

# 2026 GICSP Quiz | The Best 100% Free Valid GICSP Test Topics

---

## **SANS GISCP Exam Questions with 100% Correct Answers | Verified | Latest Update**

### **Industrial Control System (ICS) - Correct Answer-**

A device or set of devices that manage commands directs or regulates the behaviour of other devices or system, bridges cyber to physical, a device that can influence the real world

### **Relays - Correct Answer-**

An electrically operated switch. Complicated to configure cumbersome and expensive

### **Pneumatics - Correct Answer-**

The technique of using gases for power transmission.

### **Control Loops - Correct Answer-**

calculating and controlling an environment or process based on feedback.

### **Proportional Integral Derivative (PID) - Correct Answer-**

a control loop feedback mechanism (controller) widely used in industrial control systems. Calculates an error value as the difference between a measured process variable and a desired setpoint.

Learning knowledge is not only to increase the knowledge reserve, but also to understand how to apply it, and to carry out the theories and principles that have been learned into the specific answer environment. The Global Industrial Cyber Security Professional (GICSP) exam dumps are designed efficiently and pointedly, so that users can check their learning effects in a timely manner after completing a section. Our GICSP test material is updating according to the precise of the real exam. Our Global Industrial Cyber Security Professional (GICSP) exam dumps will help you to conquer all difficulties you may encounter.

When you purchase GICSP exam dumps from TestkingPDF, you never fail GICSP exam ever again. We bring you the best GICSP exam preparation dumps which are already tested rigorously for their authenticity. Start downloading your desired GICSP Exam product without any second thoughts. Our GICSP products will make you pass in first attempt with highest scores. We accept the challenge to make you pass GICSP exam without seeing failure ever!

**>> GICSP Quiz <<**

## **Valid GICSP Test Topics - Practice GICSP Tests**

Our products are designed by a lot of experts and professors in different area, our GICSP exam questions can promise twenty to thirty hours for preparing for the exam. If you decide to buy our GICSP test guide, which means you just need to spend twenty to thirty hours before you take your exam. By our GICSP Exam Questions, you will spend less time on preparing for exam, which means you will have more spare time to do other thing. So do not hesitate and buy our Global Industrial Cyber Security Professional

(GICSP) guide torrent.

## GIAC Global Industrial Cyber Security Professional (GICSP) Sample Questions (Q53-Q58):

### NEW QUESTION # 53

Implementing VLANs can provide which of the following?

- A. Segmenting control device traffic from other network services
- B. Sandboxing ICS application memory from other system resources
- C. Stopping unauthorized access to ICS controller diagnostic ports
- D. Separation of duties for different guest OSes on a virtual host

**Answer: A**

Explanation:

VLANs (Virtual LANs) allow logical segmentation of a physical network, which can be used to separate control device traffic from other network services (A), improving security and performance.

Sandboxing (B) relates to application or OS memory isolation, not VLANs.

Separation of duties for guest OSes (C) is related to virtualization, not VLANs.

Preventing access to diagnostic ports (D) requires port security or access control, not VLAN segmentation alone.

GICSP highlights VLANs as a fundamental technique for network segmentation in ICS security architectures.

NIST SP 800-82 Rev 2, Section 5.5 (Network Segmentation)

GICSP Training on VLANs and Network Security Controls

### NEW QUESTION # 54

What kind of data could be found on a historian?

- A. Diagrams depicting an overview of the process
- B. Information for supervising lower-level controllers in real-time
- C. Runtime libraries that software programs use
- D. Information needed for billing customers

**Answer: D**

Explanation:

An industrial historian is a specialized database system designed to collect, store, and retrieve time-series data from industrial control systems. It primarily stores process data, event logs, and measurements over time, which are essential for trend analysis, reporting, and regulatory compliance.

Historian data is often used for billing purposes (A), especially in utilities and process industries, where consumption data is recorded and later used to generate customer bills.

Option (B), real-time supervision of lower-level controllers, is typically handled by SCADA or control system software, not the historian itself.

(C) Diagrams are stored in engineering tools or documentation repositories, not historians.

(D) Runtime libraries are software components and not stored on historians.

The GICSP curriculum clarifies that historians are central to operational analytics and long-term data storage but are not real-time control systems themselves.

NIST SP 800-82 Rev 2, Section 6.3 (Data Historians and Data Acquisition) GICSP Training Materials on ICS Data Management

### NEW QUESTION # 55

Which type of device is the following configuration setting from?

deny modbus function write-multiple-holdingregisters

- A. NIDS

- B. SIEM
- **C. Application firewall**
- D. Network firewall

**Answer: C**

Explanation:

The configuration line denies a specific Modbus function code, which is a command-level filter for industrial protocols. This type of control is typical of an application firewall (D) designed to understand and filter industrial control system protocols at the application layer.

A network firewall (A) typically filters traffic based on IP addresses, ports, and protocols, but not protocol function codes.

NIDS (B) detects and alerts on suspicious traffic but does not usually enforce blocking rules.

SIEM (C) collects and analyzes logs, not real-time blocking.

GICSP emphasizes the role of application-layer firewalls in protecting ICS protocols like Modbus.

Reference:

**NEW QUESTION # 56**

During a plant upgrade an architect needs to connect legacy IEDs to a new TCP/IP instrumentation LAN. The IEDs only have RS-232 communication interfaces available. What would best be used to connect the IEDs?

- **A. Communications Gateway**
- B. Data diode
- C. Industrial switch
- D. Engineering workstation

**Answer: A**

Explanation:

Legacy devices using RS-232 interfaces require a communications gateway (C) to translate between the serial communication protocol and the new TCP/IP network.

A data diode (A) is a unidirectional security device, not a protocol translator.

An engineering workstation (B) is a computer, not a protocol conversion device.

An industrial switch (D) operates at the Ethernet layer and does not perform protocol conversion.

GICSP emphasizes gateways as essential for integrating legacy ICS devices into modern IP networks while maintaining protocol integrity.

Reference:

**NEW QUESTION # 57**

Which resource includes a standardized categorization of common software vulnerabilities?

- A. CVSS
- B. CSC
- C. CIP
- **D. CWE**

**Answer: D**

Explanation:

The Common Weakness Enumeration (CWE) (A) is a comprehensive list and taxonomy of common software weaknesses and vulnerabilities. It provides standardized names and definitions that help organizations identify and mitigate software security issues.

CVSS (B) is a scoring system used to rate the severity of vulnerabilities but does not categorize them.

CSC (C) refers to Critical Security Controls, a set of best practices, not a vulnerability catalog.

CIP (D) relates to Critical Infrastructure Protection standards, not vulnerability taxonomy.

GICSP includes CWE as an essential resource for understanding and classifying software vulnerabilities within ICS.

## NEW QUESTION # 58

.....

After our practice materials were released ten years ago, they have been popular since then and never lose the position of number one in this area. Our GICSP practice quiz has authority as the most professional exam material unlike some short-lived GICSP Exam Materials. Targeting exam candidates of the exam, we have helped over tens of thousands of exam candidates achieved success now. So you can be successful by make up your mind of our GICSP training guide.

**Valid GICSP Test Topics:** <https://www.testkingpdf.com/GICSP-testking-pdf-torrent.html>

**GIAC GICSP Quiz** We can promise all learners "No Pass, No Pay" "Once fail, Full Refund", If you want to spend less time and money on the GICSP exam certification, you should need some useful and valid GICSP updated passleader pdf for your preparation, If you are one of them, our GICSP exam guide will effectively give you a leg up, Come to fight for your bright future and buy our GICSP practice braindumps right now!

Practice these concepts until pipes and redirection are GICSP a reflex, What Motivates People, We can promise all learners "No Pass, No Pay" "Once fail, Full Refund", If you want to spend less time and money on the GICSP Exam Certification, you should need some useful and valid GICSP updated passleader pdf for your preparation.

## Free PDF Quiz Pass-Sure GICSP - Global Industrial Cyber Security Professional (GICSP) Quiz

If you are one of them, our GICSP exam guide will effectively give you a leg up, Come to fight for your bright future and buy our GICSP practice braindumps right now!

And we have three versions of GICSP training guide: the PDF, Software and APP online for you.
