ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q57-Q62):

NEW QUESTION # 57

If an it_project_manager does not want to equally distribute hours across the resource plan time frame, what allocation spread should be used?

- A. Even.
- B. Front Load.
- C. Any.
- D. Back Load.

Answer: C

Explanation:

If an it_project_manager does not want to equally distribute hours across the resource plan time frame, the allocation spread should be set to Any. This option allows the it_project_manager to manually enter the hours for each month or quarter in the resource plan. The other options (Even, Back Load, and Front Load) automatically distribute the hours evenly, from the end, or from the start of the time frame, respectively. You can find more information about the allocation spread in the Product Documentation for ServiceNow.

NEW QUESTION # 58

If the 'Move project for WIP projects' property is enabled, project tasks associated with the project are also moved, except for tasks in which of the following states?

Choose 2 answers

- A. Closed
- B. Open
- C. Pending
- D. Work in Progress

Answer: A,D

Explanation:

According to the Planning Console document, if the 'Move project for WIP projects' property is enabled, project tasks associated with the project are also moved, except for tasks in the Work in Progress or Closed states. The other options are not correct, as tasks in the Pending or Open states are moved along with the project.

NEW QUESTION # 59

When can a user choose from multiple rate types for their work, while logging a time card?

- A. Only one (1) rate type can apply
- B. Only if the capability is enabled in the Time Sheet Policies
- C. Only if this capability is enabled in the Project Record
- D. Only if the capability is enabled in the Project Preferences

Answer: B

Explanation:

Explanation

According to the Using rate types and labor rate cards document, a user can choose from multiple rate types for their work, while logging a time card, only if the capability is enabled in the Time Sheet Policies. This capability allows users to select different rate types for different tasks, such as standard, overtime, or travel.

The other options are not correct, as they are not the places where the capability can be enabled. The Project Record is used to create and update project details, such as name, description, and state. The Project Preferences are used to set the default values for project fields, such as number, type, and priority. The option C is not correct, as more than one rate type can apply if the capability is enabled.

NEW QUESTION # 60

A program is a container for the following except for:

- A. Portfolios

- B. Program tasks
- C. Cost plans
- D. Issues

Answer: A

Explanation:

According to the ServiceNow documentation¹, a program is a container for the following:

Program tasks: Tasks that define the scope and deliverables of the program².

Issues: Problems that affect the program or its outcome³.

Cost plans: Plans that estimate the cost of the program and its components⁴.

A portfolio is not a part of a program, but rather a collection of programs and projects that are aligned with a strategic goal or objective.

NEW QUESTION # 61

Idea [im_idea_core] is directly extended from which table?

- A. Project
- **B. It is not extended from any table**
- C. Idea Modules
- D. Task

Answer: B

Explanation:

According to the ServiceNow documentation¹, the Idea [im_idea_core] table is a base table that is not extended from any other table. It stores information about ideas and their categories. The other options are incorrect because:

Task: The Task table is a base table that is extended by many other tables, such as Project, Demand, Incident, etc².

Idea Modules: The Idea Modules table is a child table of the Idea [im_idea_core] table that defines the idea modules displayed on the Idea Portal³.

Project: The Project table is a child table of the Task table that stores information about projects.
