Great concentrative progress has been made by our company, who aims at further cooperation with our candidates in the way of using our JN0-336 exam engine as their study tool. With more people joining in the JN0-336 exam army, we have become the top-ranking training materials provider in the international market. In addition, we always adhere to the principle of “mutual development and benefit”, and we believe our JN0-336 practice materials can give you a timely and effective helping hand whenever you need in the process of learning.

Do you want to obtain your certificate as quickly as possible? If you do, just choose us. You can get your downloading link within ten minutes after your payment for JN0-336 training materials, and you can start your learning as quickly as possible. In addition, JN0-336 training materials of us are high quality, and you just need to spend 48 to 72 hours on practicing, and you can pass the exam successfully. If you have any questions about the JN0-336 Exam Dumps, just contact us, we will give you reply as soon as possible.

Get Success In Juniper JN0-336 Exam With ValidDumps Quickly

As for candidates who possessed with a JN0-336 professional certification are more competitive. The current world is a stage of science and technology, social media and social networking has already become a popular means of JN0-336 exam materials. As a result, more and more people study or prepare for exam through social networking. By this way, our JN0-336 learning guide can be your best learn partner. The pass rate of our JN0-336 exam questions is high as 99% to 100%, and it is a wise choice to have our JN0-336 training guide.

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q25-Q30):

NEW QUESTION # 25

Your company is using the Juniper ATP Cloud free model. The current inspection profile is set at 10 MB. You are asked to configure ATP Cloud so that executable files up to 30 MB can be scanned while at the same time minimizing the change in scan time for other file types.

Which configuration should you use in this scenario?

- A. Use the ATP Cloud UI to change the default profile to increase the scan limit for all files to 30 MB.
- **B. Use the ATP Cloud UI to update a custom profile and increase the scan limit for executable files to 30 MB.**
- C. Use the CLI to create a custom profile and increase the scan limit.
- D. Use the CLI to change the default profile to increase the scan limit for all files to 30 MB.

Answer: B

Explanation:

In this scenario, you should use the ATP Cloud UI to create a custom profile and update the scan limit for executable files to 30 MB. This will ensure that executable files up to 30 MB can be scanned, while at the same time minimizing the change in scan time for other file types. To do this, log in to the ATP Cloud UI and go to the Profiles tab. Click the Create button to create a new profile, and then adjust the scan limits for executable files to 30 MB. Once you have saved the custom profile, you can apply it to the desired systems and the new scan limit will be in effect.

NEW QUESTION # 26

You enable chassis clustering on two devices and assign a cluster ID and a node ID to each device. In this scenario, what is the correct order for rebooting the devices?

- A. Reboot only the primary device since the secondary will assign itself the correct cluster and node ID.
- B. Reboot the primary device, then the secondary device.
- **C. Reboot the secondary device, then the primary device.**
- D. Reboot only the secondary device since the primary will assign itself the correct cluster and node ID.

Answer: C

Explanation:

When chassis clustering is enabled and IDs are assigned, it is typically recommended to first reboot the secondary device. This allows the secondary device to fully integrate and recognize its role and settings within the cluster without affecting the ongoing traffic that the primary device might be handling.

Once the secondary device has successfully rebooted and is operational within the cluster, the primary device can then be rebooted. This ensures that the primary device's reboot does not cause any network downtime, as the secondary device, now fully operational, can take over the traffic and roles as needed.

NEW QUESTION # 27

You are configuring logging for a security policy.

In this scenario, in which two situations would log entries be generated? (Choose two.)

- **A. at session initialization**
- B. every 60 seconds
- **C. at session close**
- D. every 10 minutes

Answer: A,C

Explanation:

Log entries would be generated in two situations: at session initialization and at session close. At session initialization, the log entry would include details about the connection, such as the source and destination IP addresses, the service being used, and the action taken by the security policy. At session close, the log entry would include details about the connection, such as the duration of the session, the bytes sent/received, and the action taken by the security policy. For more information, you can refer to the Juniper Security documentation at

https://www.juniper.net/documentation/en_US/junos/topics/reference/configuration-statement/security-log-co

NEW QUESTION # 28

Which two statements are correct about JSA data collection? (Choose two.)

- **A. The Flow Collector can use statistical sampling**
- B. The Event Collector collects information using BGP FlowSpec.
- **C. The Event Collector parses logs**

- D. The Flow Collector parses logs.

Answer: A,C

Explanation:

The Flow Collector can use statistical sampling to collect and store network flow data in the JSA database. The Event Collector collects information from various sources including syslog, SNMP, NetFlow, and BGP FlowSpec. Both the Flow Collector and the Event Collector parse logs to extract useful information from the logs.

NEW QUESTION # 29

You want to deploy a virtualized SRX in your environment.

In this scenario, why would you use a vSRX instead of a cSRX? (Choose two.)

- A. Only the vSRX provides clustering.
- B. Only the vSRX provides NAT, IPS, and UTM services.
- C. The vSRX supports Layer 2 and Layer 3 configurations.
- D. The vSRX has faster boot times.

Answer: A,C

Explanation:

vSRX provides flexible networking capabilities which include support for both Layer 2 (data link) and Layer 3 (network) configurations. This allows it to handle a variety of routing and switching tasks within virtual environments.

Clustering capability, which involves grouping multiple vSRX instances to operate as a single entity for redundancy and high availability, is a feature specific to vSRX. This is critical in environments where continuous uptime and resilience are required.

NEW QUESTION # 30

.....

As a dumps provider, ValidDumps have a good reputation in the field. We are equipped with a team of IT elites who do much study in the Juniper test questions and training materials. We check the updating of JN0-336 Dumps PDF everyday to make sure you pass JN0-336 valid test easily. The pass rate will be 100%.

JN0-336 Latest Test Fee: <https://www.validdumps.top/JN0-336-exam-torrent.html>

JN0-336 Latest Test Fee system follows the "platform + ecosystem" development strategy, which is a new collaborative architecture of JN0-336 Latest Test Fee infrastructure based on "Cloud-Pipe-Terminal". By using our JN0-336 questions and answers, the customers gain the passing rate up to 95-100 percent, The moment you get our JN0-336 study materials, you can take full advantage of them as soon as possible.

This provides us with the knowledge required to navigate through JN0-336 the upcoming chapters with insight as to how the patterns can be applied individually and in various combinations.

This enabled administrators to build truly self-healing **Dumps JN0-336 Free Download** systems and applications, JNCIS-SEC system follows the "platform + ecosystem" development strategy, which is a new collaborative JN0-336 Interactive EBook architecture of JNCIS-SEC infrastructure based on "Cloud-Pipe-Terminal".

Free PDF Reliable JN0-336 - Dumps Security, Specialist (JNCIS-SEC) Free Download

By using our JN0-336 Questions and answers, the customers gain the passing rate up to 95-100 percent, The moment you get our JN0-336 study materials, you can take full advantage of them as soon as possible.

As long as you practice our JN0-336 valid dump in your spare time and remember the answers, JN0-336 exam will be easy, They are compiled according to the latest development conditions JN0-336 Latest Test Fee in the theory and practice and the questions and answers are based on real exam.
