

# HQT-4160 Latest Exam Format - New HQT-4160 Dumps Files

<b>Exam Type</b> Qualification
<b>Format</b> Proctored, closed book exam
<b>Credential</b> Hitachi Vantara Qualified Professional - VSP 5000 Series Installation
<b>Validity</b> 3 years
<b>Delivery</b> Criterion Webassessor System*
<b>Questions</b> 35
<b>Passing Score</b> 65%
<b>Duration</b> 60 minutes
<b>Cost</b> US \$100 or equivalent in local currency (plus local tax, depending on location)
<b>Supporting Material</b> • 1090PI - Installing and Configuring the Hitachi VSP 5000 Series (5 day-ILT)

This test is designed for Hitachi Vantara employees and partners who install Hitachi Virtual Storage Platform (VSP) 5000 series systems. The test will validate that the successful candidate has knowledge and skills in installing, configuring and supporting VSP 5000 series systems at customer sites. This includes strong knowledge of the systems' hardware and associated program products, thorough understanding of installation and configuration procedures, and associated support activities. This test covers Hitachi Virtual Storage Platform models VSP 5100(H), VSP 5500(H), VSP 5200(H) and VSP 5600(H).

**Audience:** Hitachi Vantara Employee and Partner Installation Professionals

Hitachi VSP 5000 series installation professionals should have strong knowledge and skills in installing and supporting storage systems deployed as part of VSP 5000 series solutions implementation. They perform pre-installation checks and install, configure and test the systems so they can be handed over in an operational state to customers. They also provide post-installation services, including support, maintenance, updates and upgrades, and have knowledge of problem-determination and incident-resolution procedures, tools and techniques.

Test Objectives	
<b>Section 1 System Architecture</b>	
1.1	Describe the different VSP 5000 models and their specifications.
1.2	Describe the VSP 5000 systems architecture, their components and their functions.
1.3	Describe the front-end design and layout of VSP 5000 systems and the supported Channel Boards (CHBs).
1.4	Describe the back-end design and layout of VSP 5000 systems and the supported Disk Adapters (DKAs).
<b>Section 2 System Pre-installation and Installation</b>	
2.1	Describe the VSP 5000 storage systems pre-installation procedures and documentation.
2.2	Describe the VSP 5000 disk controllers (DKCs) interconnections.
2.3	Describe the "New Installation" procedure for VSP 5000 storage systems and when it is appropriate to use.
2.4	Describe the VSP 5000 storage systems network settings.
2.5	Describe the VSP 5000 storage microcode upgrade procedures.
<b>Section 3 System Configuration</b>	
3.1	Describe the key steps involved in the installation of VSP 5000 storage systems.
3.2	Describe how to create Parity Groups on VSP 5000 storage systems.

\* Depending on the location and course delivery format, this closed-book, proctored qualification test may also be offered and administered by the instructor at the conclusion of the supporting course.

## New HQT-4160 Dumps Files - Reliable HQT-4160 Exam Camp

The most important is that you just only need to spend 20 to 30 hours on practicing HQT-4160 exam questions before you take the exam, therefore you can arrange your time to balance learning and other things. Of course, you care more about your test pass rate.

We offer you more than 99% pass guarantee if you are willing to use our HQT-4160 Test Guide and follow our plan of learning. And if you want to pass the HQT-4160 exam, you should choose our HQT-4160 torrent prep to help you. And We will update HQT-4160 learning materials to make sure you have the latest questions and answers.

## Hitachi Vantara Qualified Professional - VSP 5000 Series Installation Sample Questions (Q55-Q60):

### NEW QUESTION # 55

Which management tool is used to create a Parity Group in a VSP 5000 system?

- A. Maintenance Utility
- B. Hitachi Command suite
- C. Web Console
- **D. Storage Navigator 2**

**Answer: D**

Explanation:

Storage Navigator 2 is the primary management tool used for configuring and managing storage on VSP 5000 systems, including the creation of Parity Groups.

### NEW QUESTION # 56

When a hot spare drive is activated in a VSP 5000 system, it's important to:

- **A. Immediately order a replacement for the hot spare**
- B. Reconfigure the RAID settings
- C. Perform a full backup of the system
- D. Power down the system to avoid data loss

**Answer: A**

Explanation:

In the Hitachi VSP 5000 storage system, a hot spare is a drive reserved to automatically replace a failing drive in a RAID group. When it is activated:

The hot spare takes over the failed drive, and RAID rebuild begins.

At this point, the system no longer has a spare available for future failures.

Therefore, it is critical to order and install a new hot spare as soon as possible to maintain full redundancy and data protection.

### NEW QUESTION # 57

Which component in the VSP 5000 series is responsible for managing front-end connectivity?

- A. Data Accelerator
- B. Cache Memory
- C. Disk Adapter (DKA)
- **D. Channel Board (CHB)**

**Answer: D**

Explanation:

In the Hitachi VSP 5000 storage system:

The Channel Board (CHB) is responsible for front-end connectivity, meaning it manages the communication between the storage system and hosts or servers over interfaces like Fibre Channel or iSCSI.

It handles I/O requests, protocol processing, and ensures data flows correctly between external hosts and internal storage components.

### NEW QUESTION # 58

Configuration of the \_\_\_\_\_ is crucial for integrating VSP 5000 systems with existing IT environments.

- A. security protocols
- **B. network settings**
- C. SVP Agent
- D. user permissions

**Answer: B**

Explanation:

Proper network configuration is essential when integrating the Hitachi VSP 5000 storage system into an existing IT infrastructure. Network settings ensure that the storage system can communicate with hosts, switches, and management platforms within the organization's environment.

Key network configuration tasks include:

- Assigning IP addresses to management interfaces
  - Configuring subnets and gateways
  - Setting up DNS and routing
  - Ensuring connectivity to SAN or Ethernet networks
  - Integrating with monitoring and management systems
- Without proper network configuration, the storage system may not be accessible or manageable within the enterprise environment.

### NEW QUESTION # 59

Which two statements are correct regarding the "New Installation" procedure on a VSP 5000 system? (Choose two.)

- **A. A customer can make a request to Hitachi Vantara Technical Support for a "New Installation" procedure, if they want to reinitialize a system entirely so all former data will be erased.**
- B. Customer Engineers (CEs) should always perform the "New Installation" procedure when a new unit arrives at customer site.
- **C. Hitachi Vantara recommends not to perform the "New Installation" procedure on second-hand systems.**
- D. You can perform the "New Installation" procedure if a newly installed system does not power on and the Hitachi Vantara Technical Support instructs you to do so.

**Answer: A,C**

Explanation:

Hitachi Vantara recommends not to perform the "New Installation" procedure on second-hand systems.

Performing the "New Installation" procedure on used or second-hand systems is not recommended due to potential configuration, licensing, and warranty concerns.

A customer can make a request to Hitachi Vantara Technical Support for a "New Installation" procedure, if they want to reinitialize a system entirely so all former data will be erased.

Customers may request Technical Support to perform a "New Installation" to fully reinitialize the system, which erases all existing data and restores factory settings.

### NEW QUESTION # 60

.....

Life is full of choices. Selection does not necessarily bring you happiness, but to give you absolute opportunity. Once missed selection can only regret. PrepAwayTest's Hitachi HQT-4160 exam training materials are necessary to every IT person. With this materials, all of the problems about the Hitachi HQT-4160 will be solved. PrepAwayTest's Hitachi HQT-4160 exam training materials have wide coverage, and update speed. This is the most comprehensive training materials. With it, all the IT certifications need not fear, because you will pass the exam.
