Besides, you will get C_WME_2506 Questions and answers downloading link within ten minutes, and our system will send you the update version to your mailbox.

SAP C_WME_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	• Getting Started with Building WalkMe Solutions: This section of the exam evaluates the capabilities of WalkMe implementers and focuses on the practical aspects of creating and configuring WalkMe solutions. It includes understanding the WalkMe Editor, planning solution flows, creating Smart Walk-Thrus, Launchers, and ShoutOuts, and managing end-user guidance effectively. Candidates should be comfortable building initial WalkMe experiences that improve SAP usability and provide contextual help for users navigating SAP applications.

Topic 2	• Starting your Digital Adoption Journey: WalkMe Fundamentals: This section of the exam measures the skills of SAP project managers and covers the foundational concepts of digital adoption within SAP environments using WalkMe. Candidates are expected to understand the value of digital adoption platforms, the basic components of WalkMe, and how these tools align with business goals. The section emphasizes knowledge of the user experience within SAP and the ability to identify opportunities for improving digital workflows through in-app guidance and automation.
Topic 3	• Advancing your Skills in Building WalkMe Solutions: This section of the exam tests the advanced competencies of functional and business analysts in designing more complex and customized WalkMe solutions within SAP platforms. It requires a deeper understanding of user segmentation, advanced rules and triggers, performance optimization, and the use of analytics to refine user experiences. Candidates are expected to demonstrate their ability to design scalable and impactful guidance that aligns with SAP business processes and drives user adoption across the enterprise.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q36-Q41):

NEW QUESTION # 36
You are working on a Smart Walk-Thru step for which there are two buttons a user could click to move forward in the process. After they click either button, the remainder of the process is the same.
Which option below is the best way to address this?

- A. Create a Split Step.
- B. Use a SmartTip to let the users know they can click either button for the flow to continue.
- C. Add a Custom Trigger with multiple conditions.
- D. Add a Peer Step.

Answer: C

NEW QUESTION # 37
Which of the following is the best use case for using Behavior Based Segmentation?

- A. Play a ShoutOut only to users who have already used a specific feature.
- B. Make sure a Launcher only displays for Finance Team members.
- C. Display different SmartTips for users located in the United States and Italy.
- D. Show a time-sensitive ShoutOut and Survey to all users.

Answer: A

NEW QUESTION # 38
You and your Project Lead just had a conversation with a business stakeholder who wants you to create WalkMe content for their team. They provided you with all of the following information: Sales team members are constantly rushing through entering contract details in your sales platform, which adds to inaccurate data for the business. Once they get to the contract page, there are many fields to fill out that are unique to each client. They often don't remember which is the correct option from a number of dropdown

fields, and the company doesn't currently have any documentation that explains the dropdown fields. What is the end user behavior (pain point) you need to address with WalkMe content?

- A. The business has inaccurate data
- B. No help documentation currently exists
- C. Sales team members are rushing through entering contract details
- D. Users do not know which is the correct option in the dropdown fields

Answer: D

Explanation:
The end user behavior (pain point) to address is thatusers do not know which is the correct option in the dropdown fields. This specific behavior directly causes the inaccurate data, as sales team members are selecting incorrect options due to a lack of guidance. WalkMe content, such as Guidance SmartTips, can provide real-time instructions for each dropdown field to ensure correct selections, addressing the root cause of the issue.
The other options are related but not the primary pain point:
* Inaccurate data(A) is the outcome, not the behavior.
* No help documentation(B) is a contributing factor, not the user's action.
* Rushing through details(C) is a secondary behavior, but the core issue is incorrectdropdown selections.
Extract from Official WalkMe Documentation:
Per the SAP WalkMe Digital Adoption Consultant Study Guide (Section 1.3: Identifying Pain Points):
"Identify the specific end user behavior causing issues, such as selecting incorrect options in dropdowns, to target WalkMe content effectively, like SmartTips for field guidance." The courseGetting Started with Building WalkMe Solutionsexplains:
"Focus on the user behavior driving the problem, such as confusion over dropdown options, to design WalkMe solutions that provide clarity and improve accuracy." Option D is the end user pain point to address.

NEW QUESTION # 39
Which of the following is a capability of WalkMe's Smart Walk-Thrus?

- A. Providing step-by-step on-screen guidance in real time
- B. Removing unused applications from the tech stack
- C. Blocking users from making changes to the software
- D. Preventing users from interacting with pop-ups

Answer: A

NEW QUESTION # 40
Where would you go to open a support ticket with WalkMe's technical experts?

- A. Admin Center
- B. WalkMe World Community
- C. WalkMe Console
- D. Insights

Answer: C

NEW QUESTION # 41
