Source Should Time Synchronize	false
Source Should Update	false
Tag	modaction_result

- A. A risk score.
- B. An event priority.
- C. A source ranking.
- D. An IP address rating.

Answer: A

NEW QUESTION # 88

An administrator wants to ensure that none of the ES indexed data could be compromised through tampering. What feature would satisfy this requirement?

- A. Index consistency.
- B. Indexer acknowledgement.
- C. Index access permissions.
- D. Data integrity control.

Answer: D

Explanation:

Explanation

Data integrity control is a feature of Splunk Enterprise that helps you verify the integrity of data that it indexes. When you enable data integrity control for an index, Splunk Enterprise computes hashes on every slice of data using the SHA-256 algorithm. It then stores those hashes so that you can verify the integrity of your data later. This feature prevents data tampering and ensures that the data is trustworthy and reliable.

Therefore, the correct answer is B. Data integrity control. References = Manage data integrity - Splunk Documentation.

NEW QUESTION # 89

What can be exported from ES using the Content Management page?

- A. Only correlation searches.
- B. Only correlation searches, managed lookups, and glass tables.
- C. Any content type listed in the Content Management page.
- D. Only correlation searches, glass tables, and workbench panels.

Answer: C

Explanation:

Explanation

The Content Management page in Splunk Enterprise Security allows you to export any content type that is listed on the page as an app. The content types include correlation searches, glass tables, dashboards, reports, saved searches, key indicators, workbench panels, and managed lookups. You can use the export option to share custom content with other ES instances, such as migrating customized searches from a development or testing environment into production. You can also import content from other ES instances or from Splunkbase using the Content Management page. References = Export content from Splunk Enterprise Security as an app Import content to Splunk Enterprise Security as an app
