NEW QUESTION # 54

Segmentation was last run many months ago and the replenishment planner is concerned about losing track of items whose policies get changed due to the upcoming resegmentation. There are also a lot of manually assigned segments that must be preserved. Which two approaches for Execute Segmentation should you use in this planner?

- A. Auto-approve segmentation changes should not be selected.
- **B. Save the last segmentation result should be selected.**
- C. No other setting is needed.
- **D. Retain segment overrides should be selected.**

Answer: B,D

Explanation:

To maintain manual overrides and track items through segmentation changes, select both "Save the last segmentation result" to archive the current segmentation configuration and "Retain segment overrides" to preserve manually assigned segments. These options prevent data loss during the resegmentation process
