DSCI Certified Privacy Lead Assessor DCPLA certification certification is globally recognized and is an excellent way to highlight the skills and knowledge of an individual in privacy assessment.

## **DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q25-Q30):**

### **NEW QUESTION # 25**

Which of the following is not an appropriate privacy principle?

I. Collection limitation  
ii. Collection limitation  
in. Notice  
iv. Consent  
v. Access & correction  
VI. Data usage

- A. Collection limitation
- B. Access & Correction
- C. Data usage
- D. **Notice**

**Answer: D**

### **NEW QUESTION # 26**

Which of the following is not in line with the modern definition of Consent?

- A. **Consent should be bundled in nature**
- B. Consenting individual should have the ability to withdraw consent
- C. Consent is taken by clear and affirmative action
- D. Purpose of processing should be informed to the individual before consenting

**Answer: A**

### **NEW QUESTION # 27**

Categorise the following statement:

"For an identified data leakage scenario, security team is struggling to configure rules."

- A. Visibility
- B. Demonstration
- C. **Capability**
- D. Enforcement

**Answer: C**

Explanation:

The statement reflects an organization's difficulty in operationalizing privacy safeguards in response to a known threat scenario. According to the DSCI Assessment Framework for Privacy (DAF-P©), "Capability" refers to an organization's ability to implement and maintain technical, procedural, and administrative controls effectively.

A struggling security team in configuring rules for a known leakage scenario indicates a gap in technical expertise or resources, which directly correlates with a lack of "Capability." This category assesses how prepared an organization is in deploying privacy controls, managing incidents, and aligning security technologies with privacy requirements.

Thus, the challenge in configuring protective rules is best categorized under "Capability" as it denotes a functional inadequacy in handling privacy-related incidents.

### NEW QUESTION # 28

Which of the following could be considered as triggers for updating privacy policy? (Choose all that apply.)

- A. Regulatory changes
- B. Privacy breach
- C. Recruitment of more employees
- D. Change in service provider for an established business process

**Answer: A,B**

### NEW QUESTION # 29

What is a Data Controller?

- A. Entity that determines the purpose and means for data processing
- B. Entity that collects personal data
- C. Entity that stores personal data
- D. Entity that shares personal data with third parties

**Answer: A**

Explanation:

As per the DSCI Privacy Framework and consistent with definitions in APEC and GDPR standards, a Data Controller (or Personal Information Controller) is defined as:

"A person or organization who controls the collection, holding, processing, or use of personal information. It includes one who instructs another to do so on its behalf." Thus, a data controller determines the "purpose and means" of processing, not merely performing or facilitating storage or sharing.

This is a central concept to ensuring accountability in privacy frameworks, as the controller is the primary entity responsible for compliance with data protection principles.

### NEW QUESTION # 30

.....

Real4dumps serves as a most important source of IT certification information. You can find learning materials and study guides.
