

Fortinet NSE7_EFW-7.2 Web-Based Practice Test

The image displays two terminal windows side-by-side, showing the configuration of a FortiGate interface named 'port4'. The left window is for 'FortiGate-A' and the right is for 'FortiGate-B'. Both show the same configuration steps: setting the vdom to 'root', IP to 10.1.5.1/255.255.255.0, allowing ping and https, setting type to physical, enabling vrrp-virtual-mac, and configuring vrrp with priority 255 and preempt enabled. The only difference is the vrrp priority for the backup (30 for A, 40 for B).

```
FortiGate-A (port4) # show
config system interface
edit "port4"
set vdom "root"
set ip 10.1.5.1 255.255.255.0
set allowaccess ping https
set type physical
set vrrp-virtual-mac enable
config vrrp
edit 1
set vrrp 1
set vrip 10.1.5.254
set priority 255
set preempt enable
set vrdst 8.8.8.8
set vrdst-priority 30
next
end
set snmp-index 4
next
end

FortiGate-B (port4) # show
config system interface
edit "port4"
set vdom "root"
set ip 10.1.5.2 255.255.255.0
set allowaccess ping https
set type physical
set vrrp-virtual-mac enable
config vrrp
edit 1
set vrrp 1
set vrip 10.1.5.254
set priority 50
set preempt enable
set vrdst 8.8.8.8
set vrdst-priority 40
next
end
set snmp-index 4
next
end
```

Enhance Your Success Rate with ValidDumps's Fortinet NSE7_EFW-7.2 Exam Questions

Our NSE7_EFW-7.2 study materials will really be your friend and give you the help you need most. NSE7_EFW-7.2 exam braindumps understand you and hope to accompany you on an unforgettable journey. As long as you download our NSE7_EFW-7.2 practice engine, you will be surprised to find that NSE7_EFW-7.2 learning guide is well designed in every detail no matter the content or the displays. We have three different versions to let you have more choices.

Fortinet NSE 7 - Enterprise Firewall 7.2 Sample Questions (Q80-Q85):

NEW QUESTION # 80

Refer to the exhibits, which contain the network topology and BGP configuration for a hub.
Exhibit A.

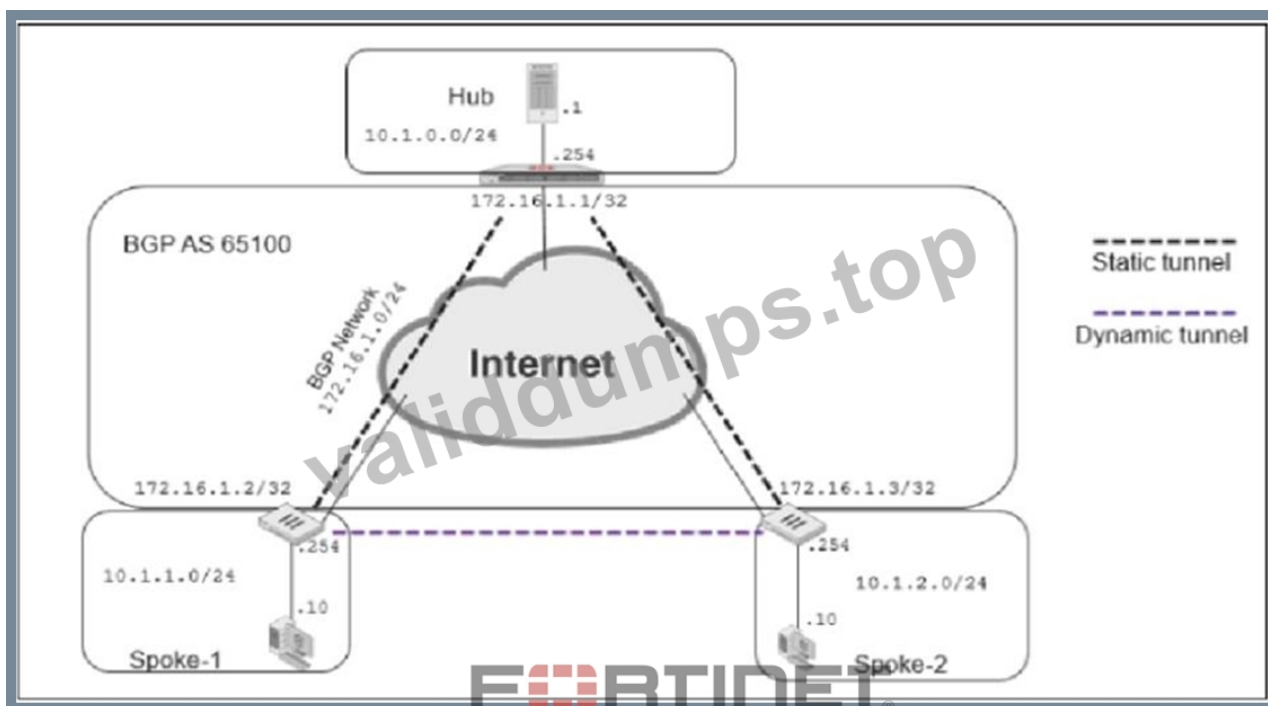

Exhibit B.

```

Hub # show router bgp
config router bgp
  set as 65100
  set router-id 172.16.1.1
  config neighbor-group
    edit "advpn"
      set remote-as 65100
      set route-reflector-client disable
    next
  end
  config neighbor-range
    edit 1
      set prefix 172.16.1.0 255.255.255.0
      set neighbor-group "advpn"
    next
  end
  config network
    edit 1
      set prefix 10.1.0.0 255.255.255.0
    next
  end
  ....
end

```

An administrator is trying to configure ADVPN with a hub and spoke VPN setup using iBGP. All the VPNs are up and connected to the hub. The hub is receiving route information from both spokes over iBGP; however the spokes are not receiving route information from each other.

What change must the administrator make to the hub BGP configuration so that the routes learned from one spoke are forwarded to the other spoke?

- A. Enable route redistribution under config router bgp
- B. Configure the hub as a route reflector
- C. Add a prefix list to the hub that permits routes to be shared between the spokes
- **D. Configure auto-discovery-sender on the hub**

Answer: D

NEW QUESTION # 81

Exhibit.

Refer to the exhibit, which shows a partial web filter profile configuration. What can you conclude from this configuration about access to www.facebook.com, which is categorized as Social Networking?

- A. The access is blocked based on the Content Filter configuration
- **B. The access is blocked based on the URL Filter configuration**
- C. The access is blocked if the local or the public FortiGuard server does not reply
- D. The access is allowed based on the FortiGuard Category Based Filter configuration

Answer: B

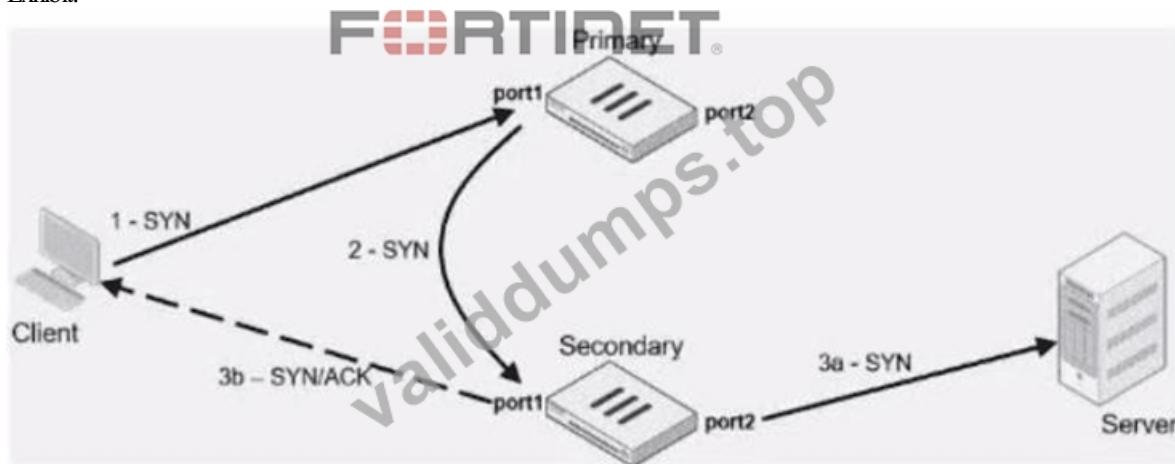

Explanation:

The access to www.facebook.com is blocked based on the URL Filter configuration. In the exhibit, it shows that the URL "www.facebook.com" is specifically set to "Block" under the URL Filter section.

 = Fortigate: How to configure Web Filter function on Fortigate, Web filter | FortiGate / FortiOS 7.0.2 | Fortinet Document Library,
 FortiGate HTTPS web URL filtering ... - Fortinet ... - Fortinet Community

NEW QUESTION # 82

Exhibit.

Refer to the exhibit, which contains an active-active load balancing scenario.

During the traffic flow the primary FortiGate forwards the SYN packet to the secondary FortiGate.

What is the destination MAC address or addresses when packets are forwarded from the primary FortiGate to the secondary FortiGate?

- A. Secondary virtual MAC port1
- B. Secondary physical MAC port2 then virtual MAC port2
- **C. Secondary physical MAC port1**
- D. Secondary virtual MAC port1 then physical MAC port1

Answer: C

Explanation:

In an active-active load balancing scenario, when the primary FortiGate forwards the SYN packet to the secondary FortiGate, the destination MAC address would be the secondary's physical MAC on port1, as the packet is being sent over the network and the physical MAC is used for layer 2 transmissions.

NEW QUESTION # 83

In which two ways does FortiManager function when it is deployed as a local FDS? (Choose two.)

- A. It caches available firmware updates for both managed and unmanaged devices
- B. It downloads license information for registered and unregistered devices
- C. It can be configured as an update server a rating server or both
- D. It functions as rating server only for web filtering and antispam services

Answer: C,D

NEW QUESTION # 84

An administrator configured the following command on FortiGate

```
config router ospf
```

```
sec resart-mode graceful-restart
```

Which two statements correctly describe the result of the above command? (Choose two.)

- A. FortiGate is configured with graceful restart and will exit graceful mode, if the network topology changes
- B. The OSPF neighbor that receives the grace link-state advertisement (LSA) will enter into helper mode
- C. After the default 40 seconds wait time the OSPF neighbors will resume communication with the restarting router
- D. In an HA cluster FortiGate devices will keep the OSPF routes in their routing table to avoid traffic interruption during an HA failover

Answer: B,C

NEW QUESTION # 85

.....

Regular practice can give you the skills and confidence needed to perform well on your NSE7_EFW-7.2 exam. By practicing your Fortinet NSE 7 - Enterprise Firewall 7.2 (NSE7_EFW-7.2) exam regularly, you can increase your chances of success and make sure that all of your hard work pays off when it comes time to take the test. We understand that every Fortinet NSE 7 - Enterprise Firewall 7.2 (NSE7_EFW-7.2) exam taker has different preferences. To make sure that our Fortinet NSE 7 - Enterprise Firewall 7.2 (NSE7_EFW-7.2) preparation material is accessible to everyone, we made it available in three different formats. You can choose the most suitable and convenient one for you.
