## EXIN PRINCE2 7 Foundation written Exam Sample Questions (Q27-Q32):

### NEW QUESTION # 27

When is the 'managing a stage boundary' process used?

- A. Immediately after the project board has authorized the next stage
- B. Near the end of delivery stages
- C. Near the end of each stage

- D. Immediately after the project board has authorized the previous stage

**Answer: C**

Explanation:

The 'Managing a Stage Boundary' process is used near the end of each stage of a project. This process includes the review of the current stage, preparation for the project board to authorize the next stage, updating a project plan, and, if necessary, updating the business case and project initiation documentation.

#### **NEW QUESTION # 28**

Which statement about the length of management stages in a project is CORRECT?

- A. Use of management stages represents a time driven control
- B. A higher level of major risk will require a stage to be shorter
- **C. Stage length is influenced by project board availability**
- D. A higher level of major risk will require a stage to be longer

**Answer: C**

Explanation:

The length of management stages in a PRINCE2 project can be influenced by the availability of the project board to review and approve key decisions at stage boundaries. This ensures that stages are planned around when decision-makers can participate and provide necessary guidance or approvals.

#### **NEW QUESTION # 29**

Which is part of quality control?

- A. Document the customer's quality expectations
- B. Write Product Descriptions
- C. Provide assurance that the project is being conducted properly
- **D. Undertake quality reviews**

**Answer: D**

#### **NEW QUESTION # 30**

Which role is responsible for appointing the senior user in a project that is independent from a program?

- **A. Corporate, program management or the customer**
- B. The project manager
- C. The executive
- D. Project assurance

**Answer: A**

Explanation:

In PRINCE2, the role responsible for appointing the Senior User, as well as other key project roles such as the Executive and the Senior Supplier, is typically taken by someone from corporate or program management, or the customer. This aligns with the principle of clearly defined roles and responsibilities, ensuring that the project has clear governance and accountability. The Senior User is appointed to represent the interests of all those who will use the project's products, who will benefit from the outcomes, and those whose work might be impacted by the change.
