## Salesforce Certified Education Cloud Consultant Sample Questions (Q156-Q161):

### NEW QUESTION # 156

The Recruitment and Admissions office has an existing Salesforce environment they wants to expand to include all of the school's operations and service. The school has asked the consultant for recommendations to ensure the expansion is efficient, ..... and will meet the need of new existing user.

Which should the consultant recommend to meet the requirements?

- A. Encourage users to post ideas on Chatter.
- B. Grant System Admin access for each department leader.
- C. Create a Trailmix for new users.
- D. **Build a Center of Excellence.**

### Answer: D

Explanation:

The consultant should recommend the school to build a Center of Excellence, because this can ensure that the expansion of their Salesforce environment is efficient, scalable, and will meet the needs of new and existing users. A Center of Excellence is a team or a group of teams that provide leadership, best practices, governance, and support for Salesforce within an organization. A Center of Excellence can help the school align their Salesforce strategy with their business goals, manage change and adoption, optimize performance and security, and foster innovation and collaboration. Creating a Trailmix for new users, granting System Admin access for each department leader, and encouraging users to post ideas on Chatter are not recommendations that can ensure that the expansion of the Salesforce environment is efficient, scalable, and will meet the needs of new and existing users. ### NEW QUESTION # 157

A school wants to use the K-12 Architecture Kit to track elementary students and their parents. Which consideration about the K-12 Architecture Kit should the consultant discuss with the school?

- A. It requires Experience Cloud.
- B. It is built on the Education Data Architecture.
- C. **It is built on Nonprofit Success Pack.**

### Answer: C

Explanation:

The consultant should discuss with the school that K-12 Architecture Kit is built on Nonprofit Success Pack as a consideration about K-12 Architecture Kit when using it to track elementary students and their parents. K-12 Architecture Kit is a product that provides a flexible and scalable data architecture for K-12 schools to manage their student lifecycle. K-12 Architecture Kit is built on Nonprofit Success Pack, which is a product that provides a data architecture for nonprofit organizations to manage their constituents and donors. K-12 Architecture Kit extends Nonprofit Success Pack by adding objects and features such as Contacts, Accounts, Relationships, Affiliations, Attendance Events, or Behavior Responses. The consultant should discuss with the school that K-12 Architecture Kit is built on Nonprofit Success Pack as a consideration about K-12 Architecture Kit when using it to track elementary students and their parents by explaining the benefits and challenges of using Nonprofit Success Pack for a K-12 school, such as data model, terminology, or configuration. It requires Experience Cloud, it is built on EDA, or it is built on Admissions Connect are not considerations about K-12 Architecture Kit that the consultant should discuss with the school when using it to track elementary students and their parents. ### NEW QUESTION # 158

The director of graduate recruitment is interested in Education Cloud. Recruitment staff need to access Opportunity and Campaign Member information about students. The IT director is concerned about costs and suggests using other license types for full-time recruitment users.

What should the consultant discuss with the client?

- A. The business use case requires a full Salesforce license.
- B. Education Cloud requires a Customer Community license.
- C. The business use case requires a Salesforce Platform license.

**Answer: A**

Explanation:

Understanding Licensing Requirements:

Full-time recruitment staff need access to Opportunity and Campaign Member objects, which are part of core Salesforce functionalities.

Salesforce Platform licenses have limitations on access to certain standard objects such as Opportunities and Campaigns, which are essential for the recruitment use case.

Business Use Case for Full Salesforce License:

Opportunity Management: Recruitment staff need to manage opportunities related to student admissions and engagement.

Campaign Management: Access to Campaign Members allows recruitment staff to track and manage student participation in various recruitment campaigns.

Advanced CRM Functionalities: Full Salesforce licenses provide access to all Salesforce CRM capabilities, which are necessary for comprehensive recruitment operations.

Cost Considerations:

While full Salesforce licenses are more expensive than platform licenses, they provide the necessary functionality without limitations.

Discuss potential volume discounts or bundling options with Salesforce to mitigate costs.

Implementation Steps:

License Assignment: Ensure that full Salesforce licenses are assigned to recruitment staff.

Training: Provide training to recruitment staff on how to effectively use Opportunities and Campaign Members.

Customization: Customize Salesforce to meet specific recruitment needs, leveraging Opportunities and Campaign functionalities.

## NEW QUESTION # 159

A university works with business professionals through a continuing education program. Corporate recruiters work with employers to sponsor these programs.

Which object should recruiters use to track the progress of sponsorship requests?

- A. Campaign
- B. Program Plan
- C. Affiliation
- D. Opportunity

**Answer: D**

Explanation:

Opportunity is an object that recruiters should use to track the progress of sponsorship requests. Opportunity is an object that represents a potential sale or revenue source for an organization, such as a donation, grant, or sponsorship. Opportunity can be used to track various information about a sponsorship request, such as amount, stage, probability, or close date. Campaign, Program Plan, and Affiliation are not objects that recruiters should use to track the progress of sponsorship requests. Reference:

## NEW QUESTION # 160

A college plans to implement Student Success Hub and wants to configure Pathways to support students in their academic journey. What should be considered when implementing Pathways?

- A. There are only two levels of Program Plan requirements in Pathways.
- B. There is a limit to the number of Plan Requirement records.
- C. Pathways uses Program Plan and Plan Requirement records.

**Answer: C**

#### Explanation:

The college should consider that Pathways uses Program Plan and Plan Requirement records when implementing Pathways to support students in their academic journey. Pathways is a feature in Student Success Hub that allows users to create and manage personalized learning plans for students based on their goals and interests. Pathways uses Program Plan and Plan Requirement records to define the structure and requirements of a learning plan, such as courses, credits, or milestones. The college should consider that Pathways uses Program Plan and Plan Requirement records when implementing Pathways to support students in their academic journey by configuring and customizing these records to match their academic programs and policies. There is a limit to the number of Plan Requirement records or there are only two levels of Program Plan requirements in Pathways are not things that the college should consider when implementing Pathways to support students in their academic journey.
