## Microsoft Azure Fundamentals Sample Questions (Q55-Q60):

### NEW QUESTION # 55

To complete the sentence, select the appropriate option in the answer area.

You can view your company's regulatory compliance report from

- Azure Advisor
- Azure Analysis Services
- Azure Monitor
- Azure Security Center

Answer:

Explanation:

You can view your company's regulatory compliance report from

- Azure Advisor
- Azure Analysis Services
- Azure Monitor
- Azure Security Center

Reference:

<https://docs.microsoft.com/en-us/azure/security-center/security-center-intro>

### NEW QUESTION # 56

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

| Statements                                                                                       | Yes                   | No                    |
|--------------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| Building a data center infrastructure is an example of operational expenditure (OpEx) costs.     | <input type="radio"/> | <input type="radio"/> |
| Monthly salaries for technical personnel are an example of operational expenditure (OpEx) costs. | <input type="radio"/> | <input type="radio"/> |
| Leasing software is an example of operational expenditure (OpEx) costs.                          | <input type="radio"/> | <input type="radio"/> |

Answer:

Explanation:

| Statements                                                                                       | Yes                              | No                               |
|--------------------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| Building a data center infrastructure is an example of operational expenditure (OpEx) costs.     | <input type="radio"/>            | <input checked="" type="radio"/> |
| Monthly salaries for technical personnel are an example of operational expenditure (OpEx) costs. | <input checked="" type="radio"/> | <input type="radio"/>            |
| Leasing software is an example of operational expenditure (OpEx) costs.                          | <input checked="" type="radio"/> | <input type="radio"/>            |

Explanation

| Statements                                                                                       | Yes                              | No                               |
|--------------------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| Building a data center infrastructure is an example of operational expenditure (OpEx) costs.     | <input type="radio"/>            | <input checked="" type="radio"/> |
| Monthly salaries for technical personnel are an example of operational expenditure (OpEx) costs. | <input checked="" type="radio"/> | <input type="radio"/>            |
| Leasing software is an example of operational expenditure (OpEx) costs.                          | <input checked="" type="radio"/> | <input type="radio"/>            |

Box 1: No

Building a data center infrastructure is capital expenditure, not operation expenditure.

Box 2: Yes

OpEx is ongoing costs (costs of operations) such as staff salaries.

Box 2: Yes

OpEx is ongoing costs (costs of operations) such as leasing software. If you purchased software as a one-off purchase, that would be CapEx, but leasing software is ongoing so it's OpEx.

#### NEW QUESTION # 57

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

| Statements                                                                         | Yes                   | No                    |
|------------------------------------------------------------------------------------|-----------------------|-----------------------|
| The cost of Azure resources can vary between regions.                              | <input type="radio"/> | <input type="radio"/> |
| An Azure reservation is used to reserve server capacity at a specific data center. | <input type="radio"/> | <input type="radio"/> |
| You can stop an Azure SQL Database instance to decrease costs.                     | <input type="radio"/> | <input type="radio"/> |

Answer:

Explanation:

| Statements                                                                         | Yes                              | No                               |
|------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| The cost of Azure resources can vary between regions.                              | <input checked="" type="radio"/> | <input type="radio"/>            |
| An Azure reservation is used to reserve server capacity at a specific data center. | <input checked="" type="radio"/> | <input type="radio"/>            |
| You can stop an Azure SQL Database instance to decrease costs.                     | <input type="radio"/>            | <input checked="" type="radio"/> |

#### NEW QUESTION # 58

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

| Statements                                                                                                   | Yes                   | No                    |
|--------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| From Azure Service Health, an administrator can view the health of all the services in an Azure environment. | <input type="radio"/> | <input type="radio"/> |
| From Azure Service Health, an administrator can create a rule to be alerted if an Azure service fails.       | <input type="radio"/> | <input type="radio"/> |
| From Azure Service Health, an administrator can prevent a service failure.                                   | <input type="radio"/> | <input type="radio"/> |

Answer:

Explanation:

| Statements                                                                                                   | Yes                              | No                               |
|--------------------------------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| From Azure Service Health, an administrator can view the health of all the services in an Azure environment. | <input checked="" type="radio"/> | <input type="radio"/>            |
| From Azure Service Health, an administrator can create a rule to be alerted if an Azure service fails.       | <input checked="" type="radio"/> | <input type="radio"/>            |
| From Azure Service Health, an administrator can prevent a service failure.                                   | <input type="radio"/>            | <input checked="" type="radio"/> |

Explanation

| Statements                                                                                                   | Yes                              | No                               |
|--------------------------------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| From Azure Service Health, an administrator can view the health of all the services in an Azure environment. | <input checked="" type="radio"/> | <input type="radio"/>            |
| From Azure Service Health, an administrator can create a rule to be alerted if an Azure service fails.       | <input checked="" type="radio"/> | <input type="radio"/>            |
| From Azure Service Health, an administrator can prevent a service failure.                                   | <input type="radio"/>            | <input checked="" type="radio"/> |

### NEW QUESTION # 59

To complete the sentence, select the appropriate option in the answer area.

You have several virtual machines in an Azure subscription. You create a new subscription.

The virtual machines cannot be moved to the new subscription.

The virtual machines can be moved to the new subscription.

The virtual machines can be moved to the new subscription only if they are all in the same resource group.

The virtual machines can be moved to the new subscription only if they run Windows Server 2016.

Answer:

Explanation:

You have several virtual machines in an Azure subscription. You create a new subscription.

The virtual machines cannot be moved to the new subscription.

The virtual machines can be moved to the new subscription.

The virtual machines can be moved to the new subscription only if they are all in the same resource group.

The virtual machines can be moved to the new subscription only if they run Windows Server 2016.

### NEW QUESTION # 60

.....

We provide 3 versions of our AZ-900 exam questions for the client to choose and free update. Different version boosts different advantage and please read the introduction of each version carefully before your purchase. And the language of our AZ-900 study materials are easy to be understood and we compile the AZ-900 Exam Torrent according to the latest development situation in the theory and the practice. You only need little time to prepare for our AZ-900 exam. So it is worthy for you to buy our AZ-900 questions torrent.
