New 77201X Test Guide, Authentic 77201X Exam Questions

Certification 77201X exam on the first attempt. The demand of the Avaya IP Office™ Platform Implement Certified Exam exam is growing at a rapid pace day by day and almost everyone is planning to pass it so that they can improve themselves for better futures in the DumpsKing sector. 77201X has tried its best to make this learning material the most user-friendly so the applicants don't face excessive issues.

Avaya IP Office™ Platform Implement Certified Exam Sample Questions (Q25-Q30):

NEW QUESTION # 25

What is the maximum number of BRI trunks supported by an IP500 V2?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

Explanation:

The IP500 V2 supports up to 12 BRI trunks (Option C) using three BRI 4-port cards (each with 4 BRI ports, providing 8 channels total per card). Options A, B, and D do not align with this capacity. References: Avaya IP Office IP500 V2 Installation Manual.

NEW QUESTION # 26

Which statement about the Manager Application for IP Office Server Edition is true?

- A. Manager includes Voicemail Pro Client
- B. Manager runs on the server itself
- C. Manager has been fully ported to Web Management
- **D. Manager shows the status of all servers on one screen**

Answer: D

NEW QUESTION # 27

Which statement is true about the IP Office Server Edition Primary Server?

- A. It requires a Secondary Server for operation
- B. It only supports SIP trunks
- **C. It can operate standalone without additional servers**
- D. It cannot host Voicemail Pro

Answer: C

Explanation:

The IP Office Server Edition Primary Server can operate standalone without additional servers (Option A), providing core telephony functions for smaller deployments. While it supports resilience and scalability with a Secondary Server and Expansion Systems, these are optional. Option B is incorrect as a Secondary Server is not mandatory. Option C is false because the Primary Server supports multiple trunk types (SIP, PRI, analog), not just SIP. Option D is incorrect as it can host Voicemail Pro, though it may also be hosted on a separate Application Server in larger setups. References: Avaya IP Office Server Edition Reference Configuration Guide.

NEW QUESTION # 28

Which statement about the manager to Server Edition is true?

- A. Manager includes Voicemail Pro Client.
- B. Manager runs on the server itself.
- **C. Manager shows the status of all servers on one screen.**
- D. Manager has been ported to Web Management.

Answer: C

Explanation:

The Avaya IP Office Manager is a critical administrative tool used to configure and manage IP Office systems, including the Server Edition. The Server Edition is a scalable solution designed for larger deployments, allowing multiple IP Office servers (Primary, Secondary, and Expansion systems) to work together as a single system. Option B, "Manager shows the status of all servers on one screen," is true because, in Server Edition deployments, the IP Office Manager provides a consolidated view of the network, displaying the status of all connected servers (e.g., Primary Server, Secondary Server, and Expansion Systems) in a single interface. This feature simplifies monitoring and management across distributed systems.

Option A is incorrect because, while web-based management exists (via Web Manager), the traditional Manager application is a standalone Windows-based tool, not fully ported to Web Management. Option C is incorrect as the Voicemail Pro Client is a separate application, not bundled within Manager. Option D is also incorrect because Manager is typically installed on a separate PC, not directly on the server itself, though it communicates with the server for configuration. References: Avaya IP Office Platform Server Edition Reference Configuration Guide, IP Office Manager documentation.

NEW QUESTION # 29

An Avaya IP Office customer wants all incoming calls from the 212 area code to be routed to the Sales hunt group. To program an Incoming Call Route (ICR) to meet this requirement, which two steps are needed? (Choose two.)

- **A. Select the Receptionist hunt group as the fallback extension**
- B. Edit the default ICR Destination to Sales hunt group
- C. Enter 212 in the Incoming Number field

- D. Enter 212 in the Incoming CLI field
- E. Add an ICR for Any Voice with the destination of the Sales hunt group

Answer: A,D

NEW QUESTION # 30

.....

No matter how good the product is users will encounter some difficult problems in the process of use, and how to deal with these problems quickly becomes a standard to test the level of product service. Our 77201X real exam materials are not exceptional also, in order to enjoy the best product experience, as long as the user is in use process found any problem, can timely feedback to us, for the first time you check our 77201X Exam Question performance, professional maintenance staff to help users solve problems.
