Salesforce Health Cloud Accredited Professional certification exam is an excellent way to demonstrate your expertise and proficiency in Salesforce Health Cloud and is highly recommended for healthcare professionals who want to advance their careers in this field.

### Salesforce Health Cloud Accredited Professional Sample Questions (Q105-Q110):

#### NEW QUESTION # 105

Bloomington Caregivers needs to use the objects for the Clinical data model as part of its new Health Cloud implementation. Which preference should Bloomington Caregivers' administrator ensure is enabled?

- **A. FHIR-Aligned Data Model org preference**
- B. Clinical Data Model org preference
- C. FHIR-Aligned EHR Data Model org preference
- D. Clinical R4 Model org preference

**Answer: A**

#### NEW QUESTION # 106

An administrator for Health Cloud wants to ensure that the files in their full sandbox instance are encrypted. Which encryption solution supports the encryption of files in this scenario?

- A. Classic Encryption
- B. Salesforce Data Mask
- **C. Salesforce Shield**
- D. Industry Data Security

**Answer: C**

Explanation:

Salesforce Shield is a robust security suite designed to ensure data encryption, monitoring, and auditing compliance for sensitive data, including files stored in Salesforce. In a full sandbox environment where data encryption is crucial, Shield's Platform Encryption is the ideal solution.

Features of Salesforce Shield Platform Encryption:

Encrypts files and attachments stored in Salesforce.

Protects sensitive data such as personally identifiable information (PII) to comply with regulations like HIPAA.

Ensures encryption persists even when files are exported or shared outside the Salesforce environment.

Why Other Options Are Incorrect:

Classic Encryption: Limited to custom text fields, lacks support for files or advanced use cases.

Industry Data Security: Focused on data classification and access control, not encryption.

Salesforce Data Mask: Used to mask data in sandboxes for testing, not encrypt files.

#### NEW QUESTION # 107

A Health Cloud administrator is working on a call center implementation and has to ensure that the phone numbers passing through

the CTI settings display the matching contact record via Screen Pop. Which custom metadata type within Health Cloud should the administrator update to achieve this requirement?

- A. Feature Flag Setting -> CTIDriverSetting
- **B. Health Cloud Setting -> HcFeatureDriver**
- C. Job Flow Setting -> ConsoleDisplayValue
- D. Flow Session Setting -> CallCenterFlow

**Answer: B**

#### NEW QUESTION # 108

Which three business process are supported by Salesforce HC utilization Management? (Choose 3)

- **A. Appeals**
- **B. Drug Request**
- C. Physician Request
- **D. Admissions**
- E. Ticketing

**Answer: A,B,D**

Explanation:

Explanation

Reference and details below.

The slide is titled "Support and Manage Care Requests" and features the Salesforce logo in a blue cloud shape on the right. The text describes how utilization management tools help payer organizations gather data and streamline care request reviews. It lists several business processes supported by Health Cloud: Prescription drug preauthorization requests, Service preauthorization requests, Admissions, Concurrent (continued stay) reviews, Appeals, and Complaints and grievances. Several terms are highlighted in yellow.

### Support and Manage Care Requests

Give your users the tools to collaborate seamlessly on submitting, assigning, and processing care requests. Utilization management makes it easier for payer organizations to gather member and clinical data from providers, streamline care request reviews, and evaluate reviews for medical necessity. Health care providers can quickly submit care requests with fewer phone calls and faxes for preauthorizations.

Health Cloud provides standard objects to support these business processes:

- Prescription drug preauthorization requests
- Service preauthorization requests
- Admissions
- Concurrent (continued stay) reviews
- Appeals
- Complaints and grievances

#### NEW QUESTION # 109

Which Three items can be a Life Science company track about a Care Programs using Program Management? (Choose Three. (Repeated question)

- **A. The products that are associate with a given Care Program**
- **B. The plans that enrollees have been engaged in as part of the care program**
- C. The clinical indicators that need to be monitored in the care programs
- D. The budget & Expenses of the company's associate Care Program
- **E. The multiple marketing campaigns that enrollees are subjected to as part of the Care Program.**

**Answer: A,B,E**

## NEW QUESTION # 110
