Don't doubt about it. More useful certifications mean more ways out. If you pass the NSE8_813 exam, you will be welcome by all companies which have relating business with NSE8_813 exam torrent.

Fortinet NSE 8 - Recertification Exam Sample Questions (Q211-Q216):

NEW QUESTION # 211

Refer to the exhibit.

An administrator wants to implement a multi-chassis link aggregation (MCLAG) solution using two FortiSwitch 448D devices and one FortiGate 3700D. As described in the network topology shown in the exhibit, two links are already connected from the FortiGate to each FortiSwitch.

What is required to implement this solution? (Choose two.)

- A. Replace the FortiGate as this one does not have an ISF.
- B. Add set `fortilink-split-interface disable` on the FortiLink interface.
- C. Create two separate link aggregated (LAG) interfaces on the FortiGate side for each FortiSwitch.
- D. An ICL link between both FortiSwitch devices needs to be added.

Answer: B,D

NEW QUESTION # 212

Profile Name: Default Basic **Advanced**

Sandbox Detection

Server

FortiSandbox: NSE8 FSA

Wait for FortiSandbox Results before Allowing File Access

Timeout: 60 seconds
Access will be allowed if results are not received when the timeout expires.

Deny Access to File When There is No Sandbox Result

File Submission Options

All Files Executed from Removable Media

All Files Executed from Mapped Network Drives

All Web Downloads

All Email Downloads

Remediation Actions

Action: **Quarantine** Alert & Notify

Exceptions

Exclude Files from Trusted Sources

Exclude Specified Folders/Files

Anti-Virus Real-Time Protection is enabled without any exclusions.

Referring to the exhibit, which two behaviors will the FortiClient endpoint have after receiving the profile update from the FortiClient EMS? (Choose two.)

- A. Files executed from a mapped network drive will not be inspected by the FortiClient endpoint AntiVirus engine.
- **B. The user will not be able to access a downloaded file for a maximum of 60 seconds if it is not a virus and the FortiSandbox is reachable.**
- C. If the Real-Time Protection does not detect a virus, the user will be able to access a downloaded file when the FortiSandbox is unreachable.
- **D. Access to a downloaded file will always be allowed after 60 seconds when the FortiSandbox is reachable.**

Answer: B,D

NEW QUESTION # 213

A FortiGate deployment contains the following configuration:

```

config system vdom-exception
  edit 1
    set object router.route-map
    set scope inclusive
    set vdom SERVICES
  next
end

```

What is the result of this configuration?

- A. Route-maps are not configurable in VDOM SERVICES
- B. Route-maps from the Root VDOM configuration are available in VDOM SERVICES
- C. Route-maps for VDOM SERVICES are excluded from HA configuration synchronization
- D. Route-maps from VDOM SERVICES are available in all other VDOMs

Answer: C

NEW QUESTION # 214

Refer to the exhibit. FortiManager is configured with the Jinja Script under CLI Templates shown in the exhibit.

```

config vpn ipsec phase1-interface
  edit MyVPN1
    set remote-gw 1.2.3.4
    set interface {{WAN}}
    set peertype any
    set proposal aes256-sha256
    set psksecret Fortinet!!Fortinet
  next
end
config vpn ipsec phase2-interface
  edit MyVPN1
    set phase1name MyVPN1
    set proposal aes256-sha256
    set auto-negotiate enable
  next
end

```

Which two statements correctly describe the expected behavior when running this template?
(Choose two.)

- A. The template will fail because this configuration can only be applied with a CLI or TCL script.
- B. The template will work if you change the variable format to `{{ WAN }}`.
- C. The template will work if you change the variable format to `$(WAN)`.
- D. The administrator must first manually map the interface for each device with a meta field
- E. The Jinja template will automatically map the interface with "WAN" role on the managed FortiGate

Answer: B,D

NEW QUESTION # 215

Examine the two static routes to the same destination subnet 172.20.168.0/24 as shown below; then answer the question following it.

```
config router static
edit 1
set dst 172.20.168.0 255.255.255.0
set distance 20
set priority 10
set device port1
next
edit 2
set dst 172.20.168.0 255.255.255.0
set distance 20
set priority 20
set device port2
next
end
```

Which of the following statements correctly describes the static routing configuration provided above?

- A. The FortiGate evenly shares the traffic to 172.20.168.0/24 through both routes.
- B. The FortiGate shares the traffic to 172.20.168.0/24 through both routes, but the port2 route will carry approximately twice as much of the traffic.
- C. Only the route that is using port1 will show up in the routing table.
- D. The FortiGate sends all the traffic to 172.20.168.0/24 through port1.

Answer: D

NEW QUESTION # 216

.....

Do not miss the opportunity to buy the best NSE8_813 preparation questions in the international market which will also help you to advance with the times. If you are still worrying about our NSE8_813 exam questions, I would like to help you out with the free demos of our NSE8_813 Training Materials compiled by our company.
