Useful Cisco 300-740 Online Tests Are Leading Materials & First-Grade Dumps 300-740 Cost

It is a common sense that in terms of a kind of Designing and Implementing Secure Cloud Access for Users and Endpoints test torrent, the pass rate would be the best advertisement, since only the pass rate can be the most powerful evidence to show whether the 300-740 guide torrent is effective and useful or not. We are so proud to tell you that according to the statistics from the feedback of all of our customers, the pass rate among our customers who prepared for the exam under the guidance of our Designing and Implementing Secure Cloud Access for Users and Endpoints test torrent has reached as high as 98%to 100%, which definitely marks the highest pass rate in the field. Therefore, the 300-740 Guide Torrent compiled by our company is definitely will be the most sensible choice for you.

Cisco Designing and Implementing Secure Cloud Access for Users and Endpoints Sample Questions (Q141-Q146):

NEW QUESTION # 141

Security audit reports are crucial for:

- A. Eliminating the need for security policies
- B. Reducing the overall security budget
- C. Identifying compliance gaps and areas lacking sufficient security controls
- D. Promoting a false sense of security

Answer: C

NEW QUESTION # 142

Refer to the exhibit. An engineer must analyze a segmentation policy in Cisco Secure Workload. What is the result of applying the policy?

- A. HR can use Telnet to connect to IT by using Rule #1.
- B. The default catch-all rule is applied by using Rule #3.
- C. The explicit deny all rule is applied.
- D. HR cannot use Telnet to connect to IT by using Rule #2.

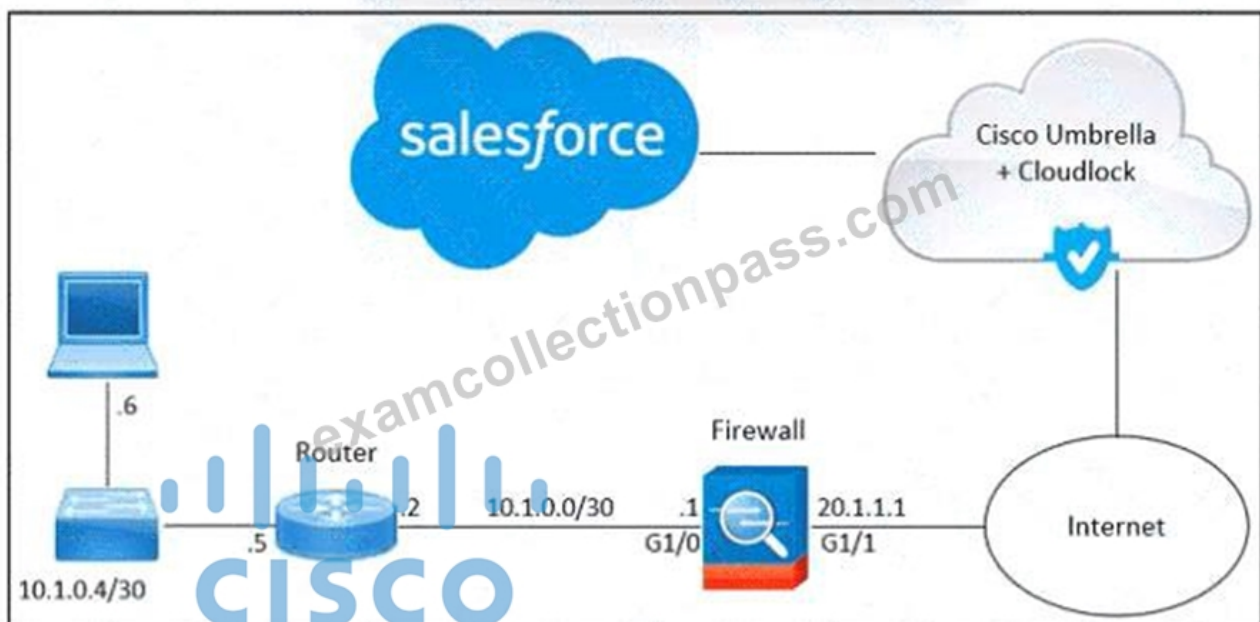

Answer: D

Explanation:

The policy includes three rules under the Apps scope. Rule #1 allows HR to communicate with IT on TCP port 23 (Telnet), but it is marked as "Default." Rule #2 denies the same HR-to-IT Telnet traffic and is marked as "Absolute," which takes precedence over any default rule. In Cisco Secure Workload (Tetration), an "Absolute" rule will override both "Default" and inherited rules. Therefore, even though there's an allow in Rule #1, the deny in Rule #2 prevents HR from using Telnet to connect to IT.

Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 5: Visibility and Assurance, Pages 95-98.

NEW QUESTION # 143

Refer to the exhibit. An engineer must enable access to Salesforce using Cisco Umbrella and Cisco Cloudlock. These actions were performed:

- * From Salesforce, add the Cloudlock IP address to the allow list
- * From Cloudlock, authorize Salesforce

However, Salesforce access via Cloudlock is still unauthorized. What should be done to meet the requirements?

- A. From the Cloudlock dashboard, grant network access to Salesforce.
- B. From the Cloudlock dashboard, grant API access to Salesforce.

- C. From the Salesforce admin page, grant network access to Cloudlock
- D. From the Salesforce admin page, grant API access to Cloudlock.

Answer: C

Explanation:

When integrating Cisco Cloudlock with SaaS platforms like Salesforce, two core authorizations are required: network access and API authorization. In the scenario, Cloudlock has been authorized in Salesforce, and its IP has been allow-listed. However, if access is still denied, the most likely cause is that Salesforce has not been configured to accept traffic from Cloudlock's IP range - a process handled from the Salesforce admin panel.

To resolve the issue, network access must be explicitly granted to Cloudlock from within Salesforce. This ensures that Salesforce accepts requests initiated by Cloudlock for monitoring and enforcement.

Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 4: Application and Data Security, Pages 85-87.

Also supported by Cisco Cloudlock for Salesforce Deployment Guide.

NEW QUESTION # 144

Multifactor authentication typically requires something you know, something you have, and something you _____.

- A. encrypt
- B. delete
- C. forget
- D. are

Answer: D

NEW QUESTION # 145

An administrator received an incident report indicating suspicious activity of a user using a corporate device.

The manager requested that the credentials of user user1@cisco.com be reset and synced via the Active Directory. Removing the account should be avoided and used for further investigation on data leak. Which configuration must the administrator apply on the Duo Admin Panel?

- A. Request the password change on the Device tab on managed devices.
- B. Disable the account on the Users tab and reset the password from the Active Directory.
- C. Quarantine the user from all the policies on the Policies tab, including associated devices.
- D. Delete the user in the Users tab option and sync it with the domain controller.

Answer: B

Explanation:

To preserve the user for investigation while immediately revoking access, the correct approach is to disable the user in the Duo Admin Panel. This action blocks authentication without deleting logs or user data.

Simultaneously, resetting the password from Active Directory ensures any potentially compromised credentials are revoked.

According to SCAZT (Section 2: User and Device Security, Pages 40-44), disabling user accounts in Duo offers secure containment during security incidents while maintaining data for forensic review.

Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 2, Pages 40-44

NEW QUESTION # 146

.....

It is necessary to strictly plan the reasonable allocation of 300-740 test time in advance. Many students did not pay attention to the strict control of time during normal practice, which led to panic during the process of examination, and even some of them are not able to finish all the questions. If you purchased 300-740 learning dumps, each of your mock exams is timed automatically by the system. 300-740 learning dumps provide you with an exam environment that is exactly the same as the actual exam. It forces you to learn how to allocate exam time so that the best level can be achieved in the examination room. At the same time, 300-740 Test Question will also generate a report based on your practice performance to make you aware of the deficiencies in your learning process and help you develop a follow-up study plan so that you can use the limited energy where you need it most. So with 300-740 study tool you can easily pass the exam.
