Pass Guaranteed 2026 Accurate Juniper Latest Test JN0-253 Experience

There are many users who worry that if they fail to pass the exam after purchasing our JN0-253 latest exam torrents, the money will be wasted, and the cost of the test seems too great to be worth. The JN0-253 exam questions in order to let users do not have such concerns, solemnly promise all users who purchase the JN0-253 latest exam torrents, the user after failed in the exam as long as to provide the corresponding certificate and failure scores scanning or screenshots of JN0-253 Exam, we immediately give money refund to the user, and the process is simple, does not require users to wait too long a time. Of course, if you have any other

questions, users can contact the customer service of JN0-253 test torrent online at any time, they will solve questions as soon as possible for the users, let users enjoy the high quality and efficiency refund services.

Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q59-Q64):

NEW QUESTION # 59

What is the maximum number of nodes supported in a Mist Edge high availability cluster?

- A. ten nodes
- B. three nodes
- C. unlimited nodes
- **D. two nodes**

Answer: D

Explanation:

A Mist Edge high availability cluster supports a maximum of two nodes. This allows for redundancy and failover in case one of the nodes goes down.

NEW QUESTION # 60

Which two statements describe port profiles? (Choose two.)

- A. They include a set of routing configurations.
- **B. They include a set of interface configurations.**
- **C. They can be assigned to multiple ports.**
- D. They must be assigned to only one port.

Answer: B,C

Explanation:

Port profiles in Juniper Mist Wired Assurance are reusable configuration templates that define how switch ports behave. They streamline switch provisioning and ensure consistent configurations across multiple ports and devices within a site or organization. According to the Juniper Mist Wired Assurance Configuration Guide, port profiles are defined as:

"A collection of interface-level settings that can be applied to one or more switch ports to simplify configuration and ensure uniform policy enforcement." Key characteristics include:

* Reusable templates: Port profiles can be assigned to multiple ports on one or more switches, allowing rapid deployment and consistent port behavior (e.g., access, trunk, voice VLAN).

* Interface-level parameters: They include settings such as VLAN assignments, PoE configuration, speed, duplex, and LLDP options.

Port profiles do not include routing configurations (those are defined at the Layer 3 interface or VLAN interface level) and are not limited to a single port.

Therefore, the correct answers are:

- * A. They can be assigned to multiple ports.
- * B. They include a set of interface configurations.

NEW QUESTION # 61

What are two requirements to use the Wired Visibility option of Juniper Mist Wireless Assurance? (Choose two.)

- **A. The LLDP protocol must be configured on the switch.**
- B. The SNMP protocol must be configured on the switch.
- **C. A Mist AP must be deployed in the network.**
- D. A cloud-ready switch must be deployed in the network.

Answer: A,C

Explanation:

The Wired Visibility feature in Juniper Mist relies on Mist APs to gather insights about wired network devices. The APs act as sensors to collect data from connected switches and devices.

LLDP (Link Layer Discovery Protocol) is required for discovering neighboring devices, identifying switch port details, and enabling Wired Visibility to provide comprehensive insights.

NEW QUESTION # 62

What is used in Wireless Assurance to evaluate information about possible network faults?

- A. SNMP
- B. syslog analysis
- C. tcpdump
- D. machine learning

Answer: D

Explanation:

Machine Learning in Wireless Assurance: Mist's Wireless Assurance uses machine learning to analyze telemetry data and identify potential network issues. This approach allows for proactive identification and resolution of faults, improving overall network reliability and performance.

NEW QUESTION # 63

Which location-based service does User Engagement provide?

- A. asset tracking
- B. Wi-Fi presence analytics
- C. wayfinding
- D. ultra wide band location

Answer: B

NEW QUESTION # 64

.....

As we all know, for candidates all they do is to pass the exam. If you choose us, we will help you pass the exam successfully. With the pass rate is 98.65% for JN0-253 study materials, we can ensure you pass the exam, and we also pass guarantee and money back guarantee if you fail to pass the exam. Besides, we have the skilled professionals to compile and verify the JN0-253 Exam Braindumps, they have covered most knowledge points of the exam. JN0-253 study materials contain both questions and answers, and you can have a quickly check after practicing.
