

Correct Network Appliance NS0-901 Exam Simulator Fee With Interactive Test Engine & Professional NS0-901 New Braindumps Pdf

P.S. Free & New NS0-901 dumps are available on Google Drive shared by FreeCram: <https://drive.google.com/open?id=15PydL2RaEJEcGrPAs86GjhAn0uyVEgnf>

Do you know why you feel pressured to work? That is because your own ability and experience are temporarily unable to adapt to current job requirements. To buy our NS0-901 practice engine at this time is to upgrade your skills and experience to the current requirements in order to have the opportunity to make the next breakthrough. And our NS0-901 Exam Braindumps are good to help you in developing your knowledge and skills. Besides, our NS0-901 study guide will reward you with the certification.

We all know the effective diligence is in direct proportion to outcome, so by years of diligent work, our experts have collected the frequent-tested knowledge into our NS0-901 practice materials for your reference. So our NS0-901 training materials are triumph of their endeavor. By resorting to our NS0-901 practice materials, we can absolutely reap more than you have imagined before. We have clear data collected from customers who chose our NS0-901 actual tests, the passing rate is 98-100 percent. So your chance of getting success will be increased greatly by our materials.

NS0-901 New Braindumps Pdf & Latest NS0-901 Test Guide

In the past ten years, our company has never stopped improving the NS0-901 study materials. For a long time, we have invested much money to perfect our products. The job with high pay requires they boost excellent working abilities and profound major knowledge. Passing the NS0-901 exam can help you find the job you dream about, and we will provide the best NS0-901 question torrent to the client. We are aimed that candidates can pass the exam easily. The study materials what we provide is to boost pass rate and hit rate, you only need little time to prepare and review, and then you can pass the NS0-901 exam.

Network Appliance NetApp Certified AI Expert Exam Sample Questions (Q59-Q64):

NEW QUESTION # 59

An MLOps team uses a variety of platforms to manage their AI workloads. They need to understand the primary function of each tool within their ecosystem. Which statement best describes the role of an MLOps/LLMOps platform like Kubeflow or Run:AI?

- A. They are networking protocols designed to accelerate data transfer between GPUs.
- B. They are specialized storage systems designed to hold large datasets for training.
- C. They are integrated development environments (IDEs) used exclusively for writing Python code.
- **D. They are orchestration and management platforms that automate and streamline the entire AI/ML lifecycle, from data preparation and model training to deployment and monitoring.**

Answer: D

NEW QUESTION # 60

An AI team is planning two separate projects. The architect needs to provision the appropriate infrastructure for each.

| | Project A | Project B |

| -- | | - |

| Goal | Build a novel image recognition model from scratch.

| Adapt an existing, pre- trained LLM to understand company-specific jargon. |

| Input Data | 10 million new, unlabeled images. | A 50 GB text corpus of internal documents. |

| Required Compute | Very High (Weeks of multi-GPU training) | Moderate (Hours of single-GPU training) | Which two statements accurately describe the infrastructure requirements for these projects?

(Choose two.)

- **A. Project A is a model building task and requires a significantly larger and more powerful compute and storage infrastructure than Project B.**
- B. Both projects should use NetApp StorageGRID as the primary storage for training to ensure low latency.
- C. Both projects are examples of fine-tuning and have similar infrastructure needs.
- D. Project A requires only a large amount of data, while Project B requires only a large amount of code.
- **E. Project B is a fine-tuning task, which leverages an existing model and requires less data and compute resources than building a model from scratch.**

Answer: A,E

NEW QUESTION # 61

An enterprise is planning a generative AI solution to power its internal support chatbot. The architect must choose between a RAG-based approach and fine-tuning a base model. The project stakeholders have provided a list of prioritized requirements.

| Requirement | Priority | Details |

|

| | -- | |

| Factual Accuracy | Critical | Must use the latest product documentation, updated daily.

| | Brand Voice & Persona | High | Must respond in the company's specific, formal tone.

| | Development Cost | High | Limited budget for GPU compute hours for model training.

|

| Data Traceability | Critical | Must be able to cite the exact source document for each answer.

|

Which two recommendations should the architect make to best satisfy these requirements?

(Choose 2.)

- A. Propose a hybrid approach where a base model is first lightly fine-tuned for persona, then used within a RAG system for factual grounding.
- B. Prioritize a RAG architecture to meet the critical requirements for factual accuracy and data traceability.
- C. Prioritize fine-tuning to embed the company's brand voice and persona into the model.
- D. Use RAG exclusively, as prompt engineering alone can fully replicate a specific brand voice and persona.
- E. Recommend training a new LLM from scratch to ensure both brand voice and factual accuracy are built-in.

Answer: A,B

NEW QUESTION # 62

An architect is designing a scalable, automated MLOps platform using Kubeflow on a Kubernetes cluster. The platform must support the entire AI lifecycle for multiple teams, with different storage requirements at each stage.

The key requirements are:

- Data Ingestion: A pipeline step needs a shared, read-write volume accessible by multiple pods to stage raw data.
- Experimentation: Data scientists need individual, isolated volumes for their Jupyter notebooks.
- Training: Distributed training jobs require a high-performance, parallel-access filesystem for reading training data.
- Automation: All storage must be provisioned automatically via Kubeflow pipeline definitions without manual intervention.

Which combination of technologies and configurations would create the most effective solution?

- A. Use the NetApp DataOps Toolkit for all storage provisioning, bypassing Trident and Kubernetes PVCs.
- B. Use the NetApp DataOps Toolkit for Python within the Kubeflow pipeline components to dynamically create and manage Trident PVCs for each stage.
- C. Create a single, large NFS volume and mount it to all pods using a static PersistentVolume.
- D. Rely on hostPath volumes for all storage to ensure the highest performance.
- E. Configure multiple Trident backends (e.g., 'ontap-nas' for standard volumes, 'ontap-nas-flexgroup' for parallel access) and corresponding StorageClasses.

Answer: B,E

NEW QUESTION # 63

An organization is planning to deploy a large AI infrastructure but wants to avoid a large, upfront capital expenditure. They prefer an operational expenditure (OpEx) model where they pay for storage and compute resources as they are consumed. They also need the flexibility to scale resources up or down based on project demands.

Which NetApp consumption model is specifically designed to meet these financial and operational requirements?

- A. NetApp Cloud Volumes ONTAP PAYGO licensing only.
- B. NetApp Keystone, which provides a subscription-based, pay-as-you-go service for on-premises and cloud storage.
- C. A standard capital purchase of AFF and ASA systems.
- D. A perpetual licensing model for all ONTAP software features.

Answer: B

NEW QUESTION # 64

.....

If you want to pass the Network Appliance NS0-901 exam on the first attempt then we suggest you start this journey with Network Appliance NS0-901 exam dumps. The Network Appliance NS0-901 PDF dumps file, practice test software, and web-based practice test software, all three Network Appliance NS0-901 Exam Questions formats are ready for download.

NS0-901 New Braindumps Pdf: <https://www.freecram.com/NetworkAppliance-certification/NS0-901-exam-dumps.html>

Luckily, we are going to tell you a good new that the demo of the NS0-901 study materials are easily available in our company, Sometime they may say it is same price with us as well as they have 1200 questions of NS0-901 guide torrent, we just have 300 questions for some exam, Top Quality Network Appliance NS0-901 DUMPS, Latest NS0-901 exam resources guarantee you 100% pass.
