## C-S4CPB-2508 Examcollection Dumps & C-S4CPB-2508 Reliable Exam Topics

Since the content of the examination is also updating daily, you will need real and latest SAP C-S4CPB-2508 Dumps to prepare successfully for the C-S4CPB-2508 Certification Exam in a short time. People who don't study from updated C-S4CPB-2508 questions fail the examination and lose time and money.

### SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q43-Q48):

#### NEW QUESTION # 43

Which tasks are mandatory before you can migrate data for a specific object? Note: There are 2 correct answers to this question.

- A. Predecessor objects have been migrated
- B. You select the same migration method previously used for other objects
- C. Permission to migrate the data has been assigned
- D. All previous migration projects are in the "Finished" status

**Answer: A,C**

Explanation:

Before you can migrate data for a specific object, you need to ensure that the following tasks are completed:

\* Predecessor objects have been migrated: Some migration objects depend on other migration objects that need to be migrated first. For example, before you can migrate sales orders, you need to migrate customers, products, and pricing conditions. You can check the dependencies of migration objects in the Migration Cockpit or in the Migration Object Modeler<sup>12</sup>.

\* Permission to migrate the data has been assigned: In addition to having permission to access the Migrate Your Data app, you need permission to migrate each type of data. This is because the Migration Cockpit tool uses the same APIs and technical checks that would be done if you were to create a new data value through the respective application. For example, if you need to create a new bank record in your system, you would use the application, Manage Banks - Master Data. The app would present you with several fields capturing information about the new bank to create the record in your system. Now if you need to create 1,000 banks, it wouldn't be feasible to create each through the Manage Banks - Master Data app one-by-one. Therefore, you need to have the permission to use the Manage Banks - Master Data app in order to migrate bank data using the Migration Cockpit<sup>3</sup>.

The other tasks are not mandatory before you can migrate data for a specific object. You can select different migration methods for different objects, depending on your source system and data format. You can also have multiple migration projects in progress at the same time, as long as they do not contain the same migration objects<sup>4</sup>. References = Migration Object Modeler, Migrating Data with the SAP S/4HANA Migration Cockpit, SAP S/4 HANA Data Migration Cockpit: Migrate Your Data App Guide, Migrating Data to SAP S

/4HANA Cloud, Public Edition

#### NEW QUESTION # 44

What tools enable non-developers to create low/no-code extensions? Note: There are 2 correct answers to this question.

- A. SAP Build
- B. SAP Business Application Studio
- C. SAP Cloud SDK
- D. SAP Fiori extensibility apps

**Answer: A,B**

#### NEW QUESTION # 45

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a day off, it turns out that the app doesn't show up on the user's launchpad.

What can the user do?

- A. Assign a different business role that provides access.
- B. Assign a launchpad space to the business role.
- C. Create a page and assign it to the launchpad space.
- **D. Use the search function to find the app.**

**Answer: D**

#### NEW QUESTION # 46

What is the correct release code for the second feature delivery in February 2025?

- A. 2025.2
- **B. 2502.2**
- C. 2025.2.2
- D. 0

**Answer: B**

#### NEW QUESTION # 47

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question

- **A. Demonstrate SAP Best Practice business processes in the starter system**
- **B. Highlight areas that require configuration or customization decisions.**
- C. Conduct end-user training on active scope items.
- D. Determine set up instructions for customer-driven integrations.

**Answer: A,B**

Explanation:

During the Fit-to-Standard workshops, an implementation consultant supports customer experts by doing the following:

\* Demonstrate SAP Best Practice business processes in the starter system. The consultant shows the customer experts how the standard processes work in SAP S/4HANA Cloud Public Edition and how they fit their business needs<sup>1</sup>.

\* Highlight areas that require configuration or customization decisions. The consultant identifies and documents the gaps between the standard processes and the customer requirements, and proposes solutions that are aligned with the cloud mindset<sup>1</sup>.

The other options are not the correct ways to support customer experts during the Fit-to-Standard workshops. Determining set up instructions for customer-driven integrations is done in the integration phase, after the Fit-to-Standard workshops are completed<sup>2</sup>.

Conducting end-user training on active scope items is done in the deploy phase, before the go-live of the system<sup>3</sup>. References = Conducting Fit-to-Standard Workshops - SAP Learning, SAP S/4HANA Cloud Public Edition - Integration, Deploying SAP S/4HANA Cloud Public Edition.

#### NEW QUESTION # 48

.....

Our C-S4CPB-2508 preparation materials are willing to give you some help if you want to be better in your daily job and get a promotion on matter on the salary or on the position.
