## ATLASSIAN Jira Administration for Data Center Sample Questions (Q58-Q63):

### NEW QUESTION # 58

Critical production bugs in a Jira Software project are hidden with an issue security scheme that has a single security level. Only project administrators are listed in the security level and granted the Set Issue Security permission.

A new requirement states that a few other Jira Core users, who have Browse Projects permission, should be able to see the hidden issues. These users will vary per issue and be selected from across various groups.

What needs to be added to the security level?

- A. User custom field value
- B. Project role
- C. Single Users
- D. Group custom field value
- E. Application access
- F. Group

**Answer: B**

### NEW QUESTION # 59

Beehive Bank wants to implement Jira with the following requirements:

- \* Enforce the strictest possible security measures for user logins.
- \* Allow external users to create their own user logins.
- \* Use the Jira Internal Directory.

Which two login security options can you offer them? (Choose two.)

- A. Set Login Mode to Secure.
- B. Require a certain length for passwords.
- C. Require that a password is not too similar to the user name or email address.
- D. Require character variety for the user name.
- E. Require that a password is not too similar to another user's password.

**Answer: A,B**

### NEW QUESTION # 60

Currently, users enter information using two custom fields. Company and Product of type Select List (single choice). Several values are shown below.

\* Company: Atlassian, Apple

\* Product: Jira Software, Confluence, iPhone, iPad, W

Currently, users can select an invalid combination such as "Atlassian iPhone".

You need to replace the two fields with a single field so that users can only select a single valid combination such as "Atlassian Jira Software".

Which field should you use?

- A. custom field of type Select List (cascading)
- B. system field Labels
- C. system field Fix Version/s
- D. custom field of type Checkboxes
- E. custom field of type Select List (multiple choices]

**Answer: A**

### NEW QUESTION # 61

Cassie was a member of a group that you just deleted. She still has Jira Software application access. Identify a possible impact of the group deletion.
