So if you buy the ASIS-PSP study questions from our company, you will get the certification in a shorter time.

ASIS Physical Security Professional Exam Sample Questions (Q227-Q232):

NEW QUESTION # 227

Preliminary cost estimates are part of which stage in the project management process?

- A. Design

- B. Feasibility
- C. Execution
- D. Development

Answer: B

Explanation:

Preliminary cost estimates are developed during the feasibility phase of a project. These early estimates help determine whether a project is viable and worth pursuing, guiding initial decision-making and budgeting discussions.

A (Design) and B (Development) phases involve more detailed cost estimates.

C (Execution) is when implementation begins, after funding is approved.

NEW QUESTION # 228

Decentralizing a procedure or operation so that a security or safety problem at one location will not cause a complete loss is called:

- A. Risk spreading
- B. Risk protection
- C. Risk production
- D. Risk diffusion

Answer: A

Explanation:

Risk spreading refers to decentralizing operations or distributing assets so that if one site or operation is compromised, the entire organization isn't paralyzed. For example, backing up data across multiple locations ensures that the loss of one system doesn't cause total data loss.

NEW QUESTION # 229

Trimming off small amounts of money from many sources and diverting these slices into one's own or an accomplice's account is known as:

- A. Manipulation technique
- B. Hostile applets
- C. Auction planning
- D. Salami Technique

Answer: D

NEW QUESTION # 230

The long-term (more than 60 days) process of restoration activities after an emergency or disaster that returns the organization to its pre-event condition is called:

- A. Business continuity
- B. Business resumption
- C. Business healing
- D. Business recovery

Answer: B

NEW QUESTION # 231

During project management, which of the following deliverables are part of the design phase?

- A. Cost evaluations and due-diligence results
- B. Recommended safeguards and sole-source justification
- C. Implementation schedule, bidder instructions, and security-device schedules
- D. Equipment lists

Answer: D

Explanation:

In the design phase of a security project, key deliverables include detailed equipment lists, drawings, system specifications, and layout plans. These elements guide the eventual procurement and installation processes.

A, B, and C include elements from other project phases like planning (A), procurement (B), and feasibility (C).
