Quiz 2026 Authoritative SAP C_TS410_2022 Valid Exam Topics

Many candidates find the SAP C_TS410_2022 exam preparation difficult. They often buy expensive study courses to start their SAP Certified Application Associate - Business Process Integration with SAP S/4HANA (C_TS410_2022) certification exam preparation. However, spending a huge amount on such resources is difficult for many SAP exam applicants. The latest SAP C_TS410_2022 Exam Dumps are the right option for you to prepare for the C_TS410_2022 certification test at home. PassTorrent has launched the C_TS410_2022 exam dumps with the collaboration of world-renowned professionals.

SAP Certified Application Associate - Business Process Integration with SAP S/4HANA Sample Questions (Q42-Q47):

NEW QUESTION # 42

Why would you enter your working hours using Cross-Application Time Sheet (CATS)? Note: There are 3 correct answers to this question

- A. To record overtime
- B. To maintain absence
- C. To plan time
- D. To confirm activities
- E. To request absence

Answer: A,C,D

Explanation:

Using the Cross-Application Time Sheet (CATS), you can enter working hours for recording overtime (A), confirming activities (C), and planning time (E). CATS is a flexible tool that integrates with various SAP modules, allowing for comprehensive time recording and management.

Reference = SAP Human Capital Management (HCM) and Project System (PS) documentation.

NEW QUESTION # 43

What demand elements are evaluated during a MRP run?

- A. Scheduled lines
- B. Purchase requisitions
- C. Sales orders
- D. Planned orders

Answer: C

Explanation:

During a Material Requirements Planning (MRP) run, Sales Orders (A) are evaluated as demand elements.

MRP considers sales orders to determine the required materials and quantities needed to meet customer demand, generating planned orders and purchase requisitions to cover the anticipated demand. References = SAP Production Planning (PP) and Material Management (MM) documentation.

NEW QUESTION # 44

What planning tool prioritizes sales order forecasting and strategically plans inventory buffers?

- A. Backorder processing (BOP)
- B. Constraint based planning (PP/DS)
- C. MRP simulation and resolution
- **D. Demand driven MRP (DDMRP)**

Answer: D

NEW QUESTION # 45

Which object is created to report on market characteristics, such as customer, product, and region?

- **A. Profitability segment**
- B. Profit center
- C. Sales organization
- D. Segment

Answer: A

NEW QUESTION # 46

What action assigns actual costs to a project?

- A. Saving a purchase order
- **B. Material withdrawal from stock**
- C. Material availability check
- D. Releasing a project budget

Answer: B

Explanation:

The action that assigns actual costs to a project is Material withdrawal from stock (C). When materials are withdrawn from stock for use in a project, the actual costs associated with those materials are charged to the project, reflecting the consumption of resources. This is a critical step in project cost management, ensuring that all material costs are accurately accounted for and tracked against the project budget.

* A Material availability check (A) is a step in the planning process to ensure materials are available for the project but does not itself result in cost assignment.

* Saving a purchase order (B) initiates the procurement process but does not directly assign costs to the project until the goods or services are received and consumed.

* Releasing a project budget (D) is the process of formally allocating funds for the project but does not

* directly result in the assignment of actual costs.

NEW QUESTION # 47

.....
