Now IT industry is more and more competitive. Passing Microsoft GH-100 exam certification can effectively help you entrench yourself and enhance your status in this competitive IT area. In our Real4dumps you can get the related Microsoft GH-100 exam certification training tools. Our Real4dumps IT experts team will timely provide you the accurate and detailed training materials about Microsoft Certification GH-100 Exam. Through the learning materials and exam practice questions and answers provided by Real4dumps, we can ensure you have a successful challenge when you are the first time to participate in the Microsoft certification GH-100 exam. Above all, using Real4dumps you do not spend a lot of time and effort to prepare for the exam.

Microsoft GH-100 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Manage GitHub Actions: This section of the exam measures skills of DevOps Engineers and emphasizes managing workflows, reusable actions, and distribution strategies within the enterprise. It explains configuring organization-level policies, managing self-hosted and GitHub-hosted runners, controlling access through IP allow lists, handling encrypted secrets, and integrating third-party vaults for workflow security.

Topic 2	<ul style="list-style-type: none"> • Enable secure software development and ensure compliance: This section of the exam measures skills of GitHub Enterprise Administrators and deals with applying GitHub's security and compliance capabilities. It covers policies, auditing, scrubbing sensitive data, secret scanning, code scanning with CodeQL, dependency management with Dependabot, and implementing security response plans. It also explores authentication tokens, app security policies, and enterprise managed users.
Topic 3	<ul style="list-style-type: none"> • Manage access and permissions based on membership: This section of the exam measures skills of DevOps Engineers and reviews how to manage organizations, teams, and repository permissions. It includes default permission settings, team synchronization through AD, scripting across multiple organizations, and aligning enterprise policies with trust requirements. It also contrasts roles such as organization members, owners, collaborators, and billing managers.

The GitHub Administration has become very significant to validate expertise and level up career. Success in the GitHub Administration exam helps you meet the ever-changing dynamics of the tech industry. latest GitHub Administration GH-100 Exam Cram Pdf, collection pdf and exam dumps have been provided in Real4dumps. With 365 days updates.

Microsoft GitHub Administration Sample Questions (Q48-Q53):

NEW QUESTION # 48

What is the effect of enforcing a policy that restricts GitHub Actions to only those created by the enterprise?

- A. Marketplace actions are allowed only with SSO enabled
- B. Actions can only be triggered by organization members
- C. Only actions created within the enterprise are allowed
- D. All public actions are allowed

Answer: C

Explanation:

When you enforce the "Allow enterprise actions and reusable workflows" policy, GitHub will block all workflows from using actions or reusable workflows that aren't defined in a repository within your enterprise - so only actions created inside your enterprise are allowed.

NEW QUESTION # 49

Why would someone choose to configure a security policy?

- A. To define which open source packages are permitted for use as part of that repository.
- B. To prevent anyone from pushing to the repository without approval.
- C. To provide information on an open source repository for open source collaborators and researchers that may need to report and disclose sensitive security findings to maintainers securely.
- D. To communicate corporate security and compliance policies for end users on a private repository.

Answer: C

Explanation:

A security policy (the SECURITY.md file) lets maintainers of an open source repository provide clear, private instructions for collaborators and external researchers on how to report and disclose security vulnerabilities responsibly.

NEW QUESTION # 50

Which of the following is true about outside collaborators in a GitHub organization?

- A. They have access to all private repositories by default.
- **B. They are granted explicit access to specific repositories.**
- C. They appear in the organization's internal member list.
- D. They inherit organization-wide policies, such as SSO requirements.

Answer: B

Explanation:

Outside collaborators aren't organization members; instead, they're granted explicit access - at read, write, or admin level - to only the repositories you choose.

NEW QUESTION # 51

When comparing Group SCIM to Team Sync for identity management in GitHub Enterprise, which statement is Correct?

- A. Team Sync supports more identity providers than Group SCIM.
- B. Group SCIM requires less initial configuration than Team Sync.
- **C. Group SCIM enables centralized user and group management through the IdP.**
- D. Team Sync provides more automated user deprovisioning than Group SCIM.

Answer: C

Explanation:

GroupSCIM lets you manage both user accounts and group memberships centrally in your identity provider - automatically provisioning, updating, and deprovisioning users and groups in GitHub - whereas TeamSync only mirrors IdP group membership into existing GitHub teams.

NEW QUESTION # 52

Which of the following is a benefit of creating a new GitHub organization?

- A. Simplified collaboration across all organizations.
- B. Reduced administrative overhead.
- C. Automatic inheritance of policies from other organizations.
- **D. Clear separation of reggs, projects, teams, billing, and organization-specific policies.**

Answer: D

Explanation:

Creating a new organization gives you a dedicated container for your shared work, letting you isolate repositories, projects, teams, billing settings, and policy configurations on an organization-by-organization basis.

NEW QUESTION # 53

.....

These GitHub Administration (GH-100) certification exam's benefits assist the GH-100 exam dumps to achieve their career objectives.
