Apple-Device-Support Reliable Test Pattern - Apple-Device-Support Free Brain Dumps

One strong point of our APP online version is that it is convenient for you to use our Apple-Device-Support exam dumps even though you are in offline environment. In other words, you can prepare for your Apple-Device-Support exam with under the guidance of our Apple-Device-Support Training Materials anywhere at any time. Just take action to purchase we would be pleased to make you the next beneficiary of our Apple-Device-Support exam practice. Trust us and you will get what you are dreaming!

Apple Device Support Exam Sample Questions (Q197-Q202):

NEW QUESTION # 197

ACME, Inc. wants all users to see mounted servers in the Finder by default.

Which terminal command should you use to modify the Finder preferences to display mounted servers?

- A. `defaults cat com.apple.finder ShowMountedServersOnDesktop true`
- B. `defaults read com.apple.finder ShowMountedServersOnDesktop true`
- C. `defaults append ShowMountedServersOnDesktop com.apple.finder true`
- **D. `defaults write com.apple.finder ShowMountedServersOnDesktop true`**

Answer: D

Explanation:

The terminal command `defaults write com.apple.finder ShowMountedServersOnDesktop true` sets the Finder preference to show mounted servers on the desktop. This is equivalent to checking the box for "Connected Servers" in the Finder settings under the General tab. The other commands are either invalid or do not change the preference value.

* `defaults read com.apple.finder ShowMountedServersOnDesktop true` reads the current value of the preference, but does not modify it.

* `defaults cat com.apple.finder ShowMountedServersOnDesktop true` is not a valid command, as `cat` is not a valid subcommand for `defaults`.

* `defaults append ShowMountedServersOnDesktop com.apple.finder true` appends the value `true` to the preference key `ShowMountedServersOnDesktop`, which is not a valid operation, as the preference value should be a boolean, not a list.

NEW QUESTION # 198

Which macOS Recovery feature is available ONLY on Mac computers with Apple silicon from the macOS Recovery Utilities menu in macOS?

- A. Startup Security Utility
- **B. Share disk**
- C. Recovery diagnostics
- D. Recovery log

Answer: B

Explanation:

Share disk is a macOS Recovery feature that allows you to share the internal storage of your Mac with Apple silicon as an external drive with another Mac. This feature is useful for transferring files between two Macs, or for troubleshooting issues with your Mac with Apple silicon. Share disk is only available on Mac computers with Apple silicon, and it requires a Thunderbolt or USB cable to connect the two Macs. To use Share disk, you need to start up your Mac with Apple silicon in macOS Recovery, then choose Utilities > Share Disk. On the other Mac, you can access the shared disk from the Finder or Disk Utility. References: = Use macOS Recovery on a Mac with Apple silicon, How to access macOS Recovery on Apple Silicon M1 Mac, Apple Silicon Macs to Feature New Boot and Recovery Interface, New Mac ..., How to Enter Recovery Mode on a Mac with Apple Silicon

NEW QUESTION # 199

You use Apple Watch 6 to track your physical activity and health metrics, but you have some trouble seeing the screen and using the watch controls. Which iPhone feature can you use to help you see and operate Apple Watch more easily?

- A. Audio Descriptions
- **B. Apple Watch Mirroring**
- C. Voice Over
- D. Ask Siri

Answer: B

Explanation:

Reference Mode is a display mode for professional content creation workflows, like color grading, editing, and content review, where accurate colors and consistent image quality are critical. Reference Mode enables the 12.9-inch iPad Pro with Liquid Retina XDR display to deliver reference color for popular color standards and video formats, such as BT.709, sRGB, HDR10, Dolby Vision, and more. It also disables all dynamic display adjustments for ambient surround, such as True Tone, Auto-Brightness, and Night Shift. Guillermo can use Reference Mode to match the color requirements of his workflow and ensure that his marketing materials and color grading are accurate and consistent. He can also use Reference Mode with Sidecar to use his iPad Pro as a secondary reference display for his Mac. NEW QUESTION # 200

What are three reasons that a warning icon might appear in the Security Recommendation window for a password in Passwords settings?

- **A. It's a commonly used password or it's easily guessed.**
- B. The password hasn't been updated in the last 90 days.
- C. You have multiple or duplicate passwords listed for the website.
- **D. The password appeared in a data leak.**
- **E. The password is reused on another website.**

Answer: A,D,E

NEW QUESTION # 201

Which macOS resource displays the status of network interfaces in a dynamic list?

- A. Internet Accounts settings
- B. Wireless Diagnostics
- C. VPN settings
- D. Network settings

Answer: D

NEW QUESTION # 202
