Salesforce Slack-Admn-201学習指導 & Slack-Admn-201模擬練習

IT業種が新しい業種で、経済発展を促進するチェーンですから、極めて重要な存在だということを良く知っています。GoShikenのSalesforceのSlack-Admn-201試験トレーニング資料は高度に認証されたIT領域の専門家の経験と創造を含んでいるものです。その権威性は言うまでもありません。あなたはGoShikenの学習教材を購入した後、私たちは一年間で無料更新サービスを提供することができます。

Salesforce Certified Slack Administrator 認定 Slack-Admn-201 試験問題 (Q56-Q61):

質問 # 56

You're an Org Admin at a security-conscious financial services company. You're rolling out Enterprise Mobility Management (EMM) across the organization.

Leadership asks if it is possible to require guests to use the Slack for EMM app.

How should you respond to this request?

(Select the best answer.)

- A. Guests can be required to use the Slack for EMM app.
- B. Guests can only login through the desktop app to access your workspaces.
- C. Guests are required to use the Slack for EMM app by default.
- **D. It's not possible to require guests to use the Slack for EMM app.**

正解: D

解説:

Slack's documentation on EMM policies specifies:

"Enterprise Mobility Management (EMM) requirements apply only to full members of your Slack organization. Guest accounts (Single-Channel or Multi-Channel Guests) are not required to use the Slack for EMM app." Thus, guests are exempt from EMM enforcement. Options B and C incorrectly state guests can be controlled via EMM. D is unrelated.

(Reference: Slack Administration Study Guide - EMM and Guest Account Behavior)

質問 # 57

What is true when public file sharing is enabled?

- A. In a public channel, only admins can create an external link for a file.
- B. File upload permissions to Slack Connect channels can't be restricted.
- C. Integrated data loss prevention (DLP) solutions can monitor files in private channels and direct messages (DMs).
- **D. Your organization's file sharing settings will apply to all files uploaded to a Slack Connect channel by any of the up to 250 organizations that have joined the channel.**

正解: D

解説:

Slack documentation states:

"When public file sharing is enabled, file sharing settings apply to files uploaded by any organization participating in a Slack Connect channel." DLP monitoring (A) is separate and applies differently. File upload permissions (C) can be restricted through Slack Connect settings. Any user, not just admins (D), can create external file links if allowed.

質問 # 58

A 5,000-employee company with multiple international offices is planning to launch Slack to its entire organization. Their goal is to increase collaboration and build a stronger company culture. The CIO is hesitant to allow members to upload custom emoji to Slack, but she doesn't want to burden her Workspace Admin team with requests for custom emoji uploads.

Which solution addresses the CIO's concerns?

- A. Prior to launch, pre-load a set of custom emoji voted on by a council of leaders, and do not allow anyone to request custom emoji uploads.
- B. Restrict custom emoji uploads to Workspace Owners and Admins, and do not allow anyone to request custom emoji uploads.
- **C. Allow all members access to upload custom emoji, but communicate and document the appropriate emoji use and uploads.**
- D. Do not allow any custom emoji creation to minimize the risk of members uploading inappropriate imagery.

正解: C

解説:

To balance security, culture building, and minimize admin burden, the best practice is to allow members to upload emojis with clear guidelines.

Slack documentation recommends:

"Allowing users to upload custom emoji fosters creativity and engagement. Setting clear policies and communicating acceptable use ensures that the benefits are realized while minimizing the risk." Restricting uploads entirely or centralizing all requests would hinder the cultural goal of promoting collaboration.

質問 # 59

You're a Slack Org Owner at Acme Inc. Several employees report that public channels are difficult to search and find. This results in channel sprawl or duplicative channels being created by employees. The Slack experience is now noisy and confusing. You need a solution to address this while still enabling members to create channels quickly.

What should you do?

(Select the best answer.)

- **A. Create and communicate a channel naming and creation policy that includes channel structure and naming convention for your organization.**
- B. Post a list of global org-wide public channels in your Slack announcement channels to create awareness amongst employees.
- C. Pin your organization's Slack Etiquette Guide to the org-wide Slack tips and tricks channel.
- D. Create a process to request public channel creation through Slack admins.

正解: A

解説:

Slack recommends setting and communicating a strong channel naming and creation policy to improve discoverability and reduce confusion.

According to Slack best practices for channel management:

"A consistent channel naming convention helps employees find information more easily and prevents the creation of duplicative channels. A documented and communicated policy ensures that channel creators follow structure guidelines without needing admin intervention." Pinning guides (A) and posting lists (B) are helpful for awareness but do not solve the underlying structural issues.

Requiring admins for every new channel (C) is too restrictive and counter to Slack's flexibility model.

質問 # 60

As an Org Admin at a healthcare company, you've been tasked with simplifying the experience for getting an upcoming communications project Slack-ready. A team of your organization's employees will work with a dozen rotating consultants at a communications agency to manage several communications campaigns over the next 6 to 8 months.

You'll manage this external collaboration using guests or Slack Connect.

What is the best method for managing this collaboration?

- A. Provide the communications agency with guest accounts so that you can block file uploads/downloads for this work.
- **B. Use Slack Connect to allow each organization to manage privacy settings, oversee channel naming, and add their own team members as project needs shift.**
- C. Provide the communications agency with guest accounts so that they can invite additional external users to the channels as needed.
- D. Use Slack Connect in order to automatically sunset the external access to the shared Slack channels after the 8 months is completed.

正解: B

解説:

Slack recommends using Slack Connect for secure, flexible external collaboration:

"Slack Connect enables organizations to manage their own members, privacy settings, and security policies while sharing channels with external partners." Using guest accounts (B, D) would require you to manage all external users yourself, which is burdensome and inflexible. Option C incorrectly implies that Slack Connect automatically sunsets access - expiration must be manually managed.
