CIPS L3M6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Understand the Environmental Impact of Warehousing and Distribution: This section targets Logistics Coordinators and examines how warehousing and distribution contribute to environmental challenges. Topics include air pollution, carbon footprint, noise pollution, accidents, land use, and visual intrusion. It also discusses the environmental costs associated with logistics activities such as greenhouse gas emissions and global warming and strategies to mitigate these impacts. The role of government policies in sustainable logistics is emphasized, including reducing freight intensity, improving utilization rates, promoting greener transport modes, enhancing energy efficiency, and cutting emissions.
Topic 2	<ul style="list-style-type: none">Understand Methods for the Storage and Movement of Inventory: This section assesses the expertise of Warehouse Managers in inventory storage and movement methods. It includes principles of warehouse design, focusing on location, layout factors such as flow and space utilization, and flexibility. It also explains various types of warehousing equipment like material handling systems, palletization techniques, packaging standards, and automation technologies that align with environmental standards.

Topic 3	<ul style="list-style-type: none"> Understand the Concepts of Sustainability and Corporate Social Responsibility (CSR): This section of the exam measures the knowledge of Procurement Specialists and covers the foundational concepts of sustainability and CSR. It explains how sustainability involves meeting present needs without compromising future generations' ability to do the same. The focus extends beyond traditional economic criteria, incorporating environmental and social impacts into procurement decisions. CSR emphasizes extending corporate goals to include social responsibility, promoting good citizenship, and encouraging positive impacts on stakeholders, including social, economic, and cultural diversity.
Topic 4	<ul style="list-style-type: none"> Understand the Environmental Impact of Procurement and Supply: This section evaluates the skills of Supply Chain Analysts in understanding how procurement affects the environment. It explores global challenges such as balancing globalization with green logistics, public awareness, external pressures, and international regulations. The environmental impact of transportation and storage is covered, including air pollution, carbon footprint calculations, noise pollution, accidents, and land use. Additionally, it highlights the government's role in promoting sustainability through policies like greener transport modes, energy efficiency, and emission reduction.

With innovative science and technology, our study materials have grown into a powerful and favorable product that brings great benefits to all customers. We are committed to designing a kind of scientific study material to balance your business and study schedule. With our L3M6 Exam Guide, all your learning process includes 20-30 hours.

CIPS Socially Responsible Warehousing and Distribution Sample Questions (Q138-Q143):

NEW QUESTION # 138

The UN Sustainable Development Goals are not based on 'shared values'. Organizations consider social and environmental efforts as add-ons to business as usual.

- A. TRUE
- B. FALSE

Answer: B

Explanation:

The UN SDGs are fundamentally rooted in 'shared values'-global principles aimed at ensuring prosperity, equity, and environmental protection for all. They are not optional add-ons but integral to sustainable business practices. The CIPS L3M6 module highlights that organizations adopting the SDGs embed social and environmental efforts into their core strategies, rather than treating them as peripheral activities. This shift reflects a move away from 'business as usual' toward a holistic approach to sustainability.

NEW QUESTION # 139

What are the 3 pillars of sustainability?

- A. Social, Ecological, Economic
- B. Social, Environmental & Efficiency
- C. Social, Environmental & Economic
- D. Shared, Environmental & Economic

Answer: C

Explanation:

The three pillars of sustainability are Social, Environmental, and Economic. These represent:

- * Social: Equity, human rights, and community well-being
- * Environmental: Resource conservation and ecological balance.
- * Economic: Viable financial performance and growth.

The CIPS L3M6 module uses this framework (often linked to the triple bottom line) to explain sustainable business practices.

NEW QUESTION # 140

The risks of CSR issues are higher in countries where legislation is lacking or poorly implemented.

- A. FALSE
- B. TRUE

Answer: B

Explanation:

Countries with weak or unenforced legislation (e.g., on labour or environmental standards) heighten CSR risks, as unethical practices are more likely to occur undetected. The CIPS L3M6 module identifies this as a critical factor in global supply chain management, necessitating robust due diligence.

NEW QUESTION # 141

Organisations need to use _____, recycled, and recyclable packaging where possible.

- A. Suitable
- B. Substitute
- C. Sustainable
- D. Surplus

Answer: C

Explanation:

Sustainable packaging, alongside recycled and recyclable materials, supports environmental responsibility by reducing resource depletion and waste. The CIPS L3M6 syllabus stresses sustainability as a cornerstone of socially responsible warehousing, making this the correct term over alternatives like "substitute" or "suitable." Reference:

NEW QUESTION # 142

There are 4 sections that sit under the principles of the UN Global Compact. Correctly select the 4 from the list below.

- A. Labour
- B. The Environment
- C. Residential
- D. Commercial
- E. Anti-corruption
- F. Human Rights

Answer: A,B,E,F

Explanation:

The UN Global Compact's 10 principles are grouped into four sections:

1. Human Rights (Principles 1-2): Businesses should support and respect human rights and avoid complicity in abuses.
2. Labour (Principles 3-6): Uphold freedom of association, eliminate forced/child labour, and promote non-discrimination.
3. The Environment (Principles 7-9): Support environmental responsibility, encourage sustainable technologies, and undertake initiatives to promote greater environmental care.

4. Anti-corruption (Principle 10): Work against corruption in all its forms.

'Commercial' and 'Residential' are not part of the framework, as it focuses on ethical and sustainable practices rather than operational sectors. This is detailed in the CIPS L3M6 study material.
