## PECB Certified ISO 45001 Lead Auditor Exam Sample Questions (Q50-Q55):

### NEW QUESTION # 50

Which two of the following are 'criteria' in relation to a first-party audit?

- A. Members of the audit team
- B. Workers complaints"
- C. Duration of the audit
- D. Opportunities for improvement
- E. Emergency plans
- F. Management policy

**Answer: E,F**

### NEW QUESTION # 51

You are in the closing meeting of a second-party audit to ISO 45001. Which three of the following topics are most likely to come for discussion?

- A. Whether the work instructions for a specify auditee OH&S process are focused on efficiency.
- B. The names and email address of a attendees at the closing meeting. The question of who should chair the closing meeting.
- C. Whether the audit has correctly performed in current contracts with other customers.
- D. nature of the trading relationship that currently exists between the auditee's and auditor's organisations.
- E. The extent to which the auditee Is conforming to the requirements set out in ISO 45001.
- F. The extent to which the auditee is conforming to the OH&S requirements contained in supply contracts with the auditing organisation.
- G. The extent of the auditee's documented information system

**Answer: D,E,F**

Explanation:

The closing meeting of a second-party audit focuses on the findings, conformance to agreed requirements, and areas for improvement. ISO 19011:2018 provides guidance on closing meetings, stating that the results of the audit, including conformity with criteria, must be reviewed and agreed upon.

Analysis of Options:

- \* A. The names and email addresses of attendees at the closing meeting:Irrelevant. Attendance details are not part of the audit discussion.
- \* B. The extent of the auditee's documented information system:While relevant during the audit, it is not typically a focus in the closing meeting.
- \* C. The extent to which the auditee is conforming to OH&S requirements in supply contracts:Correct. Second-party audits often assess compliance with contractual requirements.
- \* D. The extent to which the auditee conforms to ISO 45001 requirements:Correct. The core purpose of the audit is to evaluate conformity to ISO 45001.
- \* E. The nature of the trading relationship between the organizations:Correct. The trading relationship often shapes the scope and context of second-party audits.
- \* F. Whether the audit has correctly performed in current contracts with other customers:Irrelevant. The focus is on the specific audit, not contracts with other customers.

\* G. Whether the work instructions for a specific OH&S process are focused on efficiency.

Irrelevant. Efficiency is not the primary focus of an OH&S audit.

ISO References:

\* ISO 19011:2018, Clause 6.6.1: Conducting the closing meeting.

\* ISO 45001:2018, Clause 9.2: Internal audit requirements.

### NEW QUESTION # 52

Showitoff is an organization specialization in the design and production of wall decorating materials for the domestic market.

During an ISO 45001 certification audit of the site, the auditor comes across an open, walled area just outside the maintenance department. It contains various scraps of wood and metal as well as several rusty components. Several heavy concrete beams are leaning against a thin brick wall in which cracks are available. When asked about it, the OHS Manager states that he presumes that the materials come from maintenance work, so it is the Maintenance Manager's responsibility.

The auditor interview the Maintenance Manager in his department. He asks about the area outside and is told that it contains some excess material that the Manager likes to keep in case they come in handy at some stage. The auditor points out that the wall appears to be unstable and could collapse at any moment. The Maintenance Manager is not aware of such a situation.

Wash-it-up is an organization that provides window cleaning services for the industrial sector. It has been certified to ISO 45001 for some time and has appointed a new OHS Manager. The auditor asks to see the most recent management review meeting minutes. Which three statement would represent input audit evidence for the management review?

- A. Procurement of new safety harnesses for workers
- B. Worker feedback of positive and negative comments
- C. Report showing the trend of an increase in safety incidents
- D. Decisions on Improvements in the OHSMS
- E. Proposal to prioritize health and safety issues as a business strategy
- F. Decisions related to continual Improvement opportunities
- G. Allocation of a bigger budget for the OHS department
- H. Updates to the risk register

**Answer: B,C,H**

Explanation:

Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Clause 9.3 of ISO 45001:2018 defines inputs for management review, which must include information on performance trends, feedback, risks, and opportunities for improvement.

Analysis of Options:

A . Allocation of a bigger budget for the OHS department:

This is an output of management review, not an input.

B . Decisions on improvements in the OHSMS:

This is an output, not an input.

C . Decisions related to continual improvement opportunities:

This is an output, not an input.

D . Procurement of new safety harnesses for workers:

This is an operational action, not an input for management review.

E . Proposal to prioritize health and safety issues as a business strategy:

Proposals may be discussed during review, but they are outputs.

F . Report showing the trend of an increase in safety incidents:

Correct. This is a valid input that informs system performance.

G . Updates to the risk register:

Correct. Risk updates are required inputs under Clause 6.1.2.

H . Worker feedback of positive and negative comments:

Correct. Feedback is an essential input per Clause 5.4 and Clause 9.3.

ISO Reference:

Clause 9.3: Management review inputs.

Clause 5.4: Worker consultation and participation.

### NEW QUESTION # 53

Wash-it-up is an organization that provides window cleaning services for the industrial sector. It has been certified to ISO 45001 for some time and has appointed a new OHS Manager. The audit plan during a surveillance audit includes the improvement actions and the auditor asks to see the most recent management review meeting minutes.

surveillance audit includes the Improvement actions and the auditor asks to see the most recent management review meeting minutes. Which six of the statements would represent output audit evidence for the management review?

- A. Allocation of a bigger budget for the OHS department
- B. Procurement of new safety harnesses for workers
- C. Plan to prioritize health and safety issues as a business strategy
- D. Improvements in the OHSMS
- E. Opportunities to integrate the OHS management system with other business processes
- F. Report showing the trend of an increase in safety incidents
- G. Worker feedback of positive and negative comments
- H. Updates to the risk register
- I. Minutes of previous management reviews
- J. Decisions related to continual improvement opportunities

**Answer: A,C,D,E,H,J**

Explanation:

Comprehensive Detailed Explanation along with All ISO 45001 Audit Reference Clause 9.3 of ISO 45001:2018 outlines the requirements for management reviews. These reviews must evaluate the performance of the OHSMS and identify opportunities for improvement. Outputs of management reviews typically include decisions and actions that align with strategic and operational priorities.

Analysis of Options:

A . Decisions related to continual improvement opportunities:

This is a valid output, as continual improvement is a key objective of management reviews under Clause 10.3.

B . Allocation of a bigger budget for the OHS department:

Resource allocation is a common output of management reviews to address identified needs.

C . Improvements in the OHSMS:

Improvements reflect the organization's commitment to enhancing safety performance.

D . Minutes of previous management reviews:

While minutes provide context, they are not an output of the current management review.

E . Opportunities to integrate the OHS management system with other business processes:

Integration opportunities are valid outputs, as they enhance the system's effectiveness.

F . Plan to prioritize health and safety issues as a business strategy:

Strategic alignment of health and safety with business objectives is an expected output.

G . Procurement of new safety harnesses for workers:

This is an operational action, not a direct output of the management review process.

H . Report showing the trend of an increase in safety incidents:

This is an input to the management review, not an output.

I . Updates to the risk register:

Risk register updates reflect changes in identified hazards and risks, making this a valid output.

J . Worker feedback of positive and negative comments:

Worker feedback is an input to the management review, not an output.

ISO Reference:

Clause 9.3: Management review inputs and outputs.

Clause 10.3: Continual improvement actions.

#### **NEW QUESTION # 54**

"ISO 45001:2018, in clauses 6.1.3 and 9.1.2, refers to "legal requirements and other requirements". From the list below, select two that are "other requirements".

Note: ILO stands for "International Labour Organisation"

NGO stands for "non-governmental organisation"

- A. Agreements between the organisation and workers
- B. Requirements from neighbours
- C. ILO initiatives the organisation subscribes to
- D. Requirements established by the government
- E. Instructions on product use by customers
- F. Opinions on legal compliance by a customer

**Answer: A,C**
