apple Business Manager account." References:

Apple Business Manager User Guide, "Purchasing Devices" section.

Apple Platform Deployment Guide, "Device Assignment" section.

#### NEW QUESTION # 156

What file downloaded from MDM must be uploaded to Apple Business Manager to generate a server token?

- A. MDM Intermediate Certificate
- B. Content token
- C. Private key
- **D. Public key**

**Answer: D**

Explanation:

The public key generates the server token. The Apple Business Manager User Guide states, "To generate a server token for ADE, download the public key from your MDM solution and upload it to Apple Business Manager." Option C is never shared, and B and D serve different purposes.

Reference:

Apple Business Manager User Guide, "Set Up ADE" section.

Mobile Device Management Protocol Reference, "ADE Configuration" section.

#### NEW QUESTION # 157

Which type of Apple ID is required for User Enrollment?

- A. Apple ID
- B. Shared Apple ID
- C. Personal Apple ID
- **D. Managed Apple ID**

**Answer: D**

Explanation:

User Enrollment, designed for BYOD, requires a Managed Apple ID to separate personal and managed data cryptographically. Created via Apple Business Manager (ABM) or Apple School Manager (ASM), Managed Apple IDs enable organizational policies while preserving user privacy. Personal Apple IDs (options A and C, the same) are not used for User Enrollment, as they lack organizational control. There's no "Shared Apple ID" (option D); Shared iPad uses Managed Apple IDs differently. The Apple Platform Deployment Guide mandates Managed Apple IDs for User Enrollment.

Reference: Apple Platform Deployment Guide (Chapter: User Enrollment).

#### NEW QUESTION # 158

Which Kerberos feature allows users to sign in once and access multiple authenticated services?

- A. Sign in with Apple at Work & School
- **B. Ticket-granting ticket (TGT)**
- C. OAuth

- D. SAML

**Answer: B**

Explanation:

In Kerberos, the Ticket-Granting Ticket (TGT) is the feature that enables single sign-on (SSO). After initial authentication, the user receives a TGT from the Key Distribution Center (KDC). The TGT is then used to obtain service tickets for accessing various resources without re-authenticating, providing a seamless SSO experience. Sign in with Apple at Work & School (option A) is an Apple-specific feature, not a Kerberos component. OAuth (option B) and SAML (option D) are separate SSO protocols, not Kerberos features.

The Apple Platform Security Guide explains the TGT's role in Kerberos SSO.

Reference: Apple Platform Security Guide (Section: Kerberos and SSO).

## NEW QUESTION # 159

.....

In today's society, many enterprises require their employees to have a professional DEP-2025 certification. It is true that related skills serve as common tools frequently used all over the world, so we can realize that how important an DEP-2025 certification is, also understand the importance of having a good knowledge of it. The rigorous world force us to develop ourselves, thus we can't let the opportunities slip away. Being more suitable for our customers the DEP-2025 Torrent question compiled by our company can help you improve your competitiveness in job seeking, and DEP-2025 exam training can help you update with times simultaneously.
