## Microsoft MS-721 Latest Braindumps Free | MS-721 Exam Material

PrepPDF Microsoft MS-721 exam materials contain the complete unrestricted dump. So with it you can easily pass the exam. PrepPDF Microsoft MS-721 exam training materials is a good guidance. It is the best training materials. You can use the questions and answers of PrepPDF Microsoft MS-721 Exam Training materials to pass the exam.

## Microsoft Collaboration Communications Systems Engineer Sample Questions (Q264-Q269):

### NEW QUESTION # 264

Hotspot Question

You have a Microsoft Teams Phone deployment.

You need to deploy a Teams device named Device1 that meets the following requirements:

- Autodials a preconfigured call queue when the phone handset is picked up
  - Displays the common area phone user interface
- Which license should you assign to Device1, and which feature should you enable for Device1?  
To answer, select the appropriate options in the answer area.  
NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:  
Answer Area

Explanation:

Box 1: Teams Shared Devices

Hotline phones (Private Line Automatic Ringdown)

Next quarter, you will be able to program Microsoft Teams certified phone devices to directly dial a pre-configured phone number or contact, such as emergency services in a manufacturing plant or help desk in your organization. The hotline can be set up directly through the device settings or the Teams admin center. The device will need to be enabled with a Teams Shared Device License and set to common area phone mode.

Box 2: Hotline

You'll be able to program Teams phone devices to autodial a pre-configured PSTN number or directory contact when the handset is picked up. You can configure a common area phone as a hotline phone by navigating to Settings > Device Settings > Calling > Hotline and specifying auto dial contact and display name.

### NEW QUESTION # 265

You have a Microsoft Teams Phone deployment.

You deploy a new network site.

You discover that the new site is not listed in location-based reports. Other sites appear in the reports.

You need to ensure that all the sites appear in the reports.

What should you do?

- A. From Network planner in the Microsoft Teams admin center, modify an existing network plan.
- B. From the Microsoft Call Quality Dashboard, select Tenant Data Upload and upload a CSV file that contains all the network sites.
- C. From the Microsoft Call Quality Dashboard, select Tenant Data Upload and upload a CSV file that contains the new network site only.
- D. From Network planner in the Microsoft Teams admin center, add a new persona.
- E. From Network planner in the Microsoft Teams admin center, add a new network plan.

**Answer: B**

## NEW QUESTION # 266

Case Study 2 - Contoso

Overview

General Overview

The network contains an Active Directory forest named contoso.com that syncs to Microsoft 365 by using Azure AD Connect. Domain controllers run Windows Server 2019.

Physical Locations

Contoso has offices in Toronto, New York, and London. Contoso has a manufacturing facility in Vancouver.

Contoso has a global sales team that works remotely without a physical corporate office.

Existing Environment

Active Directory Environment

The network contains an Active Directory forest named contoso.com that syncs to Microsoft 365 by using Azure AD Connect. Domain controllers run Windows Server 2019.

Microsoft Office 365

Contoso has a Microsoft 365 subscription. All users are assigned Microsoft 365 E3 licenses.

Contoso uses Microsoft Exchange Online for email.

Network Infrastructure

All the offices connect to each other by using a private WAN. The Toronto office has a 1-Gbps internet circuit and the London office has a 100-Mbps internet circuit. Internet access for all the offices is provided through the Toronto and London offices.

The remote sales team users connect to the networks by using VPN connections. The remote users use various connection types, including wireless and mobile.

Skype for Business Server traffic for the remote users is routed through the VPN connections.

Telephony

Contoso uses a centralized Skype for Business Server 2015 deployment configured for disaster recovery between the Toronto and London datacenters.

Each frontend pool connects to the PSTN through a pair of managed Session Border Controllers (SBCs) that provide Enterprise Voice and dial-in conferencing.

Contoso has a Skype for Business Server Survivable Branch Appliance (SBA) and a local SBC that connects to a Primary Rate Interface (PRI) in the Vancouver manufacturing facility.

Contoso has hybrid connectivity deployed between Skype for Business Server and Office 365.

All SBCs are Microsoft Teams-certified.

The returns department has an auto attendant that uses an ID or returns.aa@contoso.com.

Requirements

Planned Changes

Contoso plans to migrate all existing services from Skype for Business Server to Teams.

Direct Routing will be deployed for the existing SBCs.

Existing meeting rooms have Skype for Business Server video endpoints that are Skype for Business Server-certified. The endpoints are not Teams-certified.

You plan to use the video endpoints in Teams until the equipment is replaced with Microsoft Teams Rooms.

A limited pilot of the Teams migration and the Direct Routing deployment will occur in the Vancouver facility before deployment to the entire company.

Technical Requirements

Contoso identifies the following technical requirements:

During the limited pilot, the media path must be optimized.

Media flow for the remote sales team users must be optimized.

All sales team users require inbound toll-free audio conferencing.

Users in the Vancouver facility must be able to place emergency calls regardless of internet availability. When users in the returns department dial out, the outbound calls must display Contoso and the department's phone number. The video endpoints for the existing meeting rooms must be able to be used for both voice and video conferencing in Teams meetings.

Drag and Drop Question

You need to migrate a Vancouver facility user named jsmith from Skype for Business Server to Teams.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
<p>Run the following command.</p> <pre>Move-CsUser -Identity jsmith@contoso.com -Target sipfed.online.lync.com</pre>	
<p>Run the following command.</p> <pre>Grant-CsOnlineVoiceRoutingPolicy -identity jsmith@contoso.com -PolicyName Vancouver</pre>	
<p>Assign the Microsoft 365 Phone System license to jsmith.</p>	 Microsoft
<p>Run the following command.</p> <pre>Set-CsOnlineUser -EnableEnterpriseVoice \$true -identity jsmith@contoso.com</pre>	
<p>Assign the Microsoft 365 Audio Conferencing license to jsmith.</p>	

**Answer:**

Explanation:

## Actions

## Answer Area

Assign the Microsoft 365 Phone System license to jsmith.

Run the following command.

```
Move-CsUser -Identity  
jsmith@contoso.com -Target  
sipfed.online.lync.com
```

Run the following command.

```
Grant-CsOnlineVoiceRoutingPolicy  
-identity jsmith@contoso.com  
-PolicyName Vancouver
```

Run the following command.

```
Set-CsOnlineUser  
-EnableEnterpriseVoice $true  
-identity jsmith@contoso.com
```

Assign the Microsoft 365 Audio Conferencing license to jsmith.

### NEW QUESTION # 267

You have a Microsoft 365 E5 subscription that uses Microsoft Teams.

You plan to deploy phones to a shared common area.

You need to ensure that users can temporarily sign in to each phone and automatically sign out during inactivity.

How should you complete the PowerShell command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

```
New-CsCommonAreaPhone -Identity "SharedDevices" -AllowBetterTogether -AllowBetterTogether -AllowHomeScreen -AllowHotDesking -EnforcePhoneLock
```

Answer:

Explanation:

Explanation:

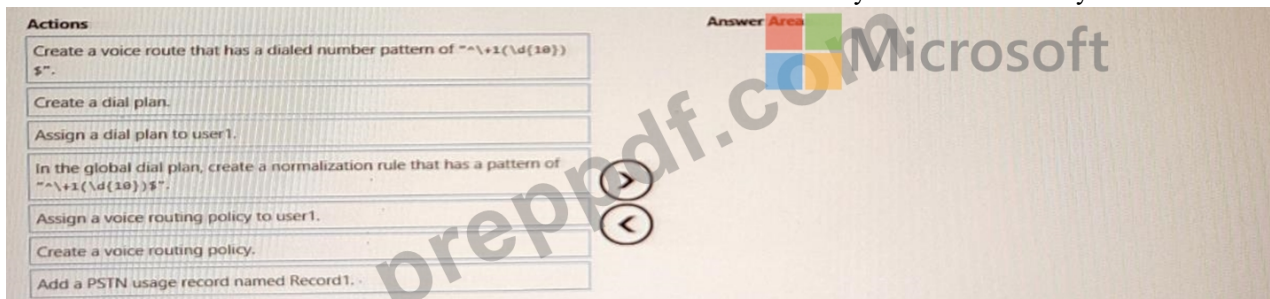

### NEW QUESTION # 268

You have a Microsoft Teams Phone deployment.

You need to configure voice routing for Direct Routing. The solution must only allow calling within the United States and Canada for a user named user1 contosoxom.

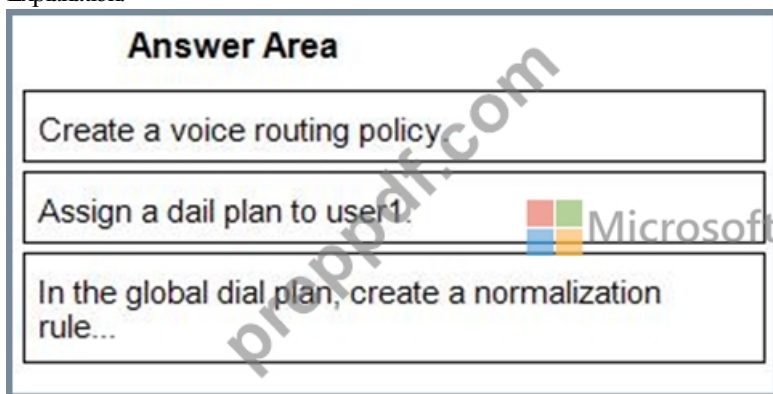

Which four actions should you perform in sequence to minimize user call disruption? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Answer:

Explanation:

- 1 - Create a voice routing policy.
- 2 - Assign a dial plan to user1.
- 3 - In the global dial plan, create a normalization rule...

### NEW QUESTION # 269

.....

You do not worry about that you get false information of MS-721 guide materials. According to personal preference and budget choice, choosing the right goods to join the shopping cart. The 3 formats of MS-721 study materials are PDF, Software/PC, and APP/Online. Each format has distinct strength and shortcomings. We have printable PDF format prepared by experts that you can study our MS-721 training engine anywhere and anytime as long as you have access to download. We also have installable software application which is equipped with MS-721 simulated real exam environment.
