Apple Device Support Exam Sample Questions (Q183-Q188):

NEW QUESTION # 183

Which three peripherals can you share between iPad and Mac when using Universal Control?

- A. Apple Pencil
- B. Trackpad
- C. Keyboard
- D. Touch ID
- E. Mouse

Answer: B,C,E

Explanation:

Universal Control is a feature that allows you to use a single keyboard, mouse, or trackpad to control up to two other nearby Mac or iPad devices, and work seamlessly between them¹. When using Universal Control, you can share the following peripherals between iPad and Mac:

* Trackpad: You can use the trackpad of your Mac or iPad to move the pointer across the screens of both devices. You can also use gestures to scroll, zoom, or switch between apps².

* Keyboard: You can use the keyboard of your Mac or iPad to type on both devices. You can also use keyboard shortcuts to perform actions or access menus³.

* Mouse: You can use the mouse of your Mac to move the pointer across the screens of both devices. You can also use the mouse buttons to click or right-click⁴.

You cannot share the following peripherals between iPad and Mac when using Universal Control:

* Apple Pencil: You can only use the Apple Pencil on your iPad, not on your Mac. The Apple Pencil is designed to work with the touch screen of the iPad, not with the display of the Mac.

* Touch ID: You can only use Touch ID on the device that has the Touch ID sensor, not on the other device. Touch ID is a biometric security feature that requires your fingerprint to unlock your device, make purchases, or use Apple Pay. References: = Universal Control: Use a single keyboard and mouse between Mac and iPad, Use gestures on your Mac trackpad, Mac keyboard shortcuts, Use a Bluetooth mouse or trackpad with your iPad, Use Apple Pencil with your iPad or iPad Pro, [Use Touch ID on your Mac]

NEW QUESTION # 184

Which option can you access to view the current activity of Apple Configurator for Mac?

- A. From the Apple Configurator menu bar, choose Window > Activity.
- B. Double-click the device and select Activity.
- C. From the Apple Configurator menu, choose View Activity.

Answer: A

Explanation:

To view the current activity of Apple Configurator for Mac, you can access the Activity window from the menu bar. The Activity window shows you the background tasks that Apple Configurator is performing, such as downloading software updates, preparing devices, or installing profiles. You can also pause, resume, or cancel any activity from this window¹. The other options, double-clicking the device and selecting Activity, or choosing View Activity from the Apple Configurator menu, are not valid ways to access the Activity window. References: 1 View log messages and activity in Apple Configurator - Apple Support

NEW QUESTION # 185

Which feature limits what a root user can do to macOS?

- A. Full Disk Access
- B. XProtect
- C. Secure Enclave
- D. System Integrity Protection

Answer: D

Explanation:

System Integrity Protection (SIP) restricts root user actions, protecting critical system files and processes from modification, even with admin privileges. Enabled by default since macOS Sierra.

* Option A: XProtect scans for malware, not limits root.

* Option B: Full Disk Access grants permissions, not restricts.

* Option D: Secure Enclave handles encryption, not root limits.

* Option C: Correct-SIP enforces security. References: Apple Support - "About System Integrity Protection" (support.apple.com/HT204899).

NEW QUESTION # 186

Scenario

You're troubleshooting a third-party app that frequently quits on your Mac. You've determined that the issue occurs across all user accounts.

What should be your next step in troubleshooting the app's issue?

- A. Remove the -/Library/Preferences/application name preference file.
- B. Upgrade to the latest version of the app.
- C. Troubleshoot application preferences.
- D. Reinstall or upgrade macOS.
- E. Create a new file.

Answer: C

NEW QUESTION # 187

Which IP address might indicate a DHCP issue?

- A. 10.0.1.17
- B. 169.254.47.72
- C. 192.168.17.12
- D. 172.27.13.47

Answer: B

NEW QUESTION # 188
