EC-COUNCIL EC-Council Certified CISO (CCISO) Sample Questions (Q249-Q254):

NEW QUESTION # 249
Scenario: As you begin to develop the program for your organization, you assess the corporate culture and determine that there is a pervasive opinion that the security program only slows things down and limits the performance of the "real workers." What must you do first in order to shift the prevailing opinion and reshape corporate culture to understand the value of information security to the organization?

- A. Cite corporate policy and insist on compliance with audit findings
- B. Cite compliance with laws, statutes, and regulations - explaining the financial implications for the company for non-compliance
- C. Understand the business and focus your efforts on enabling operations securely
- D. Draw from your experience and recount stories of how other companies have been compromised

Answer: C

NEW QUESTION # 250
The MOST common method to get an unbiased measurement of the effectiveness of an Information Security Management System (ISMS) is to_____.

- A. create operational reports on the effectiveness of the controls.
- B. perform an independent audit of the security controls
- C. assign the responsibility to the information security team
- D. assign the responsibility to the team responsible for the management of the controls

Answer: B

NEW QUESTION # 251
Which of the following functions evaluates risk present in IT initiatives and/or systems when implementing an information security program?

- A. Risk Assessment
- B. System Testing
- C. Risk Management
- D. Vulnerability Assessment

Answer: A

NEW QUESTION # 252
Which of the following is an IT governance framework that allows managers to bridge the gap between control requirements, technical issues, and business risks?

- A. International Organization for Standardization (ISO) 27003
- B. Health Insurance Portability and Accountability Act (HIPAA)
- C. Control Objectives for Information and Related Technology (COBIT)
- D. Payment Card Industry (PCI)

Answer: C

Explanation:
Comprehensive and Detailed Explanation:
The CCISO framework identifies COBIT as the primary IT governance framework designed to align business objectives, risk management, and technical controls. CCISO documentation highlights COBIT's role in translating control requirements into actionable governance and risk decisions.
ISO 27003 supports ISMS implementation, PCI is a compliance standard, and HIPAA is a regulation-not governance frameworks. COBIT is therefore correct.

NEW QUESTION # 253
The PRIMARY objective for information security program development should be:

- A. Establishing incident response programs.
- B. Reducing the impact of the risk to the business.
- C. Establishing strategic alignment with bunsiness continuity requirements
- D. Identifying and implementing the best security solutions.

Answer: B

Explanation:
Objective of Information Security Programs:
The primary objective of an information security program is to manage risks in a manner that aligns with business goals and minimizes the impact of potential security incidents. This involves identifying risks, implementing appropriate controls, and ensuring that security measures are integrated into the organization's overall risk management framework.
Risk-Centric Approach:
The EC-Council emphasizes that information security programs should not merely focus on compliance or deploying the latest tools but on reducing risks that could disrupt business processes or cause harm to assets.
Alignment with Business Continuity:
While strategic alignment with business continuity requirements (Option B) is critical, it is part of the broader objective of reducing the overall impact of risks on the business.
References:
This is highlighted in the EC-Council's emphasis on aligning security initiatives with business strategies while prioritizing risk mitigation.
