## SC-100 Latest Exam Forum - Downloadable SC-100 PDF

If you want to pass exam and get the related certification in the shortest time, the SC-100 study practice dump from our company will be your best choice. Although there are a lot of same study materials in the market, we still can confidently tell you that our SC-100 exam questions are most excellent in all aspects. With our experts and professors' hard work and persistent efforts, the SC-100 Prep Guide from our company have won the customers' strong support in the past years. A growing number of people start to choose our SC-100 study materials as their first study tool. It is obvious that the sales volume of our study materials is increasing every year.

## Microsoft Cybersecurity Architect Sample Questions (Q42-Q47):

### NEW QUESTION # 42

You have an Azure subscription that contains several storage accounts. The storage accounts are accessed by legacy applications

that are authenticated by using access keys.

You need to recommend a solution to prevent new applications from obtaining the access keys of the storage accounts. The solution must minimize the impact on the legacy applications.

What should you include in the recommendation?

- A. Apply read-only locks on the storage accounts.
- B. Set the AllowSharedKeyAccess property to false.
- C. Set the AllowBlobPublicAccess property to false.
- D. Configure automated key rotation.

**Answer: A**

Explanation:

Explanation

<https://docs.microsoft.com/en-us/azure/azure-resource-manager/management/lock-resources>

### NEW QUESTION # 43

You are designing an auditing solution for Azure landing zones that will contain the following components:

- \* SQL audit logs for Azure SQL databases
- \* Windows Security logs from Azure virtual machines
- \* Azure App Service audit logs from App Service web apps

You need to recommend a centralized logging solution for the landing zones. The solution must meet the following requirements:

- \* Log all privileged access.
- \* Retain logs for at least 365 days.
- \* Minimize costs.

What should you include in the recommendation? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

### NEW QUESTION # 44

You have a customer that has a Microsoft 365 subscription and an Azure subscription.

The customer has devices that run either Windows, iOS, Android, or macOS. The Windows devices are deployed on-premises and in Azure.

You need to design a security solution to assess whether all the devices meet the customer's compliance rules.

What should you include in the solution?

- A. Microsoft Sentinel
- B. Microsoft Defender for Endpoint
- C. Microsoft Intune
- D. Microsoft Information Protection

**Answer: C**

Explanation:

### NEW QUESTION # 45

Hotspot Question

For a Microsoft cloud environment, you are designing a security architecture based on the Microsoft Cybersecurity Reference Architectures (MCRA).

You need to protect against the following external threats of an attack chain:

- An attacker attempts to exfiltrate data to external websites.
- An attacker attempts lateral movement across domain-joined computers.

What should you include in the recommendation for each threat? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

Employees may be using an unapproved cloud application for storing sensitive corporate data or downloading a vast number of sensitive files for exfiltration. These actions can be prevented by Microsoft Defender for Cloud Apps.
