The main reason why we try our best to protect our customers' privacy is that we put a high value on the reliable relationship and mutual reliance to create a sustainable business pattern.

HP Selling HPE Aruba Networking Solutions Sample Questions (Q34-Q39):

NEW QUESTION # 34

What common challenge for network admins is created by an expanding remote workforce?

- A. Home equipment often lacks support for Wi-Fi 6.
- B. The shift in traffic away from the campus makes optimization difficult.
- C. Typical VPN solutions are complex and take a lot of time to support.
- D. Data center networks are not designed to receive so much external traffic.

Answer: C

Explanation:

The correct answer is B because as remote workforces expand, traditional VPN solutions have become a major challenge for IT

teams. VPNs are complex to scale, create management overhead, and introduce performance bottlenecks. HPE Aruba Networking highlights that organizations increasingly need to move from VPN-based access to Zero Trust Network Access (ZTNA) and SASE models to simplify operations and improve security.

NEW QUESTION # 35

Which Aruba solution supports location services and asset tracking?

- A. Aruba AirWave
- **B. Aruba Meridian**
- C. Aruba NetEdit
- D. Aruba ClearPass

Answer: B

NEW QUESTION # 36

What is one advantage of HPE Aruba Networking private 5G?

- A. Organizations can manage their 5G network with HPE Aruba Networking Fabric Composer.
- B. Organizations can repurpose their existing HPE Aruba Networking APs for private 5G.
- C. It simplifies deployment by providing a one-size-fits-all solution.
- **D. It provides a complete solution for ultra-reliable, high-performance connectivity.**

Answer: D

Explanation:

The correct answer is C because HPE Aruba Networking private 5G delivers a comprehensive solution for ultra-reliable, high-performance wireless connectivity. It is designed for environments where Wi-Fi alone may not be sufficient, such as industrial IoT, manufacturing, ports, healthcare, and large-scale enterprise campuses. The solution ensures low latency, high availability, and secure connectivity tailored for mission-critical applications.

NEW QUESTION # 37

What is a common challenge driving customers to upgrade their networks?

- A. The network core and the network edge cannot interoperate with each other.
- **B. The wireless network cannot deliver the performance users need.**
- C. The wired network does not support the correct Ethernet technologies for users and IoT devices.
- D. Most network vendors only provide command line interfaces for network devices, not easy-to-use GUIs.

Answer: B

Explanation:

The correct answer is B because one of the most common drivers for network upgrades is that legacy wireless infrastructure cannot meet the growing performance demands of users, IoT devices, and modern applications. With the proliferation of Wi-Fi 6, Wi-Fi 6E, and now Wi-Fi 7, enterprises are upgrading networks to deliver higher capacity, lower latency, and improved user experience.

NEW QUESTION # 38

What is one customer need that HPE Aruba Networking Central addresses?

- A. Eliminating the need for network admins and letting server admins maintain the network.
- B. Deploying the network and then letting it run without further management and monitoring.
- **C. Optimizing network performance through actionable AI recommendations.**
- D. Managing each network silo with tools specialized for that silo's needs.

Answer: C

Explanation:

The correct answer is B because Aruba Central addresses the need for continuous optimization and operational efficiency by
