Question 1: Skipped

Select the way(s) to increase the security of a traditional user id and password system?

- ☐ Require users to change their passwords more frequently.
(Correct)
- ☐ Use multi-factor authentication which requires an additional device (something you have) to verify identity.
(Correct)
- ☐ Require longer and more complex passwords.
(Correct)
- ☐ Do not allow users to log into an application except using a company registered device.
(Correct)

Explanation

All of these are ways to increase the security on an account.

General information about AZ-900 Exam

The Microsoft AZ-900 Certification Exam is one of the exams required to achieve the MCP (Microsoft Certified Professional) certification. As an entry-level certification, the AZ-900 will certify that you have an understanding of basic Windows PowerShell

tasks like creating, running, and managing Windows PowerShell scripts, command-line utilities, and modules. MCP can create and manage Windows PowerShell-based solutions for client PCs as well as administer server roles, features, and services. Challenging as it may be, the AZ-900 certification exam extends your knowledge and skills to the level of a self-sufficient Windows PowerShell user. Microsoft is a test engine provider, so the test is administered through them. Harder tests are also administered by Microsoft.
