DA0-001 Books PDF | Dump DA0-001 Torrent

With the advent of the era of big data, data information bringing convenience to our life at the same time, the problem of personal information leakage has become increasingly prominent. For preventing information leakage, our DA0-001 test torrent will provide

the data protection for all customers. It is not necessary for you to be anxious about your information gained by the third party. At the same time, the versions of our CompTIA Data+ Certification Exam exam tool also have the ability to help you ward off network intrusion and attacks and protect users' network security. If you choose our DA0-001 Study Materials, we can promise that we must enhance the safety guarantee and keep your information from revealing.

CompTIA Data+ Certification Exam Sample Questions (Q202-Q207):

NEW QUESTION # 202

A JSON file is an example of:

- A. web data.
- B. machine data.
- C. processed data.
- D. structured data.

Answer: D

Explanation:

A JSON (JavaScript Object Notation) file is a text-based format for representing structured data based on JavaScript object syntax. It is commonly used for transmitting data in web applications (e.g., sending some data from the server to the client, so it can be displayed on a web page, or vice versa). JSON files are human-readable and can be interpreted by various programming languages, making them ideal for data interchange¹²³.

JSON files typically contain an array of objects, with each object representing a record with a series of name-value pairs. This structured format is both easy to understand and write by humans and easy for machines to parse and generate⁴.

References:

- * JSON's official definition and syntax rules¹.

- * Understanding the JSON file format³.
- * Detailed explanation of JSON as a structured data format⁴.

NEW QUESTION # 203

A company's human resources department has asked a data analyst to categorize the income of all employees into five salary bands:

Employee_ID	Salary	Salary_band
003	\$130,000	
014	\$120,000	
004	\$110,000	
013	\$90,000	
002	\$140,000	
012	\$122,000	
016	\$132,000	
006	\$70,000	
017	\$53,000	
009	\$111,000	
019	\$107,000	
008	\$111,000	
018	\$50,000	

Which of the following types of functions would be the most appropriate to use?

- A. Mathematical
- B. Statistical
- C. Aggregate
- D. Logical

Answer: D

Explanation:

Short explanation: Logical functions are the most appropriate to use for categorizing data into bands, because they allow the data analyst to apply conditional statements and criteria to the data values. For example, the IF function can be used to assign a band name based on whether a value meets a certain condition or not. Other logical functions that can be useful for categorizing data are AND, OR, NOT, and IFERROR12

NEW QUESTION # 204

A data analyst needs to calculate the mean for Q1 sales using the data set below:

Product	Q1 sales
Ground beef	\$2,667.60
Crab meat	\$1,768.41
Swiss cheese	\$3,182.40
Broccoli	\$1,509.60
Vegetable spread	\$3,202.87

Which of the following is the mean?

- A. \$3,082.72
- B. \$12,330.88
- C. \$2,466.18
- D. \$2,667.60

Answer: A

Explanation:

The mean is the average of all the values in a data set. To calculate the mean, we add up all the values and divide by the number of values. In this case, the mean for Q1 sales is $(\$2,000 + \$3,000 + \$4,000 + \$2,500 + \$3,500) / 5 = \$3,082.72$ References: CompTIA Data+ Certification Exam Objectives, page 9

NEW QUESTION # 205

Which of the following is the correct data type for text?

- A. String
- B. Integer
- C. Float
- D. Boolean

Answer: A

Explanation:

Explanation

The correct data type for text is string. A string is a data type that represents a sequence of characters, such as letters, numbers, symbols, or spaces. A string can be enclosed by single quotes (') or double quotes (") in most programming languages. For example, 'Hello', "World", and "123" are all strings. The other options are not data types for text, but for other kinds of values. A boolean is a data type that represents a logical value, either true or false. An integer is a data type that represents a whole number, such as 1, 0, or -5. A float is a data type that represents a number with a fractional part, such as 3.14, 0.5, or -2.7. Reference: Data Types - W3Schools

NEW QUESTION # 206

A manufacturing company's management team wants to receive regular updates on production metrics without having to manually access the dashboard. The company would like to be automatically emailed relevant dashboard sections at specific intervals. Which of the following dashboard methods satisfies the requirements?

- A. Date range
- B. Subscription
- C. Saved searches
- D. Interactive

Answer: B

Explanation:

A "Subscription" allows users to receive scheduled email updates of dashboard snapshots or reports, eliminating the need to access dashboards manually. This feature can be set up to automatically send relevant dashboard sections to specified recipients at chosen intervals, which matches the scenario described.
