ASIS-PSP certification exam is considered to be one of the most challenging certifications in the field of physical security. It is a rigorous, four-hour exam that tests the candidate's knowledge of various security principles, practices, and technologies. ASIS-PSP Exam is based on the Body of Knowledge of the ASIS Physical Security Professional Guide, which covers various topics such as risk assessment, crime prevention, security technology, and emergency management.

ASIS Physical Security Professional Exam Sample Questions (Q193-Q198):

NEW QUESTION # 193
_____ requires that the arrestee be turned over to the authorities as soon as practicable and in any event without unreasonable delay.

- A. Detain
- B. Threatening loss
- C. Detention
- D. Arrest

Answer: D

NEW QUESTION # 194
What can be used as servers and do not require special installation?

- A. Minicomputers
- B. Workstations
- C. None of the above
- D. Supercomputers

Answer: A

NEW QUESTION # 195
The measures of effectiveness of entry control include throughput, false acceptance rate, and:

- A. System obsolescence
- B. False rejection rate
- C. Activation delays
- D. Cost

Answer: B

Explanation:
The effectiveness of entry control systems is typically measured by:
Throughput (speed of entry)
False Acceptance Rate (FAR) - unauthorized access
False Rejection Rate (FRR) - denial of access to authorized users
These metrics provide insight into both the security and user experience of the access control system.
A (Cost) is relevant to budgeting, not effectiveness.
B (Activation delays) may affect throughput but isn't a primary measure.
D (System obsolescence) relates to lifecycle, not effectiveness.

NEW QUESTION # 196
At the conclusion of a project, which of the following types of drawings should be provided as part of the project execution?

- A. As-built
- B. Floorplan
- C. Post-construction
- D. Archival

Answer: A

Explanation:
"As-built" drawings are finalized versions of project design plans that reflect any changes or deviations made during installation or construction. They are essential for future maintenance, troubleshooting, and upgrades, and are a standard deliverable at project completion.
A (Archival) and B (Post-construction) are not formal document types.
C (Floorplan) is a general drawing, not specific to project finalization.

NEW QUESTION # 197

Those who are delegated authority in the direct chain of command to accomplish specific organizational objectives are known as:

- A. Management
- B. Stockholders
- C. Line executives
- D. Authorized directives

Answer: C

Explanation:
Line executives are individuals in the direct chain of command who are responsible for achieving the core objectives of an organization. They have authority over subordinate personnel and direct responsibility for organizational results. They differ from staff personnel, who provide advice or support but do not directly manage line functions.
Management (A) is a broader term that includes both line and staff.
Authorized directives (B) are formal instructions, not people.
Stockholders (D) are owners, not organizational authorities.
