We have made this product after consulting with a lot of professionals so the students can be successful. ValidBraindumps has hired a team of professionals who work on a daily basis without caring about themselves to update the Amazon CLF-C02 practice material.

Amazon AWS Certified Cloud Practitioner Sample Questions (Q155-Q160):

NEW QUESTION # 155

Which options are AWS Cloud Adoption Framework (AWS CAF) security perspective capabilities? (Select TWO.)

- A. Infrastructure protection
- B. Availability and continuity
- C. Incident and problem management
- D. Observability
- E. Incident response

Answer: A,E

Explanation:

The AWS Cloud Adoption Framework (AWS CAF) security perspective helps users achieve the confidentiality, integrity, and availability of their data and cloud workloads. It comprises nine capabilities that are grouped into three categories: preventive, detective, and responsive. Incident response and infrastructure protection are two of the capabilities in the responsive and preventive categories, respectively. Incident response helps users prepare for and respond to security incidents in a timely and effective manner, using tools and processes that leverage AWS features and services. Infrastructure protection helps users implement security controls and mechanisms to protect their cloud resources, such as network, compute, storage, and database, from unauthorized access or malicious attacks. NEW QUESTION # 156

Which benefit does Amazon Rekognition provide?

- A. The ability to detect objects that appear in pictures
- B. The ability to bid on object detection jobs
- C. The ability to place watermarks on images
- D. The ability to resize millions of images automatically

Answer: A

Explanation:

Amazon Rekognition is a service that provides deep learning-based image and video analysis. One of the benefits of Amazon Rekognition is the ability to detect objects that appear in pictures, such as faces, landmarks, animals, text, and scenes. This can enable applications to perform tasks such as face recognition, face verification, face comparison, face search, celebrity recognition, emotion detection, age range estimation, gender identification, facial analysis, facial expression recognition, and more. NEW QUESTION # 157

Which AWS service provides the ability to manage infrastructure as code?

- A. AWS CloudFormation
- B. AWS Direct Connect
- C. AWS CodePipeline
- D. AWS CodeDeploy

Answer: A

Explanation:

The AWS service that provides the ability to manage infrastructure as code is AWS CloudFormation. Infrastructure as code is a process of defining and provisioning AWS resources using code or templates, rather than manual actions or scripts. AWS CloudFormation allows you to create and update stacks of AWS resources based on predefined templates that describe the desired state and configuration of the resources. AWS CloudFormation automates and simplifies the deployment and management of AWS resources, and ensures consistency and repeatability across different environments and regions. AWS CloudFormation also supports rollback, change sets, drift detection, and nested stacks features that help you to monitor and control the changes to your infrastructure.

NEW QUESTION # 158

What can a user accomplish using AWS CloudTrail?

- **A. Record API calls made to AWS services.**
- B. Assess the compliance of AWS resource configurations with policies and guidelines.
- C. Ensure that Amazon EC2 instances are patched with the latest security updates. A company uses Amazon Workspaces.
- D. Generate an IAM user credentials report.

Answer: A

Explanation:

AWS CloudTrail is an AWS service that enables users to accomplish the task of recording API calls made to AWS services. AWS CloudTrail is a service that tracks user activity and API usage across the AWS account.

AWS CloudTrail records the details of every API call made to AWS services, such as the identity of the caller, the time of the call, the source IP address of the caller, the parameters and responses of the call, and more. Users can use AWS CloudTrail to audit, monitor, and troubleshoot their AWS resources and actions.

The other options are incorrect because they are not tasks that users can accomplish using AWS CloudTrail.

Generating an IAM user credentials report is a task that users can accomplish using IAM, which is an AWS service that enables users to manage access and permissions to AWS resources and services. Assessing the compliance of AWS resource configurations with policies and guidelines is a task that users can accomplish using AWS Config, which is an AWS service that enables users to assess, audit, and evaluate the configurations of their AWS resources. Ensuring that Amazon EC2 instances are patched with the latest security updates is a task that users can accomplish using AWS Systems Manager, which is an AWS service that enables users to automate operational tasks, manage configuration and compliance, and monitor system health and performance. Reference: AWS CloudTrail FAQs

NEW QUESTION # 159

AWS has the ability to achieve lower pay-as-you-go pricing by aggregating usage across hundreds of thousands of users. This describes which advantage of the AWS Cloud?

- A. Launch globally in minutes
- B. Increase speed and agility
- **C. High economies of scale**
- D. No guessing about compute capacity

Answer: C

Explanation:

Explanation

AWS has the ability to achieve lower pay-as-you-go pricing by aggregating usage across hundreds of thousands of users. This means that AWS can leverage its massive scale and purchasing power to reduce the costs of infrastructure, hardware, software, and operations. These savings are then passed on to the customers, who only pay for the resources they use. You can learn more about the AWS pricing model from [this webpage] or [this digital course].

NEW QUESTION # 160

.....

Our study material is not same as other dumps or study tools, it not only has good quality but also has cheap price. We have most

professional team to compile and revise CLF-C02 exam question, in order to try our best to help you pass the exam and get a better condition of your life and your work. Moreover, only need to spend 20-30 is it enough for you to grasp whole content of CLF-C02 practice materials that you can pass the exam easily, this is simply unimaginable.
