These topics include system architecture, licensing and upgrades, user management, call handling, and troubleshooting.

Avaya IP Office™ Platform Implement Certified Exam Sample Questions (Q81-Q86):

NEW QUESTION # 81

Which settings must be applied for each Avaya Equinox Client User in an Avaya IP Office configuration?

- A. The desktop or tablet and/or Mobile VoIP client's selections are set to yes
- B. The desktop or tablet IP address and unique identity selections are set to yes
- C. Desktop or tablet client's selections are set to yes, and the Mobile Number entered
- **D. The desktop IP address is defined and VoIP client's selections are set to yes**

Answer: D

NEW QUESTION # 82

During an Avaya IP Office Installation, how is an Auto Attendant tested?

- A. Dial the default Short Code *91#
- B. Call the Voicemail Start Code *77
- C. Call the Voicemail Announcement Code *8101
- **D. Create and dial a new Auto Attendant Short Code**

Answer: D

NEW QUESTION # 83

After the installation of Avaya Equinox Client on a User's Computer has been completed, which User Information is needed when the client is configured manually?

- **A. The User's Name and Password**
- B. The User's Extension and Login Code
- C. The User's Extension and Password
- D. The User's Name and Login Code

Answer: A

NEW QUESTION # 84

Which statement about the manager to Server Edition is true?

- A. Manager has been ported to Web Management.
- **B. Manager shows the status of all servers on one screen.**
- C. Manager runs on the server itself.

- D. Manager includes Voicemail Pro Client.

Answer: B

Explanation:

The Avaya IP Office Manager is a critical administrative tool used to configure and manage IP Office systems, including the Server Edition. The Server Edition is a scalable solution designed for larger deployments, allowing multiple IP Office servers (Primary, Secondary, and Expansion systems) to work together as a single system. Option B, "Manager shows the status of all servers on one screen," is true because, in Server Edition deployments, the IP Office Manager provides a consolidated view of the network, displaying the status of all connected servers (e.g., Primary Server, Secondary Server, and Expansion Systems) in a single interface. This feature simplifies monitoring and management across distributed systems.

Option A is incorrect because, while web-based management exists (via Web Manager), the traditional Manager application is a standalone Windows-based tool, not fully ported to Web Management. Option C is incorrect as the Voicemail Pro Client is a separate application, not bundled within Manager. Option D is also incorrect because Manager is typically installed on a separate PC, not directly on the server itself, though it communicates with the server for configuration. References: Avaya IP Office Platform Server Edition Reference Configuration Guide, IP Office Manager documentation.

NEW QUESTION # 85

When setting up Alarm Notifications on an Avaya IP Office solution, which three destination criteria can be selected? (Choose three.)

- A. Email
- B. Syslog
- C. SysMon
- D. Outcalling
- E. Trap

Answer: A,B,E

NEW QUESTION # 86

.....

NewPassLeader is an excellent source of information on IT Certifications. In the NewPassLeader, you can find study skills and learning materials for your exam.
