M2 Valid Dumps Demo, M2 Mock Exams

The PDF version of our M2 guide quiz is prepared for you to print it and read it everywhere. It is convenient for you to see the answers to the questions and remember them. After you buy the PDF version of our M2 study material, you will get an E-mail form us in 5 to 10 minutes after payment. Once any new question is found, we will send you a link to download a new version of the M2 training engine. So don't worry if you are left behind the trend.

International Code Council Commercial Mechanical Inspector Sample Questions (Q15-Q20):

NEW QUESTION # 15

Infrared radiant heaters shall be installed:

- A. with clearances from combustible material in accordance with the manufacturer's installation instructions.
- B. in accordance with UL 2158.
- C. with a 6-ft. clearance on all sides.
- D. in accordance with UL 1240.

Answer: A

Explanation:

The ICC mechanical code provision for infrared radiant heaters states that the heaters must be installed with clearances from combustible material in accordance with the manufacturer's installation instructions .

That makes Option D the correct answer. The code does not establish a blanket 6-foot clearance on all sides in this section, and the exam expects the candidate to rely on the listed installation requirements for the appliance.

NEW QUESTION # 16

Where the cooking surface has exposed flame and burners, the minimum distance between the lowest edge of a grease filter and the cooking or heating surface shall be _____ inches.

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

For cooking equipment with exposed flame and burners , the IMC table for grease-filter mounting position requires a minimum vertical separation of 24 inches between the lowest edge of the grease filter and the cooking surface. That makes B correct.

NEW QUESTION # 17

When a permit is issued, the code requires that one set of approved plans and specifications be returned to the applicant. This set of plans and specifications shall be:

- A. kept on the building site.
- B. returned to the architect.
- C. retained by the applicant for at least one year after the job is finished in the event modifications are made.
- D. filed with the county clerk or jurisdiction to properly record the property.

Answer: A

Explanation:

Under the ICC administrative provisions used with the mechanical code, one approved set is retained by the code official, and one approved set is returned to the applicant. The returned set must be kept on the site of the building or job while the authorized work is in progress. That directly matches Option A . It does not require return to the architect, filing with the county clerk, or retention for one year after completion.

NEW QUESTION # 18

Termination of vents for appliances listed for and installed outdoors that incorporate integral venting shall:

- A. be installed in accordance with their listings and the manufacturer's installation instructions.
- B. be installed in accordance with the design professional's plans as approved by the local building official.
- C. terminate not less than 5 feet vertically above the lowest connected appliance draft hood outlet or flue collar.

- D. terminate not less than 5 feet vertically above the highest connected appliance draft hood outlet or flue collar.

Answer: A

Explanation:

For appliances listed for outdoor installation and incorporating integral venting, the IMC requires them to be installed in accordance with their listings and the manufacturer's installation instructions. That matches Option C exactly.

NEW QUESTION # 19

The exhaust outlet for a clothes dryer is required to be equipped with:

- A. a temperature limit control device that will automatically shut off the system at a temperature of 250°F.
- B. an automatically controlled volume damper.
- **C. a backdraft damper.**
- D. a corrosion-resistant screen of 1/4-inch mesh.

Answer: C

Explanation:

The IMC requires clothes dryer exhaust ducts to terminate outside the building and to be equipped with a backdraft damper at the terminal. The code also prohibits screens at dryer terminations because lint can accumulate and obstruct flow. That makes Option A correct and eliminates Option C. The other two choices describe controls not required by the dryer exhaust termination rule.

NEW QUESTION # 20

.....

We offer you M2 study guide with questions and answers, and you can practice it by concealing the answers, and when you have finished practicing, you can cancel the concealment, through the way like this, you can know the deficient knowledge for M2 exam dumps, so that you can put your attention to the disadvantages. In addition, we also have the free demo for M2 Study Guide for you to have a try in our website. These free demos will give you a reference of showing the mode of the complete version. If you want M2 exam dumps, just add them into your card.
