Free PDF 2026 Esri Latest EAPA_2025: ArcGIS Pro Associate 2025 New Practice Questions

ESRI Certification: ArcGIS Pro Associate 2101 Exam 2 Newest 2025
~~Complete 110 Actual Exam Questions with 100% Correct Verified~~
Answers/ Graded A+

1. A spatial analyst has created a pro- A. Layouts
   ject in ArcGIS Pro. Which two items C. Maps
   can be stored in the project to use
   when needed?
   A. Layouts
   B. Script
   C. Maps
   D. Data Frames

2. Which element of the ArcGIS Pro A. Contents Pane
   user interface displays the contents
   of the active view?
   A. Contents Pane
   B. Catalog Pane
   C. View
   D. Ribbon

3. Which two statements best describe B. Use Artificial Intelligence to recog-
   ArcGIS Pro capabilities? nize complex patterns.
   A. Perform link analysis to highlight D. Create 2D and 3D maps to visu-
   connections in the data. alize data.
   B. Use Artificial Intelligence to rec-
   ognize complex patterns.
   C. View a dashboard that allows you
   to monitor data in real-time.
   D. Create 2D and 3D maps to visual-
   ize data.

4. Which statement best describes how A. Right-click the layer in the con-
   to share a web layer in ArcGIS Pro? tents pane.
   A. Right-click the layer in the Con-
   tents pane.
   B. Export the layer as a file on disk.
   C. Use the Publishing tab to share a
   layer.
   D. Save the layer as a layer package.

5. Which option would be the best B. In the Contents pane, right-click
   choice to view all the features of a the layer and choose Zoom To Layer.

The aim of Esri EAPA_2025 test torrent is to help you optimize your IT technology and get the EAPA_2025 certification by offerring the high quality and best accuracy EAPA_2025 study material. If you want to pass your EAPA_2025 Actual Exam with high score, PassCollection EAPA_2025 latest exam cram is the best choice for you. The high hit rate of EAPA_2025 test practice will help you pass and give you surprise.

If you are a workman and you want to pass EAPA_2025 exam quickly, PassCollection will be your best choice. EAPA_2025 dumps and answers from our PassCollection site are all created by the IT talents with more than 10-year experience in IT certification. It can not only save your time, but also help you pass the EAPA_2025 Exam easily.

Start Preparation With Actual Esri EAPA_2025 Practice Test

Before making a final purchase decision, customers of PassCollection can download a free demo to test the validity of the ArcGIS Pro Associate 2025 (EAPA_2025) exam questions we offer. If the EAPA_2025 certification test's topics change after you have purchased our EAPA_2025 Dumps, we will provide you with free updates for up to 365 days. We guarantee the authenticity of our

test questions and pledge to help you prepare for Esri EAPA_2025 exam quickly and cost-effectively.

Esri EAPA_2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Compliance, Research, and Resources: This section of the exam measures the skills of Payroll Compliance Officers and covers the legal and regulatory framework governing payroll processes. It includes escheatment, legislative updates, and regulatory reporting requirements, along with proper record retention and penalty management. Candidates are also expected to understand multi-state taxation, reciprocity rules, and global payroll considerations while efficiently researching and applying compliance resources.
Topic 2	• Payroll Administration and Management: This section of the exam measures skills of Payroll Managers and covers administrative oversight and leadership within payroll departments. It includes establishing and enforcing payroll policies, developing management practices, and ensuring effective communication and customer service. Candidates are also evaluated on their ability to manage staffing, promote employee development, and maintain essential core competencies within payroll teams.
Topic 3	• Accounting: This section of the exam measures skills of Payroll Accountants and covers the financial principles tied to payroll reporting. It includes the preparation of payroll journal entries, application of accounting principles, and accurate financial reporting of payroll expenses. Candidates must ensure the integrity of payroll data within the organization's accounting systems and support financial audits through proper reconciliation and documentation.

Esri ArcGIS Pro Associate 2025 Sample Questions (Q24-Q29):

NEW QUESTION # 24
Where can geographic transformations be set when projecting on-the-fly?

- A. Layer Properties
- B. Map Properties
- C. Project Options

Answer: B

Explanation:
In ArcGIS Pro, geographic (datum) transformations for on-the-fly projection are managed at the map level.
This ensures that all layers added to the map are projected correctly into the map's coordinate system, applying the appropriate transformation as needed.
* Layer Properties (Option A) displays information for the specific layer but does not set map-level transformations.
* Project Options (Option B) relates to overall software settings, not coordinate system transformations.
* Map Properties (Option C) contains the Coordinate Systems tab where transformations can be set.
Therefore, the correct answer is C.
-

NEW QUESTION # 25
A land surveyor downloads an Excel sheet from the city website that contains the updated land cover codes with over 30 classes. Which tool will help the surveyor update their existing land cover data to the new codes?

- A. Classify Raster
- B. Reclassify Field
- C. Reclass By Table

Answer: C

Explanation:
The Reclass By Table tool allows the surveyor to import a lookup table (such as an Excel sheet) that contains the old and new land cover codes. This is the most efficient method for batch reclassification when many classes are involved.

* Classify Raster (Option A) is used for unsupervised or supervised classification.
* Reclassify Field (Option C) is not a valid ArcGIS Pro tool for raster data reclassification.
Therefore, the correct answer is B.

NEW QUESTION # 26
A cartographer is creating a 3D scene of campgrounds in a national park. The facilities on the campground have been symbolized using simple 2D point symbols. The cartographer needs to apply a realistic 3D symbology to the facilities features without using a rule package.
Which action should the cartographer take to symbolize the campground facilities?

- A. Change the symbology to a picture fill
- B. Apply a procedural marker symbology
- C. Use a 3D model marker symbology

Answer: C

Explanation:
3D model marker symbology allows you to directly assign realistic 3D models (like campgrounds, facilities, buildings) to point features in a 3D scene without requiring a rule package. This makes it the most efficient and visually accurate option for realistic 3D representation.
* Procedural marker symbology (Option A) requires rule packages.
* Picture fill (Option B) applies to polygon fills, not 3D point feature symbology.
Therefore, the correct answer is C.
-

NEW QUESTION # 27
A GIS analyst is reviewing the work of an intern and realizes that the intern added feature attribute information directly to the attribute table. Many of the features have no geometry and do not display on the map. The analyst uses Check Geometry to identify all features with null geometries.
Which method should the analyst use to allow adding the geometry to existing features so that they can be visualized in the map?

- A. Analysis > Tools (Geoprocessing) > Data Management > Features > Repair Geometry
- B. Edit > Modify (Modify Features) > Reshape > Replace Geometry
- C. Analysis > Tools (Geoprocessing) > Data Management > Features > Add Geometry Attributes

Answer: B

Explanation:
The Replace Geometry tool, accessed via Modify Features in the Edit tab, allows the user to assign or redraw geometry for existing features that are missing it (null shape). This allows previously non-spatial records to be given a spatial location, enabling visualization on the map.
* Repair Geometry is used to fix corrupt geometry but does not create new geometry for null shapes.
* Add Geometry Attributes calculates existing geometry fields but cannot generate geometry for empty features.
* Replace Geometry directly enables assigning missing shapes.
Therefore, the correct answer is B.

NEW QUESTION # 28
A GIS analyst has over 100 rasters of the same resolution and dimension. The analyst needs to combine all rasters into one raster so that it is easier to share with other analysts who need to perform analysis on the raster (s).
What should the analyst do?

- A. Create a mosaic dataset and share it on a thumb drive
- B. Publish the rasters as a tile layer and share the link to the layer
- C. Use the Mosaic To New Raster geoprocessing tool and share

Answer: C

Explanation:

The Mosaic To New Raster tool merges multiple input raster datasets into a single raster dataset in a file- based format. This approach simplifies sharing and analysis because the result is a single raster file rather than a collection of rasters. Since all rasters have the same resolution and dimension, this tool is the most efficient solution for permanent combination.
* Mosaic Datasets (Option A) are great for managing large raster collections but remain as collections, not single files.
* Publishing tile layers (Option C) is primarily for web sharing, not file-based sharing or analysis.
Therefore, the correct answer is B.

NEW QUESTION # 29
......

If you are determined to get the certification, our EAPA_2025 question torrent is willing to give you a hand; because the study materials from our company will be the best study tool for you to get the certification. Now I am going to introduce our EAPA_2025 Exam Question to you in detail, please read our introduction carefully, we can make sure that you will benefit a lot from it. If you are interest in it, you can buy it right now.
