Dumps C-BCBTM-2509 Reviews - Trusted C-BCBTM-2509 Exam Resource

We have three versions packages of the C-BCBTM-2509 exam questions to help you comprehensively. Also, all contents are carefully prepared by our researchers. So you needn't to read and memorize the boring reference books of the C-BCBTM-2509 Exam. Most people have successfully passed the exam under the assistance of our study materials. So try to trust us. Our C-BCBTM-2509 study materials will help you generate a wonderful life.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q31-Q36):

NEW QUESTION # 31

What are the key functional categories of WalkMe's capabilities in the new pricing model?

- A. Content Creation, Deployment, Analytics & Insights
- **B. Data & Analytics, Action & Experience, Platform & Admin**
- C. Workflow Automation, User Engagement, Security & Privacy
- D. Digital Adoption, Process Optimization, Compliance Management

Answer: B

Explanation:

In WalkMe's new pricing and capability model, its platform capabilities are structured into three primary functional categories: Data & Analytics, Action & Experience, and Platform & Admin.

These categories align with WalkMe's enterprise focus on digital adoption, measurement, and governance.

"WalkMe's new pricing model organizes core capabilities into Data & Analytics, Action & Experience, and Platform & Admin, ensuring clarity, scalability, and measurable outcomes for enterprise customers." Reference:

Data & Analytics provide insights into user behavior and adoption.

Action & Experience focuses on guidance, automation, and in-app user experiences.

Platform & Admin manages security, governance, and deployment administration.

"These capability pillars ensure organizations can measure adoption, act to improve user journeys, and govern platform usage effectively." Incorrect Options:

A: Content creation and deployment are part of "Action & Experience," but not the complete categorization.

C & D: These describe solution outcomes, not the functional capability categories.

Verified Correct answer: B: Data & Analytics, Action & Experience, Platform & Admin.

NEW QUESTION # 32

What benefit does the combined WalkMe-SAP solution offer to enterprises?

- A. Lower software maintenance costs
- **B. Increased hiring efficiency**

- C. Enhanced physical supply chain management
- **D. Streamlined user adoption and seamless process integration**

Answer: D

Explanation:

The partnership between SAP and WalkMe integrates WalkMe's Digital Adoption Platform (DAP) directly into SAP applications (such as SAP S/4HANA, SAP SuccessFactors, and SAP Ariba) to improve user engagement and digital process execution.

"The combined SAP-WalkMe solution helps organizations streamline user adoption and simplify process integration, ensuring users can easily navigate SAP systems and execute digital workflows correctly." Reference:

This integration provides contextual, real-time assistance to users within SAP interfaces, enabling faster onboarding, fewer errors, and improved productivity - all critical for successful transformation under the SAP Business Transformation Management (BTM) framework.

"WalkMe for SAP reduces complexity by guiding users in real time, supporting end-to-end process integration, and driving adoption across the SAP ecosystem." Incorrect Options:

A: Lower maintenance costs are a secondary effect, not the core benefit.

B: WalkMe is not a hiring solution.

D: It does not manage supply chains directly.

Verified Correct answer: C: Streamlined user adoption and seamless process integration.

NEW QUESTION # 33

How can BTM Solutions help organizations manage their business transformation?

- A. They are important because they provide direct support for human resource management and payroll processing.
- **B. They help businesses better understand and optimize their processes and IT infrastructure, while assisting the end user coping with digital change.**
- C. They are crucial because they exclusively focus on enhancing a company's social media presence and marketing campaigns.
- D. They are revolutionary tools to support financial controlling and reporting.

Answer: B

Explanation:

SAP Business Transformation Management (BTM) Solutions combine tools like SAP Signavio, SAP LeanIX, and WalkMe to give enterprises complete visibility and control over both business and IT transformation efforts.

"SAP BTM solutions enable companies to understand and optimize their processes and IT landscapes, while supporting users through change and adoption." Reference:

Process Optimization & IT Alignment:

SAP Signavio provides process mining and analytics, SAP LeanIX maps IT architecture, and WalkMe ensures user adoption.

Together, they deliver an integrated framework for sustainable transformation.

"By integrating business process management, enterprise architecture, and user enablement, SAP BTM helps organizations manage complexity and digital adoption simultaneously." User Adoption and Change Management:

WalkMe, a core BTM component, assists employees in adapting to new systems, minimizing disruption during digital transitions.

"BTM solutions assist end users in coping with digital change by delivering in-application guidance and real-time support." Incorrect Options:

A: Financial controlling is an ERP capability, not a BTM function.

B: Marketing is unrelated to BTM's transformation scope.

C: HR and payroll are managed in SAP SuccessFactors, not BTM.

Verified Correct answer: D: They help businesses better understand and optimize their processes and

NEW QUESTION # 34

What is the SAP Signavio Process Manager?

- A. A software for managing customer relationships and sales pipelines.
- B. A tool for automating financial transactions in ERP systems.
- **C. A cloud-based tool for designing, modeling, and improving business processes.**
- D. An analytics solution for process mining and data analysis.

Answer: C

Explanation:

SAP describes SAP Signavio Process Manager as a collaborative, browser-based BPM tool focused on process design and improvement:

"SAP Signavio Process Manager is a cloud-based solution to model, document, and optimize business processes collaboratively using BPMN 2.0." Reference:

Option B confuses it with a different product in the same portfolio. SAP states that process mining sits in SAP Signavio Process Intelligence (not Process Manager):

"SAP Signavio Process Intelligence is the process mining and analytics solution of the SAP Signavio portfolio." Option C refers to ERP transaction automation, which is not the scope of Process Manager. SAP positions Process Manager for process modeling and documentation, not transaction execution/automation:

"Use SAP Signavio Process Manager to design and document processes and drive process improvement; execution of transactions is handled by operational systems (e.g., ERP)." Option D is about CRM. SAP clarifies that CRM and sales pipeline management are covered by customer experience/CRM solutions, not by Process Manager:

"Process Manager provides process modeling and governance, not CRM pipeline management."

NEW QUESTION # 35

Which key solution of SAP Signavio helps in collaborative process mining?

- A. SAP Signavio Process Intelligence
- B. SAP Signavio Process Manager
- C. SAP Signavio Process Collaboration Hub
- D. SAP Signavio Value Accelerator

Answer: A

Explanation:

SAP Signavio Process Intelligence is the dedicated process mining and analysis component of the SAP Signavio Business Transformation Suite. It enables organizations to discover, analyze, and improve business processes collaboratively using real data.

"SAP Signavio Process Intelligence connects to system data, reconstructs end-to-end processes, and enables collaborative process mining and analysis to uncover inefficiencies and improvement opportunities." Reference:

The term collaborative process mining refers to enabling multiple stakeholders to analyze, discuss, and align process improvements based on shared process insights - a feature central to Process Intelligence.

"Process Intelligence integrates with the Process Collaboration Hub to allow joint analysis and process improvement discussions."

Option A (Collaboration Hub) is a supporting platform for sharing process models and insights, but it does not perform mining itself.

Option C (Process Manager) focuses on process modeling and design, not mining.

Option D (Value Accelerator) refers to predefined process frameworks and KPIs used for benchmarking, not mining.

Therefore, the correct and verified answer based on SAP's BTM documentation and the official Signavio solution portfolio is B: SAP Signavio Process Intelligence.

NEW QUESTION # 36

.....

There are three different versions for all customers to choose. The three different versions include the PDF version, the software version and the online version, they can help customers solve any questions and meet their all needs. Although the three different versions of our C-BCBTM-2509 study materials provide the same demo for all customers, they also have its particular functions to meet different the unique needs from all customers. The most important function of the online version of our C-BCBTM-2509 Study Materials is the practicality. The online version is open to any electronic equipment, at the same time, the online version of our C-BCBTM-2509 study materials can also be used in an offline state.
