# Cisco Certified Design Expert (CCDE v3.0) Written Exam Study Question Has Reasonable Prices but Various Benefits - DumpsQuestion

Some of our new customers will suppose that it will cost a few days to send them our 400-007 exam questions after their purchase. But in fact, only in 5 to 10 minutes after payment, you can use 400-007 preparation materials very fluently. We know you are very busy, so we will not waste any extra time. In this fast-paced society, you must cherish every minute. Using 400-007 training quiz is really your most efficient choice.

Our 400-007 learning questions engage our working staff in understanding customers' diverse and evolving expectations and incorporate that understanding into our strategies, thus you can 100% trust our 400-007 exam engine. And our professional 400-007 Study Materials determine the high pass rate. According to the research statistics, we can confidently tell that 99% candidates after using our products have passed the 400-007 exam.

## Trustable 400-007 Exam Syllabus | 400-007 100% Free Actual Braindumps

The free demo Cisco 400-007 exam questions are available for instant download. Download the Cisco Certification Exams dumps demo free of cost and explores the top features of Cisco Certified Design Expert (CCDE v3.0) Written Exam (400-007) exam questions and if you feel that the 400-007 exam questions can be helpful in Cisco 400-007 exam preparation then take your buying decision. Best of luck!!!

## Cisco Certified Design Expert (CCDE v3.0) Written Exam Sample Questions (Q87-Q92):

**NEW QUESTION # 87**
Which two technologies enable multilayer segmentation? (Choose two.)

- A. firewalls
- B. segment routing
- C. policy-based routing
- D. filter lists
- E. data plane markings

**Answer: A,C**

**NEW QUESTION # 88**

Refer to the exhibit. An architect must design an enterprise WAN that connects the headquarters with 22 branch offices. The number of remote sites is expected to triple in the next three years.

The final solution must comply with these requirements:

- Only the loopback address of each of the enterprise CE X and Y
routers must be advertised to the interconnecting service provider
cloud network.
- The transport layer must carry the VPNv4 label and VPN payload over
the MP-BGP control plane.
- The transport layer must not be under service provider control.

Which enterprise WAN transport virtualization technique meets the requirements?

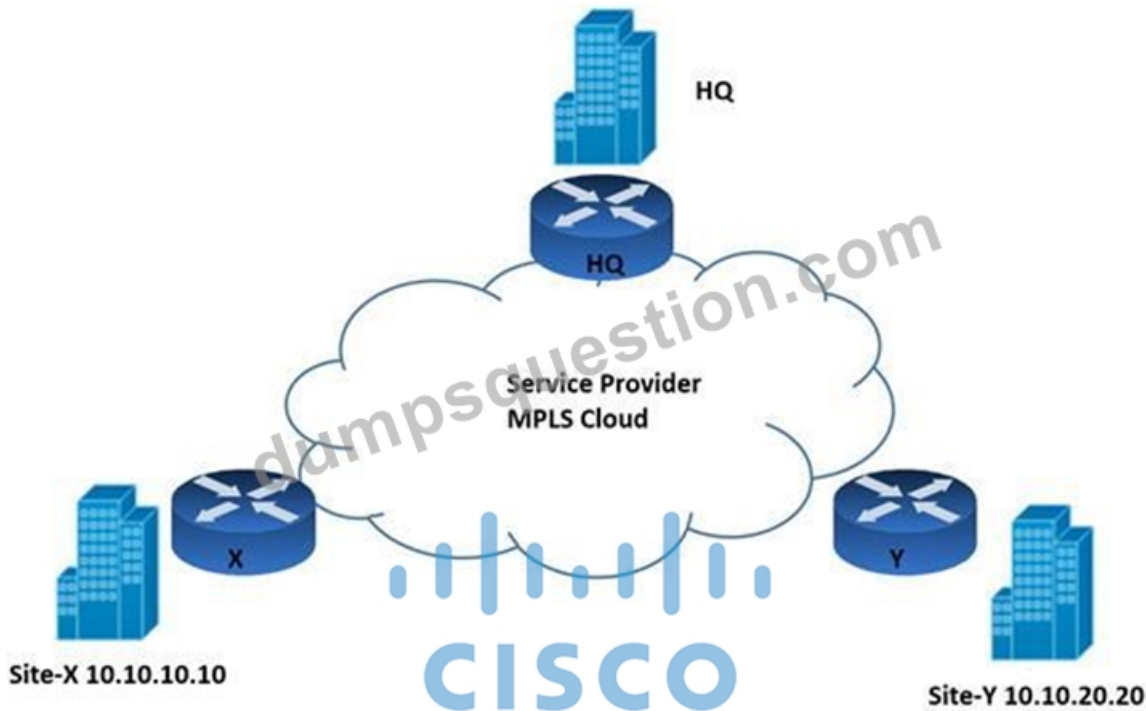

- A. EIGRP Over the Top
- B. MPLS over BGP over multipoint GRE
- C. point-to-point GRE per VRF
- D. DMVPN per VRF

**Answer: B**

**NEW QUESTION # 89**

When consumers that leverage IaaS reach 100% resource capacity, what can be used to redirect the overflow of traffic to the public cloud so there is no disruption to service?

- A. Cloud spill
- B. Cloud shaping
- C. Cloud bursting
- D. Cloud policing

**Answer: C**

Explanation:

Cloud Bursting is the process by which applications or workloads that run in a private cloud or data center environment are "bursted" into a public cloud infrastructure during high-demand periods. This prevents service degradation and ensures performance continuity without manual intervention.

In CCDE design strategy terms, this enables:

* Elastic scalability
* Cost-effective use of public infrastructure on-demand

* Seamless service delivery to end users

Options like "cloud policing" and "cloud shaping" are not standard terms, and "cloud spill" is not an established mechanism. "Cloud bursting" is the correct architectural mechanism that addresses this overflow requirement.

**NEW QUESTION # 90**

Refer to the exhibit A customer network design team is planning a migration from a legacy TDM- based L2VPN to an MPLS-based L3VPN Migration is planned in a phased approach:

- OSPF backbone Link between HUB A and HUB B sites to be migrated to eBGP
- Spoke A2 and Spoke B1 will be migrated to the L3VPN

Which solution design can be considered to avoid routing loops during backbone link migration?

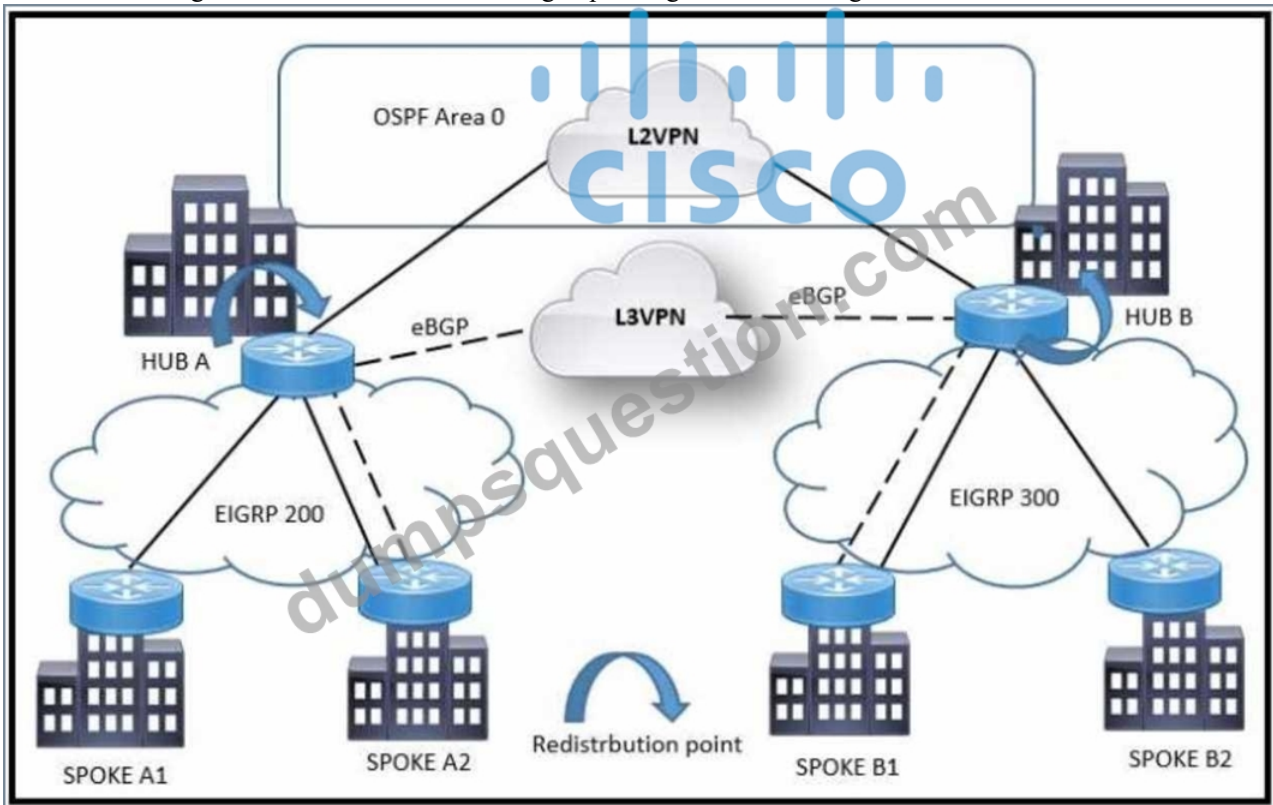

- A. Enable route-filtering on OSPF backbone routers for spoke traffic
- B. Advertise low AD value for transit traffic on hub sites.
- C. Redistribute EIGRP 200 and 300 with low cost into BGP
- D. OSPF backbone area advertises summarized routes to hub.

**Answer: D**

**NEW QUESTION # 91**

Network operators have many options available, from fully centralized to fully distributed control planes, and each approach has its own set of characteristics. Drag and drop the characteristics from the left onto the corresponding approach on the right.

**Answer:**

Explanation:

**NEW QUESTION # 92**
......

The pass rate is 98.95% for the 400-007 training materials, and most candidates can pass the exam just one time. We ensure you that you will refund your money if you fail to pass the exam. In addition, we offer you free update for one year, and the update version for the 400-007 exam dumps will be sent to your email automatically, so that you can know the latest information about the 400-007 Exam Dumps. We provide you with the online chat service, and in the process of learning, if you have any questions about the 400-007 exam dumps, you can consult us.
