Our company tried its best to recruit the famous industry experts domestically and dedicated excellent personnel to compile the C_WME_2506 Study Materials and serve for our clients wholeheartedly. Our company sets up the service tenet that customers are our gods and the strict standards for the quality of our C_WME_2506 study materials and the employee's working abilities and attitudes toward work.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q28-Q33):

NEW QUESTION # 28

You are building a WalkMe solution to help your users self-serve and prevent common support tickets from being opened repeatedly. You want to add guidance for the top three support tickets to a page on your website and make it stand out for the end user. What is the best solution to allow for quick and easy access?

- A. Create a large ShoutOut to appear in the middle of the page each time the user visits the page.
- B. Create a Mini Menu of content from the top three support tickets and place it next to the support ticket form.**
- C. Create a Survey to ask end users about their feedback.
- D. Add it to your list of WalkMe content in the Menu.

Answer: B

Explanation:

To address common support tickets and promote self-service, a Mini Menu placed next to the support ticket form is the best solution. A Mini Menu is a compact, context-sensitive menu that provides quick access to relevant content, such as Smart Walk-Thrus or Resources for the top three support issues. Positioning it near the form ensures it's highly visible and accessible when users are likely to need help, reducing ticket submissions by guiding users to solutions proactively.

The other options are less suitable:

- * A Survey(A) collects feedback but doesn't provide guidance to prevent tickets.
- * Adding to the WalkMe Menu(C) is less targeted, as users must navigate to find content.
- * A large ShoutOut(D) is disruptive if shown repeatedly and less effective for ongoing self-service.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.11: Mini Menus): "Mini Menus are ideal for delivering context-specific content, such as guidance for common issues, directly on a page. Place them near relevant elements, like a support form, to promote self-service and reduce support tickets." The course Advancing Your Skills in Building WalkMe Solutions states:

"To address frequent support tickets, create a Mini Menu with targeted content and position it near the point of need, such as a ticket form, for quick user access and effective self-service." Option B, a Mini Menu next to the support ticket form, is the best solution.

Course: Advancing Your Skills in Building WalkMe Solutions, Module 17: Promoting Self-Service Solutions.

NEW QUESTION # 29

When building SmartTips with multi-language support, which practice should you avoid to ensure compatibility?

- A. Using the Customize tab for SmartTip text
- **B. Using "Text Is" rules within the Rule Engine**
- C. Using language-independent element identifiers
- D. Adding inline CSS styles for language-specific elements

Answer: B

NEW QUESTION # 30

You just created a SmartTip that is attached to a button. This button is only displayed on a popup modal window that will show up or disappear depending on how the user interacts with the page. When you publish the SmartTip to your site and are testing it, you notice that the SmartTip does not appear at all when opening the popup modal window and the SmartTip is supposed to appear every time the window is opened.

What is the first configuration you should check to fix this issue?

- A. Element Behavior Setting - Appears After Page Load and Stays Visible
- **B. Element Behavior Setting - Appears and Disappears as Result of User Action**
- C. Lock to Element
- D. SmartTip Position

Answer: B

NEW QUESTION # 31

Which of the following options would be appropriate to create a Segment in the Segmentation center? Note: There are 3 correct answers to this question.

- A. Geographic location
- **B. User Role**
- C. Autoplay on 1 page
- **D. IP Address**
- **E. Department**

Answer: B,D,E

NEW QUESTION # 32

You have created a Smart Walk-Thru to guide users creating a new department on a site. Depending on which option users select from a dropdown at one step in the process, they may need to complete a few additional items before moving forward.

Which WalkMe feature could help address this alternate path in a Smart Walk-Thru?

- A. Wait For Condition
- B. Popup Step
- **C. Split**
- D. Start Point

Answer: C

NEW QUESTION # 33
