Perfect Authentic Associate-Cloud-Engineer Exam Questions & Leading Offer in Qualification Exams & Fantastic Google Google Associate Cloud Engineer Exam

Associate-Cloud-Engineer practice questions and pass it with confidence. As far as the top features of Associate-Cloud-Engineer exam dumps are concerned, these Google Associate-Cloud-Engineer latest questions are real and verified by Google Associate-Cloud-Engineer certification exam experts. With the Google Associate-Cloud-Engineer Practice Test questions you will get everything that you need to learn, prepare and get success in the final Google Associate Cloud Engineer Exam certification exam.

Google Associate Cloud Engineer Exam Sample Questions (Q83-Q88):

NEW QUESTION # 83

You have experimented with Google Cloud using your own credit card and expensed the costs to your company. Your company wants to streamline the billing process and charge the costs of your projects to their monthly invoice. What should you do?

- A. Create a ticket with Google Billing Support to ask them to send the invoice to your company.
- B. Grant the financial team the IAM role of "Billing Account User" on the billing account linked to your credit card.
- C. Set up BigQuery billing export and grant your financial department IAM access to query the data.
- **D. Change the billing account of your projects to the billing account of your company.**

Answer: D

NEW QUESTION # 84

You are using Google Kubernetes Engine with autoscaling enabled to host a new application. You want to expose this new application to the public, using HTTPS on a public IP address. What should you do?

- **A. Create a Kubernetes Service of type NodePort for your application, and a Kubernetes Ingress to expose this Service via a Cloud Load Balancer.**
- B. Create a HAProxy pod in the cluster to load-balance the traffic to all the pods of the application. Forward the public traffic to HAProxy with an iptable rule. Configure the DNS name of your application using the public IP of the node HAProxy is running on.
- C. Create a Kubernetes Service of type ClusterIP for your application. Configure the public DNS name of your application using the IP of this Service.
- D. Create a Kubernetes Service of type NodePort to expose the application on port 443 of each node of the Kubernetes cluster. Configure the public DNS name of your application with the IP of every node of the cluster to achieve load-balancing.

Answer: A

Explanation:

Reference: <https://cloud.google.com/kubernetes-engine/docs/tutorials/http-balancer> Create a Kubernetes Service of type ClusterIP for your application. Configure the public DNS name of your application using the IP of this Service. is not right.

Kubernetes Service of type ClusterIP exposes the Service on a cluster-internal IP. Choosing this value makes the Service only reachable from within the cluster so you can not route external traffic to this IP.

Ref: <https://kubernetes.io/docs/concepts/services-networking/service/>

NEW QUESTION # 85

A company is launching a static website using the zone apex (mycompany.com). The company wants to use Amazon Route 53 for DNS.

Which steps should the company perform to implement a scalable and cost-effective solution? (Choose two.)

- A. Host the website using AWS Elastic Beanstalk, and map a Route 53 alias record to the Beanstalk stack.
- **B. Serve the website from an Amazon S3 bucket, and map a Route 53 alias record to the website endpoint.**
- C. Create a Route 53 hosted zone, and set the NS records of the domain to use Route 53 name servers.
- **D. Host the website on an Amazon EC2 instance with ELB and Auto Scaling, and map a Route 53 alias record to the ELB endpoint.**
- E. Host the website on an Amazon EC2 instance, and map a Route 53 alias record to the public IP address of the Amazon EC2 instance.

Answer: B,D

NEW QUESTION # 86

Your company has a large quantity of unstructured data in different file formats. You want to perform ETL transformations on the data. You need to make the data accessible on Google Cloud so it can be processed by a Dataflow job. What should you do?

- A. Upload the data into Cloud Spanner using the import function in the console.
- B. Upload the data to BigQuery using the bq command line tool.
- **C. Upload the data to Cloud Storage using the gsutil command line tool.**
- D. Upload the data into Cloud SQL using the import function in the console.

Answer: C

Explanation:

For unstructured data use cloud storage. Use Big Query for analytics, data warehouse with structured data.

NEW QUESTION # 87

Your company has a single sign-on (SSO) identity provider that supports Security Assertion Markup Language (SAML) integration with service providers. Your company has users in Cloud Identity. You would like users to authenticate using your company's SSO provider.

What should you do?

- A. In Cloud Identity, set up SSO with Google as an identity provider to access custom SAML apps.
- **B. In Cloud Identity, set up SSO with a third-party identity provider with Google as a service provider.**
- C. Obtain OAuth 2.0 credentials, configure the user consent screen, and set up OAuth 2.0 for Mobile & Desktop Apps.
- D. Obtain OAuth 2.0 credentials, configure the user consent screen, and set up OAuth 2.0 for Web Server Applications.

Answer: B

Explanation:

https://support.google.com/cloudidentity/answer/6262987?hl=en&ref_topic=7558767 Google offers a SAML-based single sign-on (SSO) service that provides partner companies with full control over the authorization and authentication of hosted user accounts that can access web-based applications like Gmail or Google Calendar. Using the SAML model, Google acts as the service provider and provides services such as Gmail and Start Pages.

NEW QUESTION # 88

.....

The PracticeTorrent guarantees their customers that if they have prepared with Google Associate-Cloud-Engineer practice test, they can pass the Google Associate-Cloud-Engineer certification easily. If the applicants fail to do it, they can claim their payment back according to the terms and conditions. Many candidates have prepared from the actual Google Associate-Cloud-Engineer Practice Questions and rated them as the best to study for the examination and pass it in a single try with the best score.
